Overview

Greetings everyone!! It is another Saturday in Tallahassee and up here we are enjoying some liquid sunshine this morning. As always, it is good to be with you for another update.

This legislative session has been completely different and that is not a surprise to you. It is the odd colliding of events that has made this session so very odd. Committee meetings are held with an audience either in a meeting room about a ¼ mile away which by itself is not difficult or watching a video from their personal computer. What we are missing is the ability to watch the body language and interactions of the individual legislative members with each other and their staff. Reading the mood in the room is key to getting a context as to how strong a bill might or might not be and if it is going to ultimately pass in the 2021 session. Watching the committee meetings on a camera only allow us to see what the camera is broadcasting, those side conversations and interactions are lost. You don't get to see your legislators in action and figure out the unofficial pecking order of the two chambers. Layered over the top of all of this are the national events taking place this past week, and in the weeks leading up to this point in time. Media attention has turned their focus on the national events and it appears there is less attention on our own state politics. Maybe that is a good thing, after all who wants to read about another "Florida Man" article in national news.....

So, what is happening at our capital you ask? Here are a few details for you to mull over. This week we crossed a landmark event, there are now 1000 bills filed for the 2021 legislative session. For all of last year there were 3518 bills filed. Also, as of Monday, members had filed 863 earmarks and the cumulative sum of those requests is \$947 Million. In the bill subject index those earmark requests take up 11 pages of small font print. Folks, that is a lot of earmarks. I will remind readers that last year the Governor line item vetoed all earmarks that made it through the House and Senate Appropriations processes. This is probably a good time to point out that some earmarks are better than others. Transportation earmarks are the bad kind of earmarks. When a member puts in a transportation project as an earmark two things happen. One, that earmark bypasses the entire quantitative evaluation process at your Metropolitan Planning Organization (MPO) where all projects are evaluated at one time to determine what is the best use of our limited dollars. Good transportation planning at your MPO results in money wisely spent. Essentially that earmark project is saying that it is going to skip your evaluation and move to the top of the funding list. That brings us to the second problem, a transportation earmark takes dollars away from your locally generated funding priorities, there is only so much money to go around. Your District office of Florida DOT has to now find money for the earmark and take money away from other projects so the earmark can be funded. You might have to lose your top priority to fund an earmark. If that is not bad enough, then the really bad part rears it's ugly head. If the earmark is line item vetoed, the project and the money for the project are gone. That money which was taken from other projects and set aside

to fund the now defunct transportation earmark does not come back, it was part of the budget and that line item is simply gone. That means your district office has less money to work with in the coming year. **Remember ALL earmarks were line-item vetoed last year.** I simply ask, if you feel the need to pursue an earmark, please request a community pool, a library, a park, something that comes from general revenue. **Do Not request transportation projects.** ask for more money to go to transportation – that would be very welcome. Alright, I have shouted from my soapbox long enough on this topic. Please don't ask me to repeat this funding lesson, just ask for a new fire station from general revenue.

So what have been some of the hot bills this week. Well, the vacation rentals bill was heard in committee and it would preempt local governments from regulating AirBNB and similar rentals. This would be handled by the Department of Business and Professional Regulation. How many new employees would the Department need to oversee this program? That is a good question, let me know when you hear an answer. Another set of bills are being brought forward this year. The proposed legislation would place term limits on School Board members and a separate bill would eliminate salaries for School Board members. On a bright note, Senator Hooper filed a bill that considers fees for electric and hybrid vehicles when the combination of the two reaches 5% of the total number of vehicles registered in Florida. Thank you Senator Hooper for filing SB 1276, we appreciate your efforts.

At Tuesday's meeting of the Senate Appropriations Subcommittee on Transportation, Tourism and Economic Development the Department of Transportation presented an overview and associated impacts to Transportation funding due to a downturn in revenues compared to anticipated revenues. I thought the department did an excellent job of explaining how the Florida DOT handles money and the implications of cash flow for a transportation project. Watch the meeting for a much more detailed explanation than is in this short paragraph. Just to share with you, the Department operates on a cash flow model and the \$437M reduction in this year affects \$763M of projects over the 5-year life of the department's plan. Here is a link to that video of the meeting: https://flsenate.gov/media/videoplayer?EventID=1_05khpsef-202102091100&Redirect=true
