I. OPENING

- A. Call to Order
- B. Proper Noticing
- C. Determination of Quorum

II. AGENDA UPDATE

Proposed revisions to today's Agenda

III. COMMENTS FROM THE GENERAL PUBLIC ON ANY AGENDA ITEMS

At this point in the meeting, the Committee will hear citizens' questions, comments, and concerns. If the issue raised is not on today's Agenda, the Board will not take action at this meeting. Questions may be answered by staff or referred for appropriate staff action. If further action is necessary, the item may be placed on a future committee agenda. Public comment shall be limited to three minutes per person.

IV. CONSENT AGENDA

No Items for approval on the Consent Agenda

V. ACTION ITEMS

- A. Approval of November 10, 2021, TAC Meeting Minutes
- B. 2045 LRTP Amendment - Public Review period April 6, 2022, through April 27, 2022

Date / Time: February 9, 2022 | 1:30 PM

The 2045 Long Range Transportation Plan requires revisions to address specific changes in the FDOT Work Program for SR 50 and other changes provided by Lake or Sumter Counties. MPO staff is asking the Board to open the Public Review period on April 6, 2022, and close it at the MPO Governing Board meeting scheduled for April 27, 2022. This meets the LRTP Amendments Public Involvement requirement outlined in the MPO's Public Participation Plan.

C. Recommendation of Approval for Resolution 2022-1 Supporting the RAISE Grant Application for the Wekiva Trail.

D. Election of Officers effective 2022

A Chair and Vice-Chair shall be elected at the last scheduled meeting of each year and shall serve a term of one year, starting with the first meeting of the new year. Deborah Snyder, P.E., Director of Public Works, Sumter County, is the current Chair, the Vice-Chair position is vacant. This item was deferred from November Meeting.

VI. DISCUSSION ITEMS

- A. 2022 List of Priority Projects (LOPP) Update – Review of proposed updates to the 2022 LOPP to address criteria in the new Transportation Bill.**
- B. Transportation Improvement Program (TIP) Administration Tool overview – Project consultants will review the New TIP Tool.**

VII. PRESENTATIONS, STATUS REPORTS

- A. FDOT Project Update**
- B. FTE Project Update**
- C. Transit Report**
- D. Committee Member Comments**
- E. Informational Items:**
 - i. 2022 Legislative Bill Tracker**
 - ii. Bipartisan Infrastructure Bill Funding Update**
 - iii. Bipartisan Infrastructure Bill Law Summary**
 - iv. Estimated Census Timeline**

VIII. ADJOURNMENT NEXT MEETING: APRIL 13, 2022 @ 1:30

Lake-Sumter MPO

Technical Advisory Committee Agenda

Date / Time: February 9, 2022 | 1:30 PM

Pursuant to the provisions of Chapter 286, Florida Statutes, Section 286.0105, if any person decides to appeal any decision made by the above named Board with respect to any matter considered at the meeting, he or she may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based. All interested citizens are welcome to attend. Persons with disabilities needing assistance to participate in any of the proceedings should contact (352) 315- 0170 48 hours in advance of the meeting.

Minutes
Lake-Sumter Metropolitan Planning Organization
Technical Advisory Committee (TAC) Meeting

Wednesday, November 10, 2021
Regular Meeting, 1:30 p.m.

1300 Citizens Blvd., Suite 175
Leesburg, Florida 34748
Phone (352) 315-0170

OPENING

Chair Deborah Snyder, called the meeting to order at 2:17 p.m.; and confirmed the meeting was properly noticed and a quorum was present.

Members Present

Melving Isaac	Lake County
Deborah Snyder	Sumter County
Mike Eastburn	City of Bushnell
John Kruse	City of Clermont
David Ausherman	City of Groveland
Wendy Then	Town of Lady Lake
C.T. Eagle	Town of Lady Lake
Cliff Kelsey	City of Leesburg
Joyce Heffington	City of Minneola
Tim Wilson	City of Mount Dora
Antonio Fabre	City of Tavares

Members Absent

Helen LaValley	Lake County Schools
Jill Brown	Lake County/Transit
Stephen Cross	Town of Astatula
Rick Gierok	City of Eustis
Gary LaVenja	City of Fruitland Park
Dolly Miller	City of Mascotte
Aaron Mercer	City of Umatilla
Melanie Peavy	City of Wildwood

Staff Present

Mike Woods	Executive Director
Doris LeMay	Executive Assistant

II. AGENDA UPDATE

None

III. COMMENTS FROM THE GENERAL PUBLIC ON ANY AGENDA ITEMS

None

IV. CONSENT AGENDA

- A. Approval of October 13, 2021, TAC Meeting Minutes
- B. Approval of FY 2022 Meeting Calendar (remainder of Fiscal Year) February 9, 2022 @ 1:30, April 13, 2022 @ 1:30, June 8, 2022 @ 1:30

Motion was made by Cliff Kelsey to approve Item A of the Consent Agenda, seconded by Wendy Then – motion passed 11-0.

Motion was made by Wendy Then to approve Item B of the Consent Agenda, seconded by Cliff Kelsey – motion passed 11-0.

V. ACTION ITEMS

- A. Election of Officers effective 2022

Michael Woods asked to defer this item until February meeting.

- B. Transportation Improvement Program (TIP) Amendments
Michael Woods provided a brief overview of the TIP Amendments.

Motion was made by Cliff Kelsey to approve Amending the TIP for FY 2021/22-2025/26, seconded by Wendy Then motion passed 11-0.

VI. DISCUSSION ITEMS

- A. 2022 List of Priority Projects (LOPP) Call for projects – Jim Wood and Mike Vaudo, Kimley Horn & Associates provided a brief overview of the 2022 LOPP Process.
- B. Transportation Management Area (TMA) Designation in FY 2023
Michael Woods provided a brief overview of the TMA Designation in FY 2023.

VII. PRESENTATIONS, STATUS REPORTS

Lake/Sumter Counties Project Status Update as of January 31, 2022

The following is a brief status update on major FDOT road construction projects in Lake and Sumter counties as of the October cutoff. The next cutoff date is February 28, 2022. Information is also available on www.cflroads.com. For questions, please contact Anna Taylor at 386-943-5499 or via email at Anna.Taylor@dot.state.fl.us.

LAKE COUNTY

Upcoming Projects:

431798-1 SR 19/S Central Ave from Golden Gem Dr to south of Palmetto St

- Contract: E51A8
- Contractor: Halifax Paving, Inc.
- Estimated Start: TBD
- Estimated Completion: TBD
- Cost: 3 million

Current Projects:

443592-1 Milling and resurfacing US 441 from east of SR 44 to south of Lincoln Avenue

- Contract: T5732
- Contractor: Ranger Construction Industries, Inc.
- Estimated Start: January 2022
- Estimated Completion: Summer 2022
- Cost: 4.3 million
- Update: Southbound and northbound lane closures has begun Sunday through Thursday from 7 p.m. to 5 a.m. for widening excavation and laying black base in various locations throughout the project.

443507- 1 SR 44 Milling & Resurfacing from south of Lakeshore Blvd. to north of Lakeshore Blvd.

- Contract: T5722
- Contractor: Atlantic Civil Construction.
- Estimated Start: December 16, 2021
- Estimated Completion: Spring 2022
- Cost: 1.6 million

- Update: Westbound and eastbound lane closures has begun Sunday through Saturday from 9 p.m. to 6 a.m. for sidewalk ramp reconstruction and traffic reconfiguration.

443546-1 US 441(SR 25/SR 500) Milling & Resurfacing from Griffin Road to MLK Blvd.

- Contract: T5723
- Contractor: C.W. Roberts Contracting, Inc.
- Start: November 17, 2021
- Estimated Completion: Summer 2022
- Update: Lane closures have begun Saturday through Sunday from 7 a.m. to 5 p.m. Contractor continuing work on the west side of US 441, removing, and replacing drop curbs, turn out curb, gutter, handicap ramps and sidewalks. Due to driver shortages sidewalk is limited and has no plan of replacement with concrete until further notice.

439138-1 Resurfacing of State Road 19/Bay Street in Eustis from west of Norton Avenue to Lake Saunders Drive

- Contract: E5Z92
- Contractor: C.W. Roberts Contracting, Inc.
- Start: Spring 2020
- Estimated Completion: Fall 2021
- Update: CNA Surety the company that ensures this project has hired CWR construction to complete the remainder of the work. Since CWR has been assigned to this project they have worked on punch list items and are currently getting the paperwork to officially complete this project. CWR is trying to get the closeout documentation from the surety company. The surety company will not be getting paid until they show proof of all unpaid bills are resolved.

238395-5 U.S. 441 widening from Lake Ella Road to Avenida Central in Lady Lake; includes elimination of U.S. 441 bridge over County Road 25 and creation of traditional intersection at that location.

- Contract: T5650
- Contractor: Southland Construction, Inc.
- Start: Summer 2020
- Estimated Completion: Late 2023
- Update: The contractor continues to construct a temporary road parallel to U.S. 441 that will carry northbound and southbound traffic when the highway is closed for the demolition of the County Road 25 overpass and construction of an intersection at CR 25 and U.S. 441. Drainage and road widening work continues along the length of the project. On Oct. 4, 2021, a segment of County Road 25 was closed beneath the U.S 441 bridge in Lady Lake, FL. A new detour was put in place on November 22, 2021, Oak Street/County Road (C.R.) 25 at U.S 441 in Lady Lake will be closed. This closure will allow for intersection improvements, detours will be in effect for the duration of the project. On Monday December 28, 2021, a traffic shift will be in place from Avenida Central to west Hermosa St. Several left turns will be removed, and the biggest impact will be seen at Water Oak Blvd. with the Water Oak Estates residents.
- Currently residents of Water Oak Estates can come onto U.S 441 from Water Oak Blvd. and go southbound, but with the new traffic shift they will no longer be able to do that. Instead, they will have to go northbound on U.S. 441 and make a U-turn, where allowed preferably at a signalized intersection.

Also, residents wanting to come into Water Oaks Estates via Water Oak Blvd. from the southbound lane on U.S. 441 will not be able to do so, instead they will have to continue their route south on U.S. 441 and make a U-turn, where allowed preferably at a signalized intersection.

Residents are encouraged to use their back entrance to get in and out of their community which can be accessed via Griffin Ave.

The traffic shift starts at Avenida Central and ends at West Hermosa St. This traffic shift will allow for the southbound bridge demolition as part of the road widening on U.S. 441.

441135-1 and 441135-2 Resurfacing southbound lanes of State Road 19 from Golden Gem Drive in Umatilla to County Road 452 in Eustis. Also modify medians along the length of the project.

- Contract: T5709
- Contractor: P&S Paving Inc.
- Start: Spring 2021
- Estimated Completion: Spring 2022
- Update: The contractor continues to pour sidewalk along the length of the project and is actively reconstructing the median openings to improve driver safety. The contractor has been working south to north on drainage features and installing sidewalks, while simultaneously working on the medians. The contractor has been conducting inside lane closures during weekdays 7 a.m. to 5 p.m. both northbound and southbound on SR 19.

441137-1 Resurfacing State Road 44 (South Street) from Bottle Brush Court to U.S. 27 (South 14th Street), including necessary roadside enhancements. The project also will make sidewalk and curb ramp improvements to meet Americans with Disabilities Act (ADA) standards.

- Contract: E55A4
- Contractor: Hubbard Construction Company
- Start: Summer 2021
- Estimated Completion: Early 2022
- Update: Work commenced on Aug. 2, with replacement of sidewalk ramps with ADA-compliant ramps along the length of the project. Paving and signal operations will occur at night, since the contractor needs to be off the road by the time buses start rolling in on weekday mornings. Due to milling and resurfacing operations full lane closure have been put in place 8 p.m. to 6 a.m. Sunday to Friday.

SUMTER

435859-3 Widening of State Road 50 from Hernando/Sumter County line to east of CR 478A.

- Contractor: Ranger Construction Industries, Inc.
- Start: November 2, 2021
- Estimated Completion: Fall 2023
- Update: So far things are moving along well and there are no complaints from stakeholders currently. The contractor has set up inside and outside lane closures for widening and paving operations, one lane at a time from 7a.m. to 6 p.m.

441014-1 Resurfacing State Road 44 from west of Interstate 75 to the Citrus County line in Sumter County.

- Contract: T5708
- Contractor: Anderson Columbia Inc.
- Start: Spring 2021
- Estimated Completion: Early 2022
- Update: Currently project is over time, contractor stated they should be finished within a couple of weeks. Crossover medians have been completed and paving operations are still ongoing throughout the limits of the project. Contractor is waiting on delivery of loops and cabinets set to be installed after receiving.

438562-3 Reconstructing the southbound rest area along Interstate 75 in Sumter County.

- Contractor: David Nelson Construction
- Start: Spring 2021
- Estimated Completion: Fall 2022
- Update: The rest area has been demolished and the contractor is laying the groundwork to rebuild the welcome center and restrooms, expand the parking area and add outdoor amenities. The rest area will remain closed to the public until work is completed toward the end of 2022.

FLORIDA DEPARTMENT OF TRANSPORTATION, FLORIDA'S TURNPIKE ENTERPRISE LAKE/SUMTER MPO CONSTRUCTION UPDATE REPORT

PROJECT: NORTHERN TURNPIKE MAINLINE/SR 91 WIDENING PROJECT FROM SR 50/CLERMONT TO HANCOCK ROAD/MINNEOLA (MILEPOSTS 273 TO 279)

DETAILS: Florida's Turnpike Enterprise is widening Florida's Turnpike/SR 91 from four to eight lanes from SR 50/Clermont to Hancock Road/Minneola in Lake and Orange counties.

DESCRIPTION: This project includes constructing a new Fosgate Road bridge over the Turnpike. The bridges at CR 438 and CR 455 will also be replaced, as well as the Turnpike bridges over Jones Road, Old Highway 50, and Blackstill Lake Road. The West Orange Trail bridge over the Turnpike will be replaced with a prefabricated structure. New electronic tolling gantries and buildings will be installed, and the existing toll booths and canopies at the SR 50/Clermont entrance and exit ramps will be demolished. Safety improvements for this project include a new Intelligent Transportation System (ITS), signage, pavement markings, signalization, lighting, and drainage.

The construction cost of the project is estimated at \$162.3M. The project is anticipated to be completed in mid-2026.

CURRENT ACTIVITIES: CR 438/Oakland Avenue bridge reconstruction activities are now underway, including construction of the new bridge's foundations and substructure concrete work. Other work within the project limits includes completing northbound clearing and grubbing operations, temporary pavement installation for the southbound outside and inside shoulders, temporary concrete barrier wall installation, removal of southbound guardrail, placement of temporary and permanent sheet pile walls, temporary ITS relocation, utility relocations, excavation of ponds, and hauling and placement of borrow material at southbound embankment locations for surcharge and starting subsoil excavation.

PROJECT: NORTHERN TURNPIKE MAINLINE/SR 91 RESURFACING AND SAFETY IMPROVEMENTS PROJECT FROM MILEPOST 297 TO MILEPOST 309

DETAILS: Florida's Turnpike Enterprise is resurfacing Florida's Turnpike/SR 91 from north of CR 470 to Interstate 75 (I-75), in Sumter County.

DESCRIPTION: This project will resurface the roadway and includes the resurfacing of entrance and exit ramps at US 301 (Exit 304), new guardrails, signage, and pavement markings.

CURRENT ACTIVITIES: The contractor has substantially completed structural paving, except for corrections and a section at Bexley Bridge. Asphalt paving operations will continue along inside lanes and shoulders, along northbound and southbound Turnpike. Desilting and repairs on the four box culverts began on January 10, 2022. Median guardrail installation is ongoing. ITS facility management activity is scheduled to begin in February at US 301 (Exit 304).

The construction cost of the project is estimated at \$11.5M. The project is anticipated to be completed in mid-2022.

LAKE COUNTY CONNECTION RIDERSHIP FISCAL YEAR COMPARISON

Lake County Connection Ridership Comparison

FY 21 First Qtr. ridership 13,401 and FY 22 First Qtr. ridership 12,983. Overall 29.17% decrease.

LAKEXPRESS RIDERSHIP FISCAL YEAR COMPARISON

LakeXpress Ridership Comparison

FY 21 First Qtr. ridership 50,243 and FY 22 First Qtr. ridership 45,583. Overall 1.10% decrease.

Transportation Projects

A. Completed

- Phase I Bus Stop construction (Completed September 2020)
 - 10 Shelters & 37 Concrete Pads
- Phase II Bus Stop construction (Completed January 2022)
 - 5 ADA compliant bus pads
 - Volatility in construction commodities and labor shortage created unanticipated delays.
 - FTA recommended rebidding project
- Avigilon Camera System (Completed January 2022) (Security)
 - Provision and installation of surveillance system for the protection of transit assets. Installed at both Tavares and Fruitland Park sites where relevant transit assets are located.

B. Current Formal Solicitations

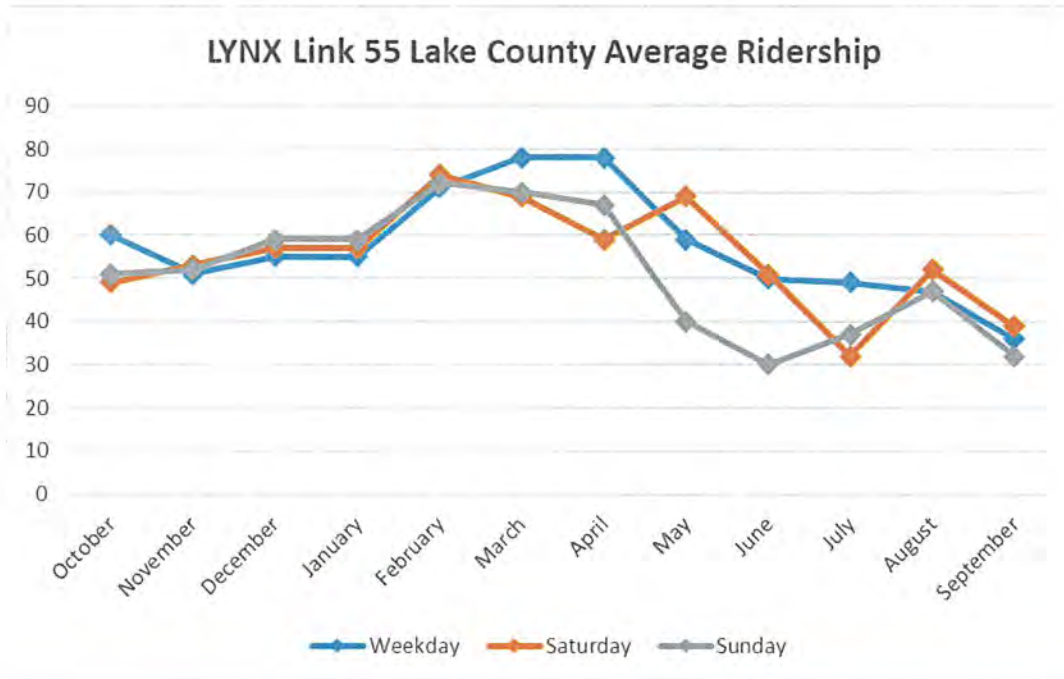

- Transit Office Gate Replacement w/ Access Control (Security)
 - Provision and installation of an RBH access-controlled sliding gate system. Provide safe and secured access to transit assets.
- Touchless Fare Solution
 - Provision for a digital mobile ticketing solution that allows riders to purchase electronic bus fares from a free and secure web-based application. Allows for ticket display from smart phone. Allows bulk purchase of electronic bus tickets from community partners who in turn can electronically send tickets to their clients for future activation and use.

- **Wheel Alignment Equipment and Installation**
 - Provision and installation of wheel alignment equipment and system to be located at contractor's maintenance site. Currently requires wheel alignment service to be outsourced. Purchase will reduce bus down-time and expenses by allowing the service to be provided in-house by trained bus maintenance staff.

C. Upcoming Formal Solicitations

- **On-Call Construction of Bus Stop Pads and Related Services**
 - Construction of ADA compliant bus stops (pads)
 - Anticipate 37 bus stop improvements FY 22-23
 - Anticipate solicitation to be released in February or March 2022
- **Provision, Warehousing, Installation and Repair of Transit Shelters and Related Amenities**
 - Provision and installation of ADA compliant bus stop shelters at select locations throughout Lake County.
 - Anticipate the installation of 5 bus stop shelters in FY 22-23
 - Anticipate solicitation to be released in February or March 2022

LYNX ROUTE 55 AVERAGE RIDERSHIP FOR LAKE COUNTY

Average ridership between October 2020 and September 2021 is 164 trips

VAN POOL UPDATE

Enterprise remains operating two vans in Lake County while VRide utilizes one van.

HB 1045			West Villages Improvement District, Sarasota County; Revises boundaries of district; requires referendum.				
HB 1161			Manatee County; Creates Northlake Stewardship District; provides charter; requires referendum for ad valorem taxation.				
SB 1546	HB 1225 (Similar)		Vessel Safety Flags; Removing the requirement that airboats be equipped with masts or flagpoles bearing certain safety flags; prohibiting the operation and anchoring of vessels without masts or flagpoles bearing certain safety flags under specified conditions, etc.				
HB 1225	SB 1546 (Similar)		Vessel Safety Flags; Removes requirement that airboats be equipped with masts or flagpoles bearing certain safety flags; prohibits operation & anchoring of vessels without masts or flagpoles bearing certain safety flags under specified conditions; provides penalties.				

2022 OPP Legislative Bill Tracking

Bill #	Related Bill(s)	Linked Bill(s)	Bill Title & Summary	Updates / Notes	Potential Impacts	FDOT Planning Commented	New to Tracking
SB 1754	HB 6043 (Similar)		Local Government Communications Services; Removing provisions which require counties and entities of local government to pay ad valorem taxes or fees under specified conditions on certain telecommunications facilities; removing provisions which require municipalities and entities of local government to pay ad valorem taxes or fees under specified conditions on certain telecommunications facilities; removing provisions prohibiting property and use of two-way telecommunications services under specified circumstances from receiving certain tax exemptions; removing provisions prohibiting sales, rental, use, consumption, or storage for use of two-way telecommunications services under specified circumstances from receiving a certain tax exemption; removing provisions that identify procedures which must be followed by governmental entities before providing communications services, etc.				
SB 1752	HB 6045 (Identical)		Communications Services; Removing certain communications services lines as items over which certain governmental entities are authorized to prescribe and enforce reasonable rules and regulations; removing provisions that authorize municipalities and counties to require certain information as part of a registration; removing limitations on municipal and county authority to regulate and manage municipal and county roads or rights-of-way; removing the requirement that enforcement of certain ordinances must be suspended until certain conditions are met; deleting references to, and administration and provisions of, the Advanced Wireless Infrastructure Deployment Act, etc.				
HB 901	SB 1212 (Identical) HB 427 (Similar) SB 1214 (Compare)		Roadside Farm Stand Signage; Establishes Fresh From Florida Roadside Farm Stand Signage Program & Fresh From Florida Roadside Farm Stand Advisory Council within DACS to provide directional signage for certified roadside farm stands; authorizes Commissioner of Agriculture to designate such farm stands as state tourist attractions; requires DOT, upon request, to place signage at specified locations; requires certified farm stand owners & operators to pay specified fees; requires DACS to adopt rules.			Yes	
HB 867	SB 990 (Similar)		Towing, Storage, and Release of Motor Vehicles; Provides requirements for release of motor vehicle towed to investigating agency's storage facility; requires investigating agency to pay towing & storage charges to wrecker operator under certain circumstances; prohibits towing company from releasing motor vehicle owned by rental car company to person who rented vehicle unless person is appointed as agent of rental car company; provides requirements for evidence of such agency.				
HB 895			Lakewood Ranch Stewardship District, Manatee and Sarasota Counties; Revises boundaries of district; requires referendum.				
SB 1212	HB 901 (Identical) HB 427 (Similar)	SB 1214 (Linked)	Roadside Farm Stand Signage; Defining the term "roadside farm stand"; establishing the Fresh From Florida Roadside Farm Stand Signage Program within the Department of Agriculture and Consumer Services to provide directional signage for certified roadside farm stands; authorizing the Commissioner of Agriculture to designate certified roadside farm stands as state tourist attractions; establishing the Fresh From Florida Roadside Farm Stand Advisory Council within the department, etc.	requires FDOT upon request to place signage at specific locations			

2022 OPP Legislative Bill Tracking

Bill #	Related Bill(s)	Linked Bill(s)	Bill Title & Summary	Updates / Notes	Potential Impacts	FDOT Planning Commented	New to Tracking
HB 727			Exemptions from Toll Payment for Disabled Veterans; Provides short title; exempts certain disabled veterans from paying toll on toll facility; requires DOT to issue certain passes; provides requirements for exemption while operating rented motor vehicle.				
HB 711	SB 238 (Identical)		Endangered and Threatened Species; Revises legislative intent of Florida Endangered & Threatened Species Act; directs FWCC & DACS to protect certain endangered or threatened species; revises criteria for placement of species on Regulated Plant Index by DACS; prohibits FWCC & DACS from considering certain costs when designating species as endangered or threatened.				
SB 1098	HB 835 (Similar)		Smart Region Zones; Authorizing a group of four or more contiguous counties to apply to Enterprise Florida, Inc., to receive designation as a smart region zone; authorizing the designated smart region zone centers of excellence and certain projects within a smart region zone to apply to Enterprise Florida, Inc., for funding; requiring smart region zone centers of excellence to submit quarterly reports containing specified information to Enterprise Florida, Inc., etc.				
HB 835	SB 1098 (Similar)		Smart Region Zones; Authorizes contiguous group of four or more counties to apply to Enterprise Florida, Inc., to receive designation as smart region zone; provides requirements for such designation; authorizes smart region zone centers of excellence & certain projects within smart region zone to apply to Enterprise Florida, Inc., for funding; requires smart region zone centers of excellence to submit reports.				
HB 6089			Purchase of Plant Materials for Transportation Projects; Removes provisions requiring that certain percentages of funds allocated by DOT for construction projects be used for purchase of plant materials.				
HB 403	CS/CS/SB 280 (Identical)		Local Ordinances; Authorizes courts to assess & award attorney fees & costs & damages in certain civil actions filed against local governments; requires local governments to prepare business impact statement before adoption of proposed ordinances; specifies requirements for posting & content of statement; requires counties & municipalities to suspend enforcement of certain ordinances subject of certain legal actions; requires courts to give priority to certain cases; specifies factors court must consider in determining whether ordinance is arbitrary or unreasonable provides declaration of important state interest.	Passed first committee reference			
SB 976	HB 635 (Compare) SB 1020 (Compare)		Construction; Prohibiting specified governmental entities from requiring participation in a paid subscription service to access solicitations of competitive bids or proposals which must be publicly advertised; requiring that such solicitations be available on the publicly accessible website of the applicable governmental entity after the solicitation has been advertised; prohibiting the local enforcing agency from requiring a substantive change to plans and specifications once they have been found to be in compliance and a permit is issued, if such change would result in more than a de minimis increase in the overall cost of the project, etc.				

2022 OPP Legislative Bill Tracking

Bill #	Related Bill(s)	Linked Bill(s)	Bill Title & Summary	Updates / Notes	Potential Impacts	FDOT Planning Commented	New to Tracking
SB 270			Funds for Student Transportation; Modifying requirements for determining student membership in a school district in order to determine the annual allocation for funding for student transportation, etc.	Passed first committee reference			
SB 684			The Legislature; Citing this act as the "Truth in Government Act"; deleting provisions regarding the administration of oaths and affirmations to witnesses appearing before legislative committees, and associated penalties, to conform to changes made by the act; requiring that persons addressing a legislative committee take an oath or affirmation of truthfulness; providing exceptions; requiring that the committee chair or other member of the committee administer the oath or affirmation; providing criminal penalties for certain false statements before a legislative committee, etc.				
SB 202			Small Business Website Development Grant Program; Creating the Small Business Website Development Grant Program within the Department of Economic Opportunity; authorizing certain small businesses to apply for a grant in a specified amount; requiring that grant funds be used for the development of a website, etc.	May be of interest to DBE Section			
HM 245	SM 1738 (Identical)		National Infrastructure Bank; Requests Congress to pass House Resolution 3339, creating a National Infrastructure Bank to finance urgently needed infrastructure projects.	Memorial only.			
HB 6043	SB 1754 (Similar)		Local Government Communications Services; Removes provisions requiring counties, municipalities, & entities of local government to pay certain taxes on the provision or use of certain telecommunications facilities; removes provisions that identify procedures which must be followed by governmental entities before providing communications services; removes provisions relating to using revenues to issue bonds to finance communications services; removes provisions providing procedures if revenues do not exceed operating costs; removes provision specifying that certain airport authorities or other governmental entities are not exempt from certain procedural requirements related to providing telecommunications services.				
HB 6045	SB 1752 (Identical)		Communication Services; Deletes provisions limiting authority of, and prohibiting, municipalities and counties from functions related to communications service providers; deletes references to, and administration and provisions of Advanced Wireless Infrastructure Deployment Act.				
SB 238	HB 711 (Identical)		Endangered and Threatened Species; Directing the Fish and Wildlife Conservation Commission to protect certain endangered or threatened species, regardless of the status of their federal classification; prohibiting the commission from considering certain costs when designating a species as endangered or threatened; directing the department, in consultation with the Endangered Plant Advisory Council, to protect certain endangered or threatened species, regardless of the status of their federal classification; prohibiting the department from considering certain costs when designating a species as endangered or threatened, etc.				
HM 21			Establishment of a New Zip Code for the Town of Miami Lakes; Urges Congress to recognize need to establish new zip code for town of Miami Lakes and pass H.R. 462.

BIPARTISAN INFRASTRUCTURE LAW

On November 15, 2021, President Biden signed the [Infrastructure Investment and Jobs Act \(IIJA\)](#) (Public Law 117-58, also known as the "Bipartisan Infrastructure Law") into law. The Bipartisan Infrastructure Law is the largest long-term investment in our infrastructure and economy in our Nation's history. It provides \$550 billion over fiscal years 2022 through 2026 in new Federal investment in infrastructure, including in roads, bridges, and mass transit, water infrastructure, resilience, and broadband.

This website will serve as your one-stop shop for FHWA's implementation of the Bipartisan Infrastructure Law, including everything from fact sheets and funding notices to guidance, regulations, and presentations.

The FHWA will continue to add new information to this page over the weeks and months to come.

News

The Bipartisan Infrastructure Law Will Deliver for Florida

President Biden and Vice President Harris’s Bipartisan Infrastructure Law is the largest long-term investment in our infrastructure and competitiveness in nearly a century. **The need for action in Florida is clear, and recently released state-level data demonstrates that the Bipartisan Infrastructure Law will deliver for Florida.** For decades, infrastructure in Florida has suffered from a systemic lack of investment. In fact, the American Society of Civil Engineers gave Florida a C on its infrastructure report card. The historic Bipartisan Infrastructure Law will make life better for millions of Florida residents, create a generation of good-paying union jobs and economic growth, and position the United States to win the 21st century.

Specifically, with regard to transportation, the Bipartisan Infrastructure Law will:

Repair and rebuild our roads and bridges with a focus on climate change mitigation, resilience, equity, and safety for all users, including cyclists and pedestrians. In Florida there are 408 bridges and over 3,564 miles of highway in poor condition. Since 2011, commute times have increased by 11.6% in Florida, and on average, each driver pays \$425 per year in costs due to driving on roads in need of repair. The Bipartisan Infrastructure Law is the single largest dedicated bridge investment since the construction of the interstate highway system. **Based on formula funding alone, Florida would expect to receive approximately \$13.3 billion over five years in Federal highway formula funding for highways and bridges.** On an average annual basis, this is about 26% more than the State’s Federal-aid highway formula funding under current law (1). Florida can also compete for the \$12.5 billion Bridge Investment Program for economically significant bridges and \$15 billion of national funding in the law dedicated to megaprojects that will deliver substantial economic benefits to communities. Florida can also expect to receive approximately \$320 million over five years in formula funding to reduce transportation-related emissions, in addition to about \$364 million over five years to increase the resilience of its transportation system (2). States may also apply federal aid dollars towards climate resilience and safety projects.

Improve the safety of our transportation system. The Bipartisan Infrastructure Law invests \$13 billion over the Fixing America’s Surface Transportation (FAST) Act levels directly into improving roadway safety. Over five years, Florida will receive approximately \$100 million in 402 formula funding for highway safety traffic programs, which help states to improve driver behavior and reduce deaths and injuries from motor vehicle-related crashes. On an average annual basis, this represents about a 29% increase over FAST Act levels (3). Local and tribal governments in Florida will also be eligible to compete for \$6 billion in funding for a new **Safe Streets for All program** which will provide funding directly to these entities to support their efforts to advance “vision zero” plans and other improvements to reduce

crashes and fatalities, especially for cyclists and pedestrians. In addition, Florida can expect to receive approximately \$103.7 million over five years in funding to augment their commercial motor vehicle (CMV) safety efforts to reduce CMV crashes through the Federal Motor Carrier Safety Administration's Motor Carrier Safety Assistance Program (MCSAP) formula grant. This represents about a 65% increase in funding compared to FAST Act levels (4). Florida will be able to apply for funds to modernize data collection systems to collect near real time data on all reported crashes, including fatal ones, to enhance safety and to allow the Department to understand and address trends as they are identified. Florida also includes communities that will be eligible to apply for grants to community owned utilities to support the repair or replacement of leaky and unsafe cast iron and bare steel natural gas distribution pipelines, some of which are over 100 years old.

Improve healthy, sustainable transportation options for millions of Americans. Floridians who take public transportation spend an extra 77.9% of their time commuting and non-White households are 3.5 times more likely to commute via public transportation. 16.1% of transit vehicles in the state are past useful life. **Based on formula funding alone, Florida would expect to receive about \$2.8 billion over five years under the Bipartisan Infrastructure Law to improve public transportation options across the state (5). In the first year, this represents about a 33% increase over 2021 FAST Act formula transit funding levels.**

Build a network of EV chargers to facilitate long-distance travel and provide convenient charging options. The U.S. market share of plug-in electric vehicle (EV) sales is only one-third the size of the Chinese EV market – in 2020, plug-in electric vehicles made up only 2.3% of new car sales in the U.S., compared to 6.2% in China. The President believes that must change. The law invests \$7.5 billion to build out the first-ever national network of EV chargers in the United States and is a critical element in the Biden-Harris Administration's plan to accelerate the adoption of EVs to address the climate crisis and support domestic manufacturing jobs. **Under the Bipartisan Infrastructure Law, Florida would expect to receive about \$198 million over five years to support the expansion of an EV charging network in the state (6). Florida will also have the opportunity to apply for grants out of the \$2.5 billion available for EV charging.**

Modernize and expand passenger rail and improve freight rail efficiency and safety. The Bipartisan Infrastructure Law includes \$66 billion above baseline to eliminate the Amtrak maintenance backlog, modernize the Northeast Corridor, and bring world-class rail service to areas outside the northeast and mid-Atlantic. Within these totals, \$22 billion would be provided as grants to Amtrak, \$24 billion as federal-state partnership grants for Northeast Corridor modernization, and \$12 billion for partnership grants for intercity rail service, including high-speed rail. On top of this, Florida will be eligible to compete for \$5 billion for rail improvement and safety grants and \$3 billion for grade crossing safety improvements.

Improve our nation's airports. The United States built modern aviation, but our airports lag far behind our competitors. **Under the Bipartisan Infrastructure Law, airports in Florida would receive approximately \$1.2 billion for infrastructure development for airports over five years (7).** This funding will address airside and landside needs at airports, such as improving runways, taxiways and airport-owned towers, terminal development projects, and noise reduction projects. In addition, \$5 billion in discretionary funding is available over five years for airport terminal development projects that address the aging infrastructure of our nation's airports, including projects that expand accessibility for persons with disabilities, improve access for historically disadvantaged populations, improve energy efficiency, and improve airfield safety.

State and local governments can look forward to these new & expanded competitive grant programs in the Bipartisan Infrastructure Law (BIL) anticipated to launch over the course of the next year:

- **Safe Streets for All (\$6B, new)** – This program will provide funding directly to local and tribal governments to support their efforts to advance “vision zero” plans and other improvements to reduce crashes and fatalities, especially for cyclists and pedestrians.
- **Rebuilding American Infrastructure with Sustainability and Equity (RAISE) Grants (\$15B, expanded)** – RAISE grants support surface transportation projects of local and/or regional significance.
- **Infrastructure for Rebuilding America (INFRA) Grants (\$14B, expanded)** – INFRA grants will offer needed aid to freight infrastructure by providing funding to state and local government for projects of regional or national significance. The BIL also raises the cap on multimodal projects to 30% of program funds.
- **Federal Transit Administration (FTA) Low and No Emission Bus Programs (\$5.6B, expanded)** – BIL expands this competitive program which provides funding to state and local governmental authorities for the purchase or lease of zero-emission and low-emission transit buses as well as acquisition, construction, and leasing of required supporting facilities.
- **FTA Buses + Bus Facilities Competitive Program (\$2.0B, expanded)** – This program provides competitive funding to states and direct recipients to replace, rehabilitate, and purchase buses and related equipment and to construct bus-related facilities including technological changes or innovations to modify low or no emission vehicles or facilities.
- **Capital Investment Grants (CIG) Program (\$23B, expanded)** – The BIL guarantees \$8 billion, and authorizes \$15 billion more in future appropriations, to invest in new high-capacity transit projects communities choose to build.
- **Federal Aviation Administration (FAA) Terminal Program (\$5B, new)** – This discretionary grant program will provide funding for airport terminal development and other landside projects.
- **MEGA Projects (\$15B, new)** – This new National Infrastructure Project Assistance grant program will support multi-modal, multi-jurisdictional projects of national or regional significance.
- **Promoting Resilient Operations for Transformative, Efficient, and Cost-saving Transportation (PROTECT) Program (\$8.7B, new)** – PROTECT will provide \$7.3 billion in formula funding to states and \$1.4 billion in competitive grants to eligible entities to increase the resilience of our transportation system. This includes funding for evacuation routes, coastal resilience, making existing infrastructure more resilient, or efforts to move infrastructure to nearby locations not continuously impacted by extreme weather and natural disasters.
- **Port Infrastructure Development Program (\$2.25B, expanded)** – BIL will increase investment in America’s coastal ports and inland waterways, helping to improve the supply chain and enhancing the resilience of our shipping industry. BIL overall doubles the level of investment in port infrastructure and waterways, helping strengthen our supply chain and reduce pollution.
- **5307 Ferry Program (\$150M, existing)** – BIL retains the \$30 million per year passenger ferry program for ferries that serve urbanized areas.
- **Electric or Low Emitting Ferry Program (\$500M, new)** – This competitive grant program will support the transition of passenger ferries to low or zero emission technologies.
- **Rural Ferry Program (\$2B, new)** – This competitive grant program will ensure that basic essential ferry service continues to be provided to rural areas by providing funds to States to support this service.

- **Federal Highway Administration (FHWA) competitive grants for nationally significant bridges and other bridges (\$12.5B, new)** – This new competitive grant program will assist state, local, federal, and tribal entities in rehabilitating or replacing bridges, including culverts. Large projects and bundling of smaller bridge projects will be eligible for funding.
- **FTA All Station Accessibility Program (\$1.75B, new)** – This competitive grant program will provide funding to legacy transit and commuter rail authorities to upgrade existing stations to meet or exceed accessibility standards under the Americans with Disabilities Act.
- **Charging and fueling infrastructure discretionary grants (Up to \$2.5B, new)** – This discretionary grant program will provide up to \$2.5 billion in funding to provide convenient charging where people live, work, and shop.
- **Reconnecting Communities Pilot Program (\$1B, new)** – This new competitive program will provide dedicated funding to state, local, MPO, and tribal governments for planning, design, demolition, and reconstruction of street grids, parks, or other infrastructure.
- **FHWA Nationally Significant Federal Lands and Tribal Projects (\$1.5B, expanded)** – This discretionary program provides funding for the construction, reconstruction, and rehabilitation of nationally-significant projects within, adjacent to, or accessing Federal and tribal lands. BIL amends this program to allow smaller projects to qualify for funding and allows 100% federal share for tribal projects.
- **Strengthening Mobility and Revolutionizing Transportation (SMART) Grant Program (\$1B, new)** – The SMART Grant program will be a programmed competition that will deliver competitive grants to states, local governments, and tribes for projects that improve transportation safety and efficiency.
- **Rural Surface Transportation Grant Program (\$2B, new)** – This new competitive grant program will improve and expand surface transportation infrastructure in rural areas, increasing connectivity, improving safety and reliability of the movement of people and freight, and generate regional economic growth.

- (1) *These values are estimates and may change based on updated factor data each fiscal year.*
- (2) *These values are estimates and may change based on updated factor data each fiscal year.*
- (3) *These values are estimates based on the 2020 FHWA public road mileage data for FYs 2022-2026. Formula funding amounts in FYs 2023-2026 are subject to change as a result of the annual public road mile data certified by FHWA. The 402 amounts do not include redistribution of unawarded 405 balances per 23 USC § 405(a)(8) as that information is unknown at this time. The Bipartisan Infrastructure Law specifies NHTSA must distribute the supplemental appropriations for Section 402 in “equal amounts for each fiscal year 2022 through 2026”. This analysis is subject to provisions of FY 2022-FY2026 appropriations acts.*
- (4) *These values are estimates and may change based on updated factor data each fiscal year.*
- (5) *Transit formula funding amounts are subject to changes resulting from the 2020 census or from annual transit service data reported to FTA’s National Transit Database.*
- (6) *These values are estimates and may change based on updated factor data each fiscal year.*
- (7) *Precise allocations would change each year because the formulas use current passenger boarding and cargo data, and this estimate is based on 2019 data.*

Memorandum

Subject: **INFORMATION: Policy on Using
Bipartisan Infrastructure Law
Resources to Build a Better America**

Date: December 16, 2021

From: Stephanie Pollack 
Deputy Administrator

In Reply Refer To:
HPL-1 and HCC-1

To: Associate Administrators
Chief Counsel
Chief Financial Officer
Directors of Field Services
Division Administrators

The recently enacted Bipartisan Infrastructure Law (BIL), enacted as the Infrastructure Investment and Jobs Act (IIJA), Pub. L. 117-58 (Nov. 15, 2021), will deliver generational investments in our roads and bridges, promote safety for all road users, help combat the climate crisis, and advance equitable access to transportation. The BIL also presents the Federal Highway Administration (FHWA) with a unique opportunity: to exercise our stewardship and oversight responsibilities and evolve the century-old relationship with State departments of transportation and other stakeholders in a way that takes advantage of the tools Congress has provided and prioritizes investments that align with the underlying policies evident throughout the BIL to help our states and communities Build a Better America.

This guidance is intended to serve as an overarching framework to prioritize the use of BIL resources on projects that will Build a Better America. The intent of the guidance also is to ensure that the funding and eligibilities provided by the BIL will be interpreted and implemented, to the extent allowable under statute, to encourage States and other funding recipients to invest in projects that upgrade the condition of streets, highways and bridges and make them safe for all users, while at the same time modernizing them so that the transportation network is accessible for all users, provides people with better choices across all modes, accommodates new and emerging technologies, is more sustainable and resilient to a changing climate, and is more equitable.

The BIL creates two kinds of new resources that FHWA's State, regional, Tribal and local stakeholders can use to Build a Better America:

- (1) changes to the eligibilities and policy requirements in FHWA's "legacy" apportioned programs such as National Highway Performance Program and the Surface Transportation Block Grant Program and its Transportation Alternatives set-aside; and
- (2) new programs (some formula, some discretionary grants and some a combination of the two) such as the Bridge Investment Program, National EV Charging Program, Carbon Reduction Program and PROTECT program.

FHWA will issue guidance and regulations, as appropriate, to fully implement these legislative changes and new programs and is actively soliciting stakeholder input on these matters through a just-opened [Federal Register docket](#).

Investments and projects that align with the BIL and will help Build a Better America include those that:

- improve the condition, resilience and safety of road and bridge assets consistent with asset management plans (including investing in preservation of those assets);
- promote and improve safety for all road users, particularly vulnerable users;
- make streets and other transportation facilities accessible to all users and compliant with the Americans with Disabilities Act;
- address environmental impacts ranging from stormwater runoff to greenhouse gas emissions;
- prioritize infrastructure that is less vulnerable and more resilient to a changing climate;
- future-proof our transportation infrastructure by accommodating new and emerging technologies like electric vehicle charging stations, renewable energy generation, and broadband deployment in transportation rights-of-way;
- reconnect communities and reflect the inclusion of disadvantaged and under-represented groups in the planning, project selection and design process; and
- direct Federal funds to their most efficient and effective use, consistent with these objectives.

Encouraging and Prioritizing Projects That Build a Better America

Under this Policy, FHWA will work with recipients of any Federal funds made available under title 23, United States Code to encourage and prioritize the repair, rehabilitation, reconstruction, replacement, and maintenance of existing transportation infrastructure, especially the incorporation of safety, accessibility, multimodal, and resilience features.¹ Projects to be prioritized include those that maximize the existing

¹ For purposes of this memorandum, FHWA recipients include Federal Land Management Agencies (FLMAs). In addition, Federal funds include both Federal-aid highway and Federal lands highway funds, as well as Transportation Infrastructure Finance and Innovation programs funds that are administered by the FHWA.

right-of-way for accommodation of non-motorized modes and transit options that increase safety, accessibility, and/or connectivity.

For FLMAs under the Federal lands program, FHWA will work with our Federal stakeholders to incorporate these policies into their programming policies and decisions, including asset management systems established under 23 U.S.C. 201(c)(5).

The maintenance of existing roads and highways in a state of good repair is an important tool to ensure the effective use of Federal funding while also improving transportation safety, reducing surface transportation-related greenhouse gas emissions, delivering equitable transportation options and access, and accommodating new and emerging technologies by upgrading the nation's existing infrastructure. Proper maintenance is also an affirmative responsibility of the States as required by 23 U.S.C. 116. This Building a Better America Policy will help achieve these important goals. Additionally, this Policy is consistent with the Bipartisan Infrastructure Law and recently issued Presidential Executive Orders (EOs), including, EO 14008, Tackling the Climate Crisis at Home and Abroad (86 FR 7619); EO 13985, Advancing Racial Equity and Support for Underserved Communities Through the Federal Government (86 FR 7009); and EO 14030 Climate Related Financial Risk (86 FR 27967).

Prioritizing Investment in All Federal-Aid and Federal Lands Eligible Transportation Assets

FHWA staff shall emphasize to our planning and project selection and project delivery stakeholders that the resources made available under the BIL can and should be applied to modernize all eligible streets, highways, and bridges – not just those owned and operated by State departments of transportation.

Many projects funded with Federal-aid highway funds are either on the Interstate System (which constitutes just under 50,000 system miles and accounts for 25% of VMT) or the broader National Highway System (which constitutes approximately 222,000 system miles and accounts for 55% of VMT). However, there are over 1 million miles of streets and highways, which account for 85% of Vehicle Miles Travelled, that are Federal-aid highways and may benefit from BIL investments. Nationally, arterials and collectors are in poorer condition compared to the interstate highway system. BIL also expands the universe of eligible roadways for certain types of investments. For example, up to 15% of National Highway Performance Program funds may be spent on projects on Federal-aid highways (and bridges) off the National Highway System for projects that add protective features related to mitigating risk of recurring damage or the cost of future repairs from extreme weather events, flooding, or other natural disasters.

For bridges, there are over 620,000 bridges on the National Bridge Inventory (NBI), which includes all of the nation's bridges located on public roads, including Interstate highways, U.S. highways, State and county roads, as well as publicly-accessible bridges on Federal and tribal lands. All of these bridges are eligible for investments under the restored bridge formula program.

FHWA staff should encourage metropolitan planning organizations, State transportation departments, FMLAs, and other decisionmakers to direct new and expanded investments based on asset condition and need for modernization, as well as the potential for an investment or project to achieve Building a Better America objectives – rather than focusing exclusively or primarily on assets owned by States. Asset owners of all Federal-aid highways, Federal Lands highways and streets and all NBI bridges should be involved in decisions about which projects are selected for investment.

NEPA Review

FHWA staff shall emphasize to our planning and project selection and project delivery stakeholders that one advantage of focusing investment on Building a Better America projects is that they can be delivered faster because, in many cases, such projects may require only a Categorical Exclusion under FHWA’s NEPA environmental review regulations, 23 CFR Part 771. For example, construction of bicycle and pedestrian lanes, paths, and facilities normally meet the FHWA and CEQ criteria for categorical exclusions and, absent unusual circumstances, do not require any further NEPA approvals by the FHWA. 23 CFR 771.117(c)(3). Similarly, street and highway modernization projects involving resurfacing, restoration, rehabilitation, or reconstruction; highway safety or traffic operations improvement projects; bridge rehabilitation and reconstruction projects; and construction of grade separation to replace existing at-grade railroad crossings will generally qualify for Categorical Exclusions. 23 CFR 771.117(c)(3)

By contrast, other types of projects necessarily require more scrutiny under NEPA. For example, highway capacity expansion projects that involve “acquisition of more than a minor amount of right-of-way or that would result in any residential or non-residential displacements” may *not* be processed as categorical exclusions. Categorical exclusions are also not available if the proposed project would:

- induce significant impacts to planned growth or land use for the area;
- have a significant impact on any natural, cultural, recreational, historic or other resource; or
- have significant impacts to travel patterns.

23 CFR 771.117(a).

FHWA staff shall encourage metropolitan planning organizations, State transportation departments, FLMAs and other decisionmakers to consider the timeline for delivering projects and eligibility for Categorical Exclusions under NEPA as they are programming funding made available under the Bipartisan Infrastructure Law.

General Purpose Capacity Expansion Projects

This Policy prioritizes projects that move more people and freight by modernizing and increasing the operational efficiency of existing roads and highways over projects that expand the general purpose capacity of roads and highways. Consistent with this

Policy, FHWA will implement policies and undertake actions to encourage—and where permitted by law, require—recipients of Federal highway funding to select projects that improve the condition and safety of existing transportation infrastructure within the right-of-way before advancing projects that add new general purpose travel lanes serving single occupancy vehicles.

Application of this Policy does not prohibit the construction of new general purpose capacity on highways or bridges, but in most cases Federal-aid highway and Federal Lands funding resources made available through the BIL should be used to repair and maintain existing transportation infrastructure before making new investments in highway expansions for additional general purpose capacity. State transportation departments should also be mindful of their ability to transfer resources to support transit projects that may be more consistent with these priorities.

Specifically, FHWA staff shall encourage metropolitan planning organizations, State transportation departments, FLMAs and other decisionmakers and recipients of Federal-aid highway and Federal Lands funding to consider the following factors before advancing projects that result in new capacity for single occupancy vehicles:

- progress in achieving a state of good repair consistent with the State’s asset management plan under 23 U.S.C 119(e).
- how the project will support the achievement of the State’s performance targets under 23 U.S.C 150 (including any new performance targets established by FHWA); and
- whether the project is more cost-effective than both operational improvements to the facility or corridor and transit projects eligible under chapter 53 of title 49.

Additional Planned Actions

In pursuit of these important policy objectives, FHWA will adopt guidance and implement new requirements, to the extent permitted by statute, to advance this Policy on *Using Bipartisan Infrastructure Law Resources to Build a Better America*. These actions will include:

- incorporating the principles advanced in this Policy into all guidance documents issued for “legacy” apportioned programs for which the BIL includes changes in eligibility or other requirements;
- incorporating the principles advanced in this Policy into all guidance and regulatory documents issued for new programs created by the BIL and administered by FHWA;
- incorporating the principles advanced in this Policy into all notice of funding opportunities (NOFOs) for its allocated discretionary grant programs;
- working with the Federal Transit Administration to review and, if appropriate, propose changes to guidance or regulations governing the federally required transportation planning processes in metropolitan areas, as set forth in 49 U.S.C.

5303 and 23 U.S.C. 134, and in rural areas and on a statewide basis set forth in 49 U.S.C. 5304 and 23 U.S.C. 135;

- reviewing and, if appropriate, proposing changes to guidance or regulations governing Transportation Asset Management Plans;
- reviewing and, if appropriate, proposing changes to guidance or regulations governing relevant aspects of the NEPA process for FHWA projects;
- reviewing and, if appropriate, proposing changes to guidance or regulations governing relevant aspects of Title VI as it applies to FHWA projects; and
- improving and promoting the use of travel demand modeling to provide for more accurate forecasting of how proposed projects (including, but not limited, to projects proposing the addition of general-purpose capacity) affect travel demand and air emissions including emissions of greenhouse gases.

Conclusions

Although States and other Federal-aid recipients ultimately select projects consistent with 23 U.S.C. 145, and FLMAAs consistent with 23 U.S.C. 201, this Policy will inform that decision-making. Once implemented, this Policy will help improve safety and accessibility for all road users, reduce the environmental impact of highway and bridge projects, including curtailing transportation greenhouse gas emissions that contribute to climate change, better accommodate new and emerging transportation technologies, reduce relocations and otherwise ensure that transportation agencies do not expand roadways in inequitable ways that disproportionately impact disadvantaged communities, and support the efficient and effective use of Federal funds.

Working together, we can make investments and deliver projects that upgrade the condition of streets, highways, and bridges and make them safe for all users, while at the same time modernizing them so that the transportation network is accessible for all users, provides people with better choices across all modes, is more sustainable and resilient to a changing climate, and is more equitable. FHWA is committed to increasing our level of coordination with metropolitan planning organizations, State departments of transportation and other stakeholders and decisionmakers including local and tribal governments that have not traditionally had access to needed Federal funds to ensure these goals are fully realized.

CLEARING THE PATH FOR A SAFER JOURNEY.

Dynamic Envelopes are pavement markings used to decrease unsafe stopping behavior for motorists, bicyclists, and pedestrians near railroad crossings. These white markings, coated with reflective glass powder, indicate the clearance needed for trains to safely pass.

Dynamic Envelopes reduce vehicles stopped on or too close to the tracks by at least 15%.*

Estimated Census Implementation Timeline

February 2021

Census Bureau publishes proposed criteria for urban areas

Fall/Winter 2021

Census Bureau publishes final criteria for urban areas

Spring/Summer 2022

Census Bureau releases list of qualifying urban areas

Spring/Summer 2022

USDOT provides urban area boundaries

Fall 2022

USDOT designates TMAs

Before October 2022

FDOT revisits PL distribution formula

Source: <https://ctpp.transportation.org/wp-content/uploads/sites/57/2021/03/FHWA-Adjusted-Urban-Area-Boundaries-AUAB.pdf>

Estimated Census Implementation Timeline

Before next MTP update, after October 1, 2022, or within 4 years of new urban area boundary designation	MPOs adjust MPAs to include new urban area boundaries
Spring/Summer 2023	New MPOs must be designated by Governor
Spring 2024	New TMAs must have a Congestion Management Plan (CMP)
Spring 2024	Governor approves adjusted urban area boundaries
Spring/Summer 2026	New MPOs must have adopted MTPs and TIPs

Source: <https://ctpp.transportation.org/wp-content/uploads/sites/57/2021/03/FHWA-Adjusted-Urban-Area-Boundaries-AUAB.pdf>
