VI. DISCUSSION ITEMS

A. List of Priority Projects – Submittal of New Projects and Updates to Existing Project Applications

The annual process of developing the 2019 List of Priority Projects began in September with a request for submittal of new projects and the required FDOT Project Information Application. This process applies to projects seeking FDOT funding through the Local Agency Program, which is a program in which local governments are eventually certified to manage projects receiving state or federal funds. Technical Advisory Committee members are requested to prepare the project applications forms for new projects. Projects already on the List of Priority Projects will require an updated application in order to advance on the list. New or updated PIAs must be submitted in order for the project phase to be included in the 2019 List of Priority Projects.

B. The MPO is working with FDOT D5 on the development of the Central Florida Regional Planning Model (CFRPM) v7 2015, 2045 and interim year's socio-economic (SE) data.

The allocation of SE data to individual TAZs was based on one or more of the following:

- Individual known development projects in specific TAZs between 2010 and 2015.

- Review historical 2010 and 2015 aerial image files on TAZ to TAZ level to estimate growth of population and employments.
- Use available 2010-2015 new house units from Property Appraiser records.
- Use available 2015 employment data provided by FDOT Central Office.

The Lake~Sumter MPO TAZ & SE Data Working Map is available for review at the link below. Please send comments to Francis Franco, GIS Manager at:

D. US 301 Project Development and Environmental (PD&E) Study GoToMeeting Presentation and Public Hearing.

This study is evaluating the widening of US 301 from County Road (CR) 470 East to State Road (SR) 44, a distance of approximately 7.8 miles in Sumter County. This includes evaluating the need to realign a portion of US 301 south of the City of Coleman to lessen the movement of heavy truck traffic through the community. All viable alternatives and alignments will be considered.

GoTo Meeting to provide US 301 PD&E Update presentation to the Lake-Sumter MPO. See the connection information for the GoTo meeting below:

Public Hearing #2
Thursday, November 29, 2018
Ridge Manor Community Center
34240 Cortez Blvd.
Dade City, FL 33523
From 5:30 p.m. to 7:30 p.m.

VII. PRESENTATIONS:

- A. Lake County Community Traffic Safety Team, (CTST). George Gadiel, P.E., Traffic Engineer**
Sumter County Community Traffic Safety Team, Deborah L. Snyder, P.E., PTOE, Public Works Director/County Engineer

The CTST is a comprehensive, multi-jurisdictional, multi-disciplinary approach to solving roadway safety problems on the streets and highways in Lake and Sumter Counties. Multi-jurisdictional means several agencies (cities and counties) plus other groups and organizations working together toward a common goal of improving safety within a community. Multi-disciplinary means integrating the efforts of the various disciplines that work in highway safety:

1. Engineering
2. Law Enforcement
3. Emergency Services
4. Education (Public Awareness)

Lake County CTST Meetings are held every month on the third Thursday (9:30 a.m.) at the FDOT

Leesburg Office, 1405 Thomas Ave., Leesburg, FL.

https://www.lakecountyfl.gov/departments/public_works/engineering/community_traffic_safety_team/

Sumter County CTST Meetings are held quarterly at the Sumter County Public Works Office at 319 East Anderson Avenue Bushnell FL 33513.

VIII. INFORMATIONAL ITEMS:

- A. Community Connections Innovations Handbook, U.S. Department of Transportation, Federal Highway Administration.**

The Federal Highway Administration's (FHWA) Community Connections initiative is about using transportation innovations, partnerships, and technologies to bring communities together and connect people to services and opportunities.
