1. INTRODUCTION

1.1 DEFINITION OF THE UNIFIED PLANNING WORK PROGRAM

The Lake~Sumter Metropolitan Planning Organization (MPO) is the designated agency responsible for transportation planning and programming of federal transportation funds. The MPO is tasked with effectively identifying the public's transportation needs. The extent of the MPO's metropolitan planning area is shown in **Figure 1**. Development in the MPO area has been strong, and Sumter County is one of the fastest growing counties in the U.S. Along with this growing population comes an increased demand on the transportation infrastructure. However, funding for transportation improvements continues to fall short of the needs.

Figure 1. *Lake~Sumter MPO Planning Area Map*

The Unified Planning Work Program (UPWP) describes the transportation planning projects to be performed within the MPO study area. It also:

- Summarizes planning tasks to be completed by the MPO
- Defines work products and timeline for major activities
- Proposes budget using federal and other funds for planning
- Estimates cost for each task

This Work Program is consistent with all federal and state requirements. All products including the Transportation Improvement Program (TIP) and planning concepts and factors follow Federal and State guidelines. The MPO is complying with Title VI of the Civil Rights Act of 1964. Title VI specifically prohibits discrimination on the basis of race, color, national origin, age, disability, religion or sex. This applies in any and all applications of work by the MPO, including its administration, decision making and purchasing options.

The MPO's plans and programs are designed to meet the current and future transportation needs of the Lake~Sumter Region. Pursuant to Titles 23 and 49, Code of Federal Regulations (CFR), and Chapter 339.175, Florida Statutes (F.S.) and the Federal Transit Act, the Fiscal Year 2020/21 – 2021/22 Unified Planning Work Program (UPWP) is the basis for allocating federal, state and local funds for transportation planning purposes in Lake and Sumter Counties. The UPWP documents all planning tasks and related activities for the period of July 1, 2020 through June 30, 2022 developed by the MPO and other transportation planning agencies. A glossary of acronyms used throughout this document can be found in **Appendix A**.

1.2 OVERVIEW OF COMPREHENSIVE TRANSPORTATION PLANNING ACTIVITIES

The Lake~Sumter MPO's on-going planning activities include the following:

1.2.1 Long Range Transportation Plan

The LRTP is one of the key products of the planning process and addresses the state and federal requirements that are the responsibility of the MPO as the organization authorized to carry out the transportation planning process. The Lake~Sumter MPO commenced development of the 2040 Long Range Transportation Plan in FY 2014/15 and the MPO Governing Board adopted the plan on December 9, 2015. It was approved by the Federal Highway Administration on December 11, 2019 in accordance with the FAST Act Compliance. The multi-modal plan incorporates transit and five programs that address multiple modes of transportation: Complete Streets, Regional Trails, Safe Schools Emphasis Areas, Sidewalks, and Transportation Systems Management and Operations. The major planning effort for the 2045 Long Range Transportation Plan began in the fall of 2019.

1.2.2 Efficient Transportation Decision Making (ETDM)

MPO staff continues to work on the implementation of the Efficient Transportation Decision-Making (ETDM) process. The Lake~Sumter MPO is the local lead agency in ETDM planning screenings and facilitates communication between FDOT and member governments in order to receive thorough comments on projects filtered through the ETDM process. Projects under consideration for inclusion in Transportation 2040 were systematically screened before the needed projects list was finalized. ETDM was an integral component to implementation of Transportation 2040 and planning for the 2045 Long Range Transportation Plan.

1.2.3 Intelligent Transportation System Master Plan for Lake and Sumter Counties

The Lake~Sumter Metropolitan Planning Organization (MPO) worked with Lake County to develop an Intelligent Transportation System (ITS) Master Plan for the Lake County area. This master plan evaluated the current systems in the Lake County Area, determined future needs and formulated an implementation strategy for the future development and maintenance of the ITS. The next design phase of the ITS Masterplan is an MPO priority.

Sumter County Transportation System Management & Operations (TSMO) master plan evaluated the current systems in the Sumter County Area, determined future needs and formulated an implementation strategy for the future development and maintenance of the ITS. The next design phase of the TSMO Masterplan is an MPO priority.

1.2.4 Complete Streets Projects

The East Avenue Complete Street Study was completed in December of 2019. The Clermont State Road 50 and US 301 in downtown Wildwood Complete Studies are on-going. The MPO is conducting the Wekiva Trail Alternate Corridor Study for the City of Mount Dora, completion is scheduled for December 31, 2020.

1.2.5 Transit Planning

The long term objective and efforts to clarify future spending and paratransit and fixed route transit integration will continue through both the update of the LakeXpress system and monitor the progress of the LakeXpress fixed-route transit system, running along the US 441 corridor. An on-going evaluation of this system needs to include additional Lake County municipalities desirous of fixed-route transit services and in order to incorporate para-transit issues into the fixed-route transit planning process. All Lake County municipalities are invited to participate and the group coordinates with Sumter County as needed.

1.2.6 Completed Planning Studies in The Lake~Sumter Regional Area Over The Last UPWP Two year Period

Planning studies completed in the regional planning area by the MPO, FDOT, and Local Counties during the last UPWP include:

1.2.7 On-going and Planned Planning Studies in the Lake~Sumter Regional Area

Districtwide studies must be identified as an informational item in the UPWP if they are within the MPO's planning area. Below are studies underway or planned by the Lake~Sumter MPO, FDOT District 5 and the counties within the MPO boundaries.

1.3 WHAT ARE THE GUIDING PRINCIPLES OF THE UPWP?

The development of the UPWP is guided by Federal, State, Regional and Local transportation planning priorities which are described below. The combination of these priorities provides the foundation for the development of a comprehensive transportation system.

1.3.1 Federal Planning Factors

The FAST (Fixing America’s Surface Transportation) Act was signed into law on December 4, 2015. The FAST ACT’s transportation planning factors build on the eight factors in MAP-21 and added two new factors. The 10 Federal Planning Factors are identified below.

1. Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency;
2. Increase the safety of transportation system for motorized and non-motorized users;
3. Increase the security of the transportation system for motorized and non-motorized users;

4. Increase the accessibility and mobility of people and for freight;
5. Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns;
6. Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight;
7. Promote efficient system management and operation;
8. Emphasize the preservation of the existing transportation system;
9. Improve the resiliency and reliability of the transportation system and reduce or mitigate storm water impacts of surface transportation; and
10. Enhance travel and tourism.

1.3.2 FDOT Statewide Planning Emphasis Areas

The Florida Department of Transportation Office of Policy Planning develops *Planning Emphasis Areas* on a two-year cycle in coordination with the development of Metropolitan Planning Organizations' respective unified planning work programs. Emphasis areas set planning priorities, support the Florida Transportation Plan, and give importance to topic areas which MPOs are encouraged to address as they develop their planning programs. Implementation of the seven goals of the Florida Transportation Plan requires embracing innovation; extensive collaboration across jurisdictions, modes and disciplines; an emphasis on customer service; data and performance feedback; and strategic investments for the efficient and effective allocation of resources. Metropolitan Planning Organizations should consider the following four topics when updating their Unified Planning Work Plan.

SAFETY

Safety has been a federal planning priority over numerous iterations of the transportation legislation. As stated within the FAST Act planning factors, metropolitan areas should “increase safety for motorized and non-motorized users.” The state of Florida has expanded on this concept further by becoming a Vision Zero area, with a stated goal within the Florida Transportation Plan of zero fatalities across the state’s transportation system. FDOT adopted their Strategic Highway Safety Plan in 2016, which provides more information about how the state intends to address transportation safety in the coming years. Since the MPOs are being asked to report on and monitor their progress against their adopted safety performance measures, MPOs need to account in their UPWP for the effort necessary to satisfy these federal requirements. Additionally, MPOs are encouraged to consider how to expand upon the level of analysis and reporting required by the performance measurement process to further study their unique safety

challenges. This approach may include the identification of safety needs in the MPO's LRTP or TIP, stand-alone safety studies for areas or corridors, or safety considerations within modal planning elements.

SYSTEM CONNECTIVITY

Connectivity is a concept that is emphasized both at the federal and state levels. Within the FAST Act, one of the ten planning factors states, "enhance the integration and connectivity of the transportation system, across and between modes, for people and freight." Within the Florida Transportation Plan, system connectivity is addressed within four different goals.

- Make our economy more competitive
- Increase opportunities for access to transit and other modes
- Provide a more efficient and mobile transportation system
- Meet the needs of a growing and changing population

A connected system is often more cost-effective and better able to address natural and manmade constraints. For MPOs, system connectivity should be considered within several contexts. First, MPOs should emphasize connectivity within their boundaries to serve the unique needs of their urban and non-urban jurisdictions. This requires coordination with member jurisdictions to identify their connectivity needs while also understanding how current and future land uses impact or can help augment connectivity. Second, MPOs should consider connectivity beyond their boundaries and emphasize continuity on those facilities that link their MPO to other metropolitan and non-urban or rural areas. Third, connectivity for MPOs should include multimodal linkages that are supportive of both passengers and freight. A connected network supports users traveling by a variety of modes, including first and last mile linkages.

RESILIENCE

With the passage of the FAST Act, resilience was introduced as a federal planning factor: "Improve the resilience and reliability of the transportation system and mitigate stormwater impacts of surface transportation." Resilience is defined as the ability to adapt to changing conditions and prepare for, withstand, and recover from disruption. These conditions can encompass a wide variety of environmental, technological, economic, or social impacts. MPOs can address resilience within their planning processes by leveraging tools such as the FHWA Resilience and Transportation Planning guide and the FDOT Quick Guide: Incorporating Resilience in the MPO LRTP. It should be noted that while these documents focus primarily on the development of MPO LRTPs and TIPs, addressing resilience should be a consideration within every planning document prepared by an MPO. MPOs should place a particular emphasis on coordination with agency partners responsible for natural disaster risk reduction, or who may be developing local resilience planning initiatives. Additionally, MPOs should consider the additional costs associated with reducing vulnerability of the existing transportation infrastructure. Proactive resiliency planning will help the MPO develop planning documents that are ultimately more realistic and cost-effective.

ACES (AUTOMATED/CONNECTED/ELECTRIC/SHARED-USE) VEHICLES

According to the Federal Highway Administration, “Transportation is in the midst of disruptive change from new technologies (automated and connected vehicles); new institutions (shared mobility firms); and changing attitudes (reduced car ownership). Across the nation, transportation planners are under pressure to develop performance-oriented policies, plans, and investment decisions that consider an increasingly complex transportation landscape. In the process, planners need to consider, but cannot yet reliably predict, the potential impact of disruptive and transformational Connected Vehicle (CV) and Automated Vehicle (AV) technologies on safety, vehicle ownership, road capacity, VMT, land-use, roadway design, future investment demands, and economic development, among others. While some forms of CV and AV are already being deployed across the United States, significant unknowns exist regarding the rate of technology adoption, which types of technologies will prevail in the marketplace, the interaction between CV/AV vehicles and various forms of shared mobility services, and the impacts of interim and widespread levels of CV/AV usage.” Adopting and supporting innovative technologies and business practices supports all seven goals of the Florida Transportation Plan and the federal planning factors found in the FAST Act. ACES may lead to great improvements in safety, transportation choices, and quality of life for Floridians, our visitors, and the Florida economy. Though there is a great deal of speculation and uncertainty of the potential impacts these technologies will have, MPOs need to determine how best to address the challenges and opportunities presented to them by ACES vehicles.

Planning Consistency Matrices for both Federal and State Guidelines are shown in **Appendix B**.

Additionally, FDOT District 5 planning activities for the next two years includes the following:

- GIS Application Development and System Maintenance
- Systems Planning and Reviews
- Interchange Reviews
- Travel Demand Model Development
- ETDM/Community Impact Analysis
- Statistics
- Federal Functional Classification
- Traffic Counts Program
- Modal Development Technical Support
- Transportation Alternatives Program Development
- Commuter Services
- State Highway System Corridor Studies
- Complete Streets Studies
- Growth Management Impact Reviews
- Promoting and coordinating Safety for all modes of transportation

1.3.3 Performance-Based Planning

Pursuant to the MAP-21 and FAST Acts, state departments of transportation and MPOs must apply a transportation performance management approach in carrying out their federally required transportation planning and programming activities. The process requires the establishment and use of a coordinated, performance-based approach to transportation decision-making to support national goals for the federal-aid highway and public transportation programs. This process will be incorporated into multiple planning activities, with a particular focus on the TIP and LRTP. The FDOT is required to establish statewide targets for the required performance targets, and MPOs have the option to support the statewide targets or adopt their own. Based on this information, the Lake-Sumter MPO has adopted FDOT's performance measure targets. The local transit agencies (LakeXpress) must also adopt performance targets in the Transit Asset Management Plan (TAM) and the MPO must consider including the TAM targets in the LRTP and TIP updates.

1.3.4 Local and Regional Planning Priorities

The needs and level of planning of the MPO area are reflected in this UPWP and are consistent with the 2040 Long Range Transportation Plan's planning priorities. The objectives of this UPWP are to address the planning priorities of the area as follows:

- **Invest in transportation infrastructure to support a prosperous, competitive regional economy.**
Provide an efficient, interconnected transportation system to advance and support the economic well-being and quality of life of the region; improve travel reliability on major freight routes; and enhance access to jobs.
- **Provide a safe and secure transportation system for all users.**
Minimize crashes and fatalities for all modes of transportation; improve safety for pedestrians and cyclists; and facilitate accessibility for emergency response vehicles.
- ***Proactively manage the operations of the regionally significant transportation facilities in the MPO planning area for all users.***
Improve transportation options available to residents, business patrons and visitors; balance regional capacity needs with human scale accessibility needs; continue implementation of the MPO's Complete Streets policy; and invest in Intelligent Transportation Systems (ITS) as an alternative to adding roadway capacity
- **Improve mobility options and connectivity for people and goods.**
Invest in strategies to reduce per capita vehicle miles traveled (VMT); Increase modal opportunities and modal enhancements within communities; and improve freight facility connectivity in the Lake~Sumter Region across all modes of transportation
- **Make transportation decisions that support communities' visions and promote responsible social, economic and environmental stewardship.**

Coordinate regional transportation planning efforts and local comprehensive planning efforts; reduce negative environmental impacts associated with transportation investments; and ensure Environmental Justice (EJ) is considered in all aspects of MPO planning.

1.3.5 What are the Planning Tasks in the UPWP?

The purpose of Metropolitan Planning funds is to provide for a Continuing, Comprehensive, and Cooperative (3-C) metropolitan transportation planning process. Planning tasks are performed with funds under Title 23 Sections 134 (Metropolitan Transportation Planning) and 135 (Statewide Transportation Planning) and Title 49 Chapter 53 (Public Transportation). Planning tasks to be undertaken during the two-year period covered by this document include the following seven major categories:

Task 1.0: Administration and Management of Planning Process

Task 2.0: Multimodal Planning

Task 3.0: Transportation Improvement Program

Task 4.0: Long Range Transportation Planning

Task 5.0: Regional Planning

Task 6.0: Public Involvement

1.4 WHAT ARE SOME OF THE FINANCIAL CONSIDERATIONS?

1.4.1 FDOT Soft Match

Section 120 of Title 23, U.S.C., permits a State to use certain toll revenue expenditures as a credit toward the non-Federal matching share of all programs authorized by Title 23 (with the exception of Emergency Relief Programs) and for transit programs authorized by Chapter 53 of Title 49, U.S.C. This is in essence a “soft match” provision that allows the Federal share to be increased up to 100% to the extent credits are available. This soft match is not required to be programmed. It will not be shown in the budget tables throughout this UPWP; however, it should be known that the “soft match” amounts shown in Section 4.1 are being utilized to match the FHWA funding in this UPWP.

1.4.2 Indirect Cost Rate

The Lake~Sumter MPO does not utilize an indirect cost rate.

1.5 DOES AIR QUALITY IMPACT THE MPO’S PLANNING?

The MPO is currently in an attainment area for all National Ambient Air Quality Standards (NAAQS). The MPO will monitor this status and engage in future planning activities as appropriate.

1.6 WHAT IS THE PUBLIC REVIEW PROCESS FOR THE UPWP?

Adoption of or amendments to the UPWP will be done after the public has been notified of intent to amend the plan, and only after the public has had 21 days to review and comment on the proposed changes.

The MPO public participation plan provides the public with many opportunities to comment on the FY 2020/21–2021/22 UPWP including but not limited to the following:

- 21-day comment period on the draft FY 2020/21-2021/22 UPWP
- Public meetings on specific transportation projects including the UPWP
- MPO Website: www.LakeSumterMPO.com where the draft UPWP document is available for viewing and/or download
- MPO Governing Board and Committee meetings (Technical Advisory Committee (TAC), Community Advisory Committee (CAC), Transportation Disadvantaged Coordinating Board (TDCB)
- Approved Draft UPWP on February 12, 2020 at the TAC and CAC meetings
- Approved Draft UPWP on February 26, 2020 at the Governing Board meeting, and opened Public Review period

The MPO mailing list includes civic associations, clubs, municipal governments, newspapers, concerned citizens.

2. ORGANIZATION AND MANAGEMENT OF THE MPO

2.1 IDENTIFICATION OF PARTICIPANTS

The Lake~Sumter Metropolitan Planning Organization (MPO) was established on February 25, 2004, after the 2000 U.S. Census determined the urbanized areas around Leesburg, Eustis and Lady Lake had exceeded a population of 50,000. In 2010 Governor Crist approved the MPO's Re-designation Plan to include all of Sumter County creating the current MPO planning area. Tasked with effectively identifying the public's transportation needs is the Lake~Sumter MPO Board. The Board consists of elected officials representing all of the local governments in the region, including municipal and county entities.

2.1.1 Lake~Sumter MPO Mission Statement

The mission of the Lake~Sumter Metropolitan Planning Organization is to provide the local governments, agencies and residents of Lake and Sumter counties a forum for addressing growth and transportation issues, with an emphasis on:

1. Planning a regional, multi-modal transportation network that balances accessibility and mobility
2. Incorporating the visions of the member governments into a cohesive regional approach; and
3. Coordinating with regional partners and state and federal agencies to meet the needs of the public

2.1.2 Lake~Sumter MPO Board Membership

Representatives of Lake County and Sumter County governments, the 14 municipalities of Lake County, the five municipalities in Sumter County, the Lake County School Board, the Sumter County School Board, Florida Central Railroad (FCEN), the Central Florida Expressway Authority (CFX), FDOT and the U.S. Department of Transportation (USDOT) are involved in the transportation planning process for the Lake~Sumter MPO.

- A. Voting Members:** The MPO Governing Board includes elected representatives from Lake and Sumter counties, two county commissioners from Sumter County and all five county commissioners from Lake County. In addition, there are seven voting members from municipalities with representatives from: Clermont, Eustis, Lady Lake, Leesburg, Minneola, Mount Dora and Tavares. There is one additional at-large voting member that annually rotates from the following cities: Astatula, Fruitland Park, Groveland, Howey-in-the-Hills, Mascotte, Montverde and Umatilla. There is one additional at-large voting member from the following cities: Bushnell, Center Hill, Coleman, Webster and Wildwood that is determined by interlocal agreement between the cities.

- B. Other Entities/Non-voting:** Ex-officio members include Florida Central Railroad, added as ex-officio member in 2006, both counties’ school districts, approved as ex-officio members in 2008, and CFX, added in 2015. A chart depicting these members is shown in **Figure 8**.

2.1.3 Advisory Committees and Task Forces

The Lake~Sumter MPO Governing Board receives recommendations from four advisory committees. Four task forces have been created to allow opportunity to address specific areas or issues.

Advisory Committees	Task Forces
<p>Executive Committee The purpose of the Executive Committee is to efficiently address matters not feasible to be heard by the full MPO Board in a timely fashion. The MPO Board may refer items to the Executive Committee for action or recommendation.</p>	<p>East Lake Task Force The Lake-Sumter MPO East Lake Task Force meets quarterly to promote transportation solutions for the East Lake area relevant to the regional vision.</p>
<p>Technical Advisory Committee (TAC) The Technical Advisory Committee (TAC) is comprised of planners and engineers from the various local governments comprising the MPO. The input provided by the TAC is of a very technical nature and may include making technical design recommendations and verifying that all documents conform to the appropriate standards.</p>	<p>The Northwest Lake Task Force The Lake-Sumter MPO Northwest Lake Task Force meets quarterly to promote transportation solutions for the Northwest Lake area relevant to the regional vision.</p>
<p>Community Advisory Committee (CAC) The CAC ensures the public has the opportunity to review and evaluate proposed transportation plans and programs. The committee membership includes multimodal transportation advocates, as well as representatives from under-served communities and business interests. This composition encourages geographic, demographic and modal diversity.</p>	<p>The South Lake Task Force The Lake-Sumter MPO South Lake Task Force meets quarterly to promote transportation solutions for the South Lake area relevant to the regional vision.</p>
<p>Transportation Disadvantaged Coordinating Board (TDCB) There are two TDCBs in the MPO Area; one for Lake and one for Sumter county. The primary purpose of each TDCB is to assist the MPO in identifying local service needs and in providing information, advice and direction to the Community Transportation Coordinators (CTCs) in Lake and Sumter Counties.</p>	<p>The Public Transportation Task Force Previously known as the LakeXpress Task Force, the Public Transportation Task Force monitors the progress of the LakeXpress along the US 441 corridor.</p>

2.1.4 MPO Staff

The MPO Staff is responsible for collecting and disseminating all information from the transportation planning process to the general public. The work effort required to support the planning process is administered by the MPO staff in cooperation with local governments and the FDOT. Examples of other agencies that are consulted in various phases of the planning process include the Department of Environmental Protection, the Federal Aviation Administration, Federal Rail Administration and the Water Management District (WMD) Offices (St. John’s River WMD and Southwest Florida WMD).

ORGANIZATION CHART

2.2 MPO AGREEMENTS

The MPO has executed all required agreements to facilitate the transportation planning process. A list and execution status of these agreements follows.

- The Lake~Sumter MPO is party to an interlocal agreement among the six MPOs that are members of the **Central Florida Metropolitan Planning Organization Alliance (CFMPOA)**. The purpose of the agreement among the CFMPOA members is enhanced regional transportation planning. The CFMPOA also executed the FDOT agreement with the **Regional Intergovernmental Coordination and Review (ICAR)** agencies serving the metropolitan area created under Section 186.504, F.S. The agreement describes the process for coordination of MPO planning and programming activities and how transportation planning and programming activities will be a part of the comprehensive planned development of the metropolitan area. This agreement also defines the process for fulfilling the clearinghouse requirements for federally funded activities. The MPO took the lead in introducing interlocal agreements to two neighboring MPOs with which the Lake~Sumter MPO shares urbanized areas. The proposed interlocal agreements would further reinforce the planning roles of each MPO. The agreement stipulates planning coordination on projects and on plans and programs such as the Transportation Improvement Program and the Long Range Transportation Plan.
- In addition, the Lake~Sumter MPO is a party to the **Metropolitan Planning Organization Advisory Council (MPOAC)**. The Florida MPOAC is a statewide transportation planning and policy organization created by the Florida Legislature pursuant to Section 339.175(11), Florida Statutes, to augment the role of individual MPOs in the cooperative transportation planning process. The MPOAC assists MPOs in carrying out the urbanized area transportation planning process by serving as the principal forum for collective policy discussion. The organization is made up of a Governing Board (27 members) consisting of local elected officials from each MPO and a Staff Directors' Advisory Committee consisting of the staff directors from each of the MPOs. The MPOAC also includes a Policy and Technical Subcommittee, a Freight Committee, and other committees as assigned by the Governing Board. The Policy and Technical Subcommittee annually prepares legislative policy positions and develops initiatives to be advanced during Florida's legislative session. The MPOAC actively participates in the activities of the National Association of MPOs (AMPO) and the National Association of Regional Councils (NARC) in Washington DC and works with other stakeholder groups to help shape state and national policy regarding metropolitan transportation issues. Current initiatives include the Complete Streets Working Group and the Best Practices Working Group tasked with developing guidance documents detailing best practices for MPO planning activities.

- **Interlocal Agreement for the Creation of Metropolitan Planning Organization** between Florida Department of Transportation (FDOT), the County of Lake, the County of Sumter, Town of Astatula, City of Bushnell, City of Center Hill, City of Clermont, City of Coleman, City of Eustis, City of Fruitland Park, City of Groveland, Town of Howey-in-the-Hills, Town of Lady Lake, City of Leesburg, City of Mascotte, City of Minneola, Town of Montverde, City of Mount Dora, City of Tavares, City of Umatilla, City of Webster, City of Wildwood, Florida Central Railroad, Lake County School Board, Sumter County School Board, and the Central Florida Expressway Authority.
Updated October 28, 2015, Renew in October 2020.
- **Metropolitan Planning Organization Agreement** is financial assistance through the FDOT in the form of FHWA funds to the MPO for the completion of transportation related planning activities set forth in the Unified Planning Work Program (UPWP) of the MPO.
Biennial (every two years) agreement. Approval June 2020.
- **Intergovernmental Coordination and Review and Public Transportation Coordination (ICAR) Joint Participation Agreement** is an interlocal agreement between the FDOT, Lake~Sumter MPO, East Central Florida Regional Planning Council, Lake County Community Transportation Coordinator, and the Sumter County Community Transportation Coordinator to coordinate planning efforts.
Updated August 26, 2015, Renew by August 2020.
- **Public Transportation Joint Participation Agreement 5305(d)** provides funds for transit related task elements for the UPWP.
Updated October 25, 2016, Renew by September 2021.
- **Transportation Disadvantaged (TD) Planning Grant** provides state planning funds to coordinate the Transportation Disadvantaged Services in Lake County and Sumter County.
Annual application July 1, 2020 thru June 30, 2021 and July 1, 2021 thru June 30, 2022.
- **MPO Staff Services Agreement** provides staff for carrying out MPO activities.
Renewed February 2020.

All agency plans and programs comply with the public involvement provisions of Title VI which states: “No persons in the United States shall, on grounds of race, color, sex, age, disability/handicap, income level or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance”. To further ensure full compliance with federal requirements, the MPO Governing Board adopted a formal plan covering Title VI issues in July 2007 and updated the approved the Title VI Program in 2018.

2.3 OPERATIONAL PROCEDURES AND BYLAWS

The Metropolitan Planning Organization will monitor the transportation planning process to ensure that it is conducted in a manner consistent with requirements of the applicable state and federal laws and regulations. The intent of the bylaws and operating procedures is to provide rules and procedures to assure the orderly function of the Urban Transportation Planning Process for the Lake and Sumter County Metropolitan planning area.

2.3.1 Bylaws of the Metropolitan Planning Organization (MPO)

The Bylaws of the MPO serve to guide the proper functioning of the Urban Transportation Planning Process for the Lake~Sumter MPO. The intent is to provide procedures and policies for the MPO Governing Board and MPO Committees for fulfilling the requirements of the Federal Highway Act of 1962, Federal Highway Act of 1974, Section 339.175, Florida Statutes, and will operate under the provisions of Section 163.01, Florida Statutes, as amended, and subsequent laws setting forth requirements for transportation planning for all modes of travel and to insure the accomplishment of the planning tasks within a cooperative framework properly related to comprehensive planning on a continuous basis. Full text of the MPO Bylaws can be found on the **MPO website**.

2.3.2 Certification

The most current FDOT certification review was performed February 2020. The Statements and Assurances included in this UPWP as Appendix C include: Debarment and Suspension Certification, Lobbying Certification for Grants, Loans, and Cooperative Agreements, Disadvantaged Business Enterprise Utilization, and Title VI/Nondiscrimination Assurance.

3. TASKS OVERVIEW FOR FY 2020/21- 2021/2022

This section of the UPWP documents each specific transportation planning task to be undertaken during fiscal years, 2020/21-2021/22 including the purpose of the task, previous work accomplished, proposed required activities to accomplish tasks, responsible agencies, cost estimates, and proposed funding sources. The Work Program is broken down into eight major categories of activity. The final section of the UPWP contains the appropriate tables, including a task element index, summary of estimated expenditures, and a summary of proposed expenditures by responsible and participating agencies and funding sources. The MPO will conduct the metropolitan planning processes in conformance with applicable federal (23 CFR 450 and state statutes and to ensure the maintenance of a continuing, cooperative and comprehensive transportation planning process for the Lake~Sumter MPO Planning Area.

Planning Consistency Matrices for both Federal and State Guidelines are shown in **Appendix B**.

Task 1.0 Administration and Management of Planning Process

Provide the staff and necessary resources to conduct a successful Continuing, Comprehensive and Cooperative (3-C) transportation planning process. This includes the monitoring and managing of local planning tasks to ensure that the planning process complies with all state and federal requirements.

Task 2.0 Multimodal Planning

Multi-modal activities encompass plans for Transit; Vulnerable Roadways Users services; Bike-ped Improvements; Complete Street Projects; Safety Improvements; Freight Studies; Traffic Impact Analysis Reviews; Transportation Systems Management & Operations (TSM&O) and/or ITS planning and studies; and System Planning as generated from the Capital Improvements Program (CIP).

Task 3.0 Transportation Improvement Program

This section includes development of the Transportation Improvement Program (TIP) and coordination with the Florida Department of Transportation on development of the FDOT Work Program. The five-year Transportation Improvement Program is required by state and federal laws and is developed on an annual basis and amended as needed to ensure consistency with the FDOT Work Program. Reporting, tracking, and documentation of performance measures and targets for the PIP, Title VI, LEP and DBE plans.

Task 4.0 Long Range Transportation Planning

Work in this section involves the implementation of and any major updates or amendments to the MPO's 2040 Long Range Transportation Plan (LRTP) and development of the new LRTP TRANSPORTATION 2045. The 2040 LRTP was adopted December 9, 2015, TRANSPORTATION 2045 will be adopted on or before December 9, 2020. Work also includes efforts to ensure consistency between the MPO's transportation plan and local government comprehensive plans. This section also includes the utilization of FDOT's Efficient Transportation

Decision Making (ETDM) planning screen process for projects identified in the new plan. Task 4.0 also includes activities to assist local governments in the preparation of FDOT Project Applications in order to make local projects eligible for federal and state funding, as well as the annual development and publishing of the List of Priority Projects (LOPP). This Task includes those elements necessary for the collection and maintenance of transportation data used for MPO's Congestion Management Process (CMP) for analysis and planning purposes by the local governments and used in developing transportation studies. This includes receipt of traffic count information from FDOT; managing the traffic count programs and collecting traffic counts for Lake and Sumter counties; collection of crash data provided by State of Florida and maintaining a crash data management system; and collection and maintenance of data utilized in the MPO's Geographic Information Systems (GIS) database.

Task 5.0 Regional Planning

This task includes the regional visioning and planning initiatives occurring in Central Florida. This task also includes participation in the Florida MPO Advisory Council (MPOAC) and the Central Florida Metropolitan Planning Organization Alliance (CFMPOA). Activities include coordination with state and regional agencies on special planning efforts and statewide visioning and planning initiatives. Also included is the monitoring of federal and state legislative issues and the development of MPO Board policy, positions and priorities.

Task 6.0 Public Involvement

This section contains three elements. The first is continued support of the MPO's Public Involvement Plan, Title VI Plan, Limited English Proficiency Plan (LEP), and the Disadvantaged Business Enterprise Plan (DBE) for the MPO outreach efforts. The second element covers the reporting, tracking, and documentation of performance measures and targets for the PIP, Title VI, LEP and DBE plans. Also, included in this element is the annual MPO staff training in public involvement, Title VI, LEP, and DBE programs, reporting and compliance. The third element of this task are the activities and costs associated with the development, printing and distribution of MPO plans, reports, and MPO publications. The MPOs website also serves as the major information portal for all planning efforts. All information including workshop videos, presentations and technical documents are made available to the public via the website. Advertisements for public meetings and workshops are posted online and placed in local newspapers. The MPO's Public Involvement Plan (PIP) was prepared in accordance with Title 23 Code of Federal Regulations, Section 450.316(b)(1). The PIP provides a process that ensured opportunities for the public to be involved in all phases of the planning process. The updated PIP, Title VI, LEP and DBE Plans were adopted by the MPO at their April 2018 meeting.

TASK 1 ADMINISTRATION AND MANAGEMENT OF PLANNING PROCESS

Purpose

To conduct the metropolitan planning processes in conformance with applicable federal (23 CFR 450) and state statutes and to ensure the maintenance of a successful 3-C (continuing, comprehensive and cooperative) transportation planning process for the Lake~Sumter MPO Planning Area.

Previous Work

Preparation and distribution of planning documents, technical assistance and preparation of documents for MPO/TPO Board and committee meetings. Coordination with federal, state, and local partners. Preparation of contracts and agreements. Preparation of certification documents. Attendance at workshops and training sessions.

TASK 4 LONG RANGE TRANSPORTATION PLAN

Purpose

To maintain, update and implement a long-range transportation plan that is technically sound and financially cost feasible with the goal to move people, create jobs and strengthen communities. To maintain and annually update and publish the List of Priority Projects (LOPP) in April 2021 and 2022. Conduct other long-range transportation planning efforts consistent with the LRTP, including transportation studies and the Efficient Transportation Decision Making process. Manage the MPOs Congestion Management Process including the collection and analysis of transportation and safety data. Additionally, as part of this task, an up-to-date inventory of planning data will be collected and maintained including, but not limited to land use, travel patterns, travel mode, transit ridership, socio-economic information and demographics for use in the MPO's Geographic Information System (GIS) and travel demand forecasting databases. The MPO's data collection and analysis efforts are directly linked to the development of the LRTP, Performance based project prioritization and Performance Measure monitoring and reporting.

Previous Work

Implemented and amended 2040 LRTP (Dec. 2015, Dec.2019). Adopted LOPP (2018, 2019), Amended LOPP (August 2017). LRTP Policy development. Incorporation of Federal and State Performance measures.

Task 4: Long Range Transportation Planning Activities for Fiscal Years 2021 and 2022

Description of Planning Work	Resulting Products	Completion Date

4. FUNDING SUMMARIES

4.1 FEDERAL METROPOLITAN PLANNING FUNDS AND SOFT MATCH

Federal funds authorized by Title 23 U.S.C. generally require a non-federal match at the ratio of 80 (federal) to 20 (local). However, this is subject to a sliding scale adjustment, which is a 1.93% additive for Florida, for a total federal share of 81.93%. Section 120 of Title 23, U.S.C., permits a state to use certain toll revenue expenditures as a credit toward the non-federal matching share of all programs authorized by Title 23, (with the exception of Emergency Relief Programs) and for transit programs authorized by Chapter 53 of Title 49, U.S.C. This is in essence a “soft-match” provision that allows the federal share to be increased up to 100% to the extent credits are available. The “soft match” amount being utilized to match the FHWA PL funding in the UPWP is 20% of FHWA program funds. The “soft match” amount being utilized to match the FHWA SU funding in the UPWP is 18.07% of FHWA program funds.

This soft match is not required to be programmed. It will not be shown in the budget tables throughout this UPWP; however, it should be known that the “soft match” amounts shown below are being utilized to match the FHWA funding in this UPWP.

UPWP Soft Match to Federal Funds

	FY 2020/21	FY 2021/22	Total
All FHWA Funds Soft Match	\$126,828	\$126,828	\$253,656

4.2 INDIRECT COST RATE

The MPO does not utilize an indirect cost rate.

APPENDIX A.
GLOSSARY OF ACRONMYS

(3-C) Continuing, Comprehensive, and Cooperative Planning Process: Transportation planning for the safe and efficient movement of people and goods consistent with the region's overall economic, social and environmental goals.

(ACES) Automated Connected Electric Shared-Use Vehicles ADA Americans with Disabilities Act of 1990: A Federal law that requires public facilities, including transportation services, to be accessible to persons with disabilities, including those with mental disabilities, temporary disabilities, and the conditions related to substance abuse.

(AMPO) Association of Metropolitan Planning Organizations: A national nonprofit membership organization serving the interests of metropolitan planning organizations nationwide.

(AQ) Air Quality: Generally, refers to the amount of air pollutants of various types in the air. The pollutants can include hydrocarbons (also called volatile organic compounds), nitrogen oxides, particulate matter, carbon monoxide, sulfur dioxide and so on.

(AV) Automated Vehicles: Automated vehicles are those in which at least some aspect of a safety-critical control function (e.g., steering, throttle, or braking) occurs without direct driver input. Automated vehicles may be autonomous (i.e., use only vehicle sensors) or may be connected.

(CAC) Citizens' Advisory Committee: Advisory committee utilized by most metropolitan planning organizations (MPOs) for citizen input into the transportation planning process.

(CCI) Community Characteristics Inventory: The history of a community with present and future conditions of an area. Includes physical characteristics of an area, narrative text that describes the community, tables or graphics that summarize data.

(CFMPOA) Central Florida MPO Alliance: A coalition of transportation and government organizations committed to addressing transportation challenges on a regional basis. The alliance is comprised of representatives from the Brevard MPO, the MetroPlan Orlando, the Volusia County TPO, the Polk TPO, the Ocala/Marion TPO, and the Lake~Sumter MPO.

(CFR) Code of Federal Regulations: The codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government.

(CFX) Central Florida Expressway Authority: The Central Florida Expressway Authority (CFX) was established in 2014 as the regional toll road authority with an expanded mandate to build and maintain a regional transportation network that connects Brevard, Lake, Orange, Osceola and Seminole counties. CFX is responsible for the construction, maintenance and operation of a limited-access expressway system.

(CMP) Congestion Management Process: A planning process required by Federal law, which is a systematic approach to managing new and existing transportation systems for relieving congestion and maximizing the safety and mobility of people and goods.

(CMS) Concurrency Management System: A systemic process required under ISTEA to provide information on transportation system performance and identify alternative strategies to mobility of persons and goods; process must be developed in Transportation Management Areas (TMAs), the use of CMS in non-TMAs is left to the discretion of state and local officials; in Florida, MPOs will take the lead for the CMS in urbanized areas and FDOT will take the lead elsewhere.

(COA) Comprehensive Operational Analysis: A method of examining the current performance of a transit system and measuring that performance against an established set of cost, schedule, and performance parameters.

(CR) County Road: A roadway that is operated and maintained by a local county government.

(CTCs) Community Transportation Coordinators: People contracted by the Transportation Disadvantaged Commission to provide complete, cost-effective and efficient transportation services to transportation disadvantaged (TD) persons.

(CTD) Commission for Transportation Disadvantaged: An independent commission housed administratively within the Florida Department of Transportation. Our mission is to insure the availability of efficient, cost-effective, and quality Transportation services for transportation disadvantaged persons.

(CV) Connected Vehicles: An emerging technology that equips vehicles with internet access, and usually also with a wireless local area network (LAN). Cars would typically use dedicated short-range (DSRC) radio signals to communicate with each other so every vehicle on the road would be aware of where other nearby vehicles are. Drivers can receive notifications and alerts of dangerous situations, such as someone about to run a red light as they're nearing an intersection or an oncoming car, out of sight beyond a curve, swerving into their lane to avoid an object on the road.

(DBE) Disadvantaged Business Enterprise: A legislatively mandated USDOT program that applies to Federal-aid highway dollars expended on federally-assisted contracts issued by USDOT recipients such as State Transportation Agencies. The U.S. Congress established the DBE program in 1982 to ensure nondiscrimination in the award and administration of DOT-assisted contracts and to help remove barriers to the participation of DBEs in DOT-assisted contracts.

(EA) Environmental Assessment: A document that must be submitted for approval by the U.S. Environmental Protection Agency and the U.S. Department of Transportation for transportation projects in which the significance of the environmental impact is not clearly established. An EA is required for all projects for which a Categorical Exclusion or Environmental Impact Statement is not applicable.

(ECFRPC) East Central Florida Regional Planning Council: provides regional planning service for Brevard, Seminole, Orange, Osceola, Volusia, and Lake Counties.

(EIS) Environmental Impact Statement: A document that explains the purpose and need for a project, presents project alternatives, analyzes the likely impact of each, explains the choice of a preferred alternative, and finally details measures to be taken in order to mitigate the impacts of the preferred alternative.

(EJ) Environmental Justice: A Federal Executive Order directed to all Federal departments and Federally funded agencies to take the appropriate steps to identify and address any disproportionately high and adverse human health or environmental effects of Federal programs, policies, and activities on minority and low-income populations.

(EPA) Environmental Protection Agency: Protects human health and the environment. Since 1970, EPA has been working for a cleaner, healthier environment for the American people.

(EDTM) Efficient Transportation Decision Making: Creates a linkage between land use, transportation and environmental resource planning initiatives through early, interactive agency and public involvement.

(FCEN) Florida Central Railroad: The Florida Central Railroad was established in 1986 and expanded in 1990 as part of the Pinsky Railroad Company. The FCEN operates 68 miles of track and directly serves industries in downtown Orlando, Apopka, Zellwood, Mt. Dora, Tavares, Eustis, Umatilla, Ocoee, and Winter Garden, Florida. All interchanges are made with CSXT in Orlando, Florida. The Florida Midland Railroad was acquired from CSXT in 1987.

(FHWA) Federal Highway Administration: Division of the U.S. Department of Transportation responsible for administering federal highway transportation programs.

(FAST Act) Fixing America's Surface Transportation Act: Provides long-term funding certainty for surface transportation infrastructure planning and investment.

(FDOT) Florida Department of Transportation: State agency responsible for transportation issues in Florida.

(FY) Fiscal Year: A budget year; runs from July 1 through June 30 for the State of Florida; and from October 1 through September 30 for the federal governments.

(F.S.) Florida Statutes: Documents in which Florida's laws are found.

(FTA) Federal Transit Administration: Federal entity responsible for transit planning and programs.

(GIS) Geographic Information Systems: A technology that integrates the collection, management and analysis of geographic data. This can be used to display the results of data queries as maps and analyze spatial distribution of data.

(ICAR) Intergovernmental Coordination and Review: The process for state and local review, coordination and comment on proposed federal financial assistance applications and project activities.

(ITS) Intelligent Transportation System: Use of computer and communications technology to facilitate the flow of information between travelers and system operators to improve mobility and transportation productivity, enhance safety, maximize the use of existing transportation facilities, conserve energy resources and reduce adverse environmental effects; includes concepts such as "freeway management systems," "automated fare collection" and "transit info kiosks".

(ISTEA) Intermodal Surface Transportation Efficiency Act of 1991: Federal law which restructured transportation planning and funding by requiring consideration of multimodal solutions, emphasis on the movement of people and goods as opposed to traditional highway investments, flexibility in the use of transportation funds, a greater role of MPOs, and a greater emphasis on public participation.

(JPA) Joint Participation Agreement: Legal instrument describing intergovernmental tasks to be accomplished and/or funds to be paid between government agencies.

(LEP) Limited English Proficiency: Persons are individuals who do not speak English as their primary language and who have a limited ability to read, speak, write, or understand English. LEP statutes and authorities prohibit exclusion from participation in, denial of benefits of, and discrimination under federally assisted and/or conducted programs on the ground of race, color, or national origin.

(LOPP) List of Priority Projects: Pursuant to s. 339.175(8), Florida Statutes, MPOs must annually adopt a list of transportation system priority projects and transmit the list to FDOT for use in developing the next draft Five-Year Work Program and Transportation Improvement Program (TIP).

(LRTP) Long Range Transportation Plan: A 20-year forecast plan required of state planning agencies and MPOs; must consider a wide range of social, environmental, energy and economic factors in determining overall regional goals and consider how transportation can best meet these goals discussion; created by law to assist the MPOs in carrying out the urbanized area transportation planning process.

(MAP-21) Moving Ahead for Progress in the 21st Century Act: MAP-21, is a funding and authorization bill to govern United States federal surface transportation spending. It was passed by Congress in 2012.

(MPO) Metropolitan Planning Organization: The forum for cooperative transportation decision-making; required for urbanized areas with populations over 50,000. 2018 Unified Planning Work Program 81

(MPOAC) Metropolitan Planning Organization Advisory Council: A statewide advisory council (consisting of one member from each MPO) that serves Florida's 25 MPOs as the principal forum for collective policy.

(NAAQS) National Ambient Air Quality Standards: The U.S. National Ambient Air Quality Standards are limits on atmospheric concentration of six pollutants that cause smog, acid rain, and other health hazards. Established by the United States Environmental Protection Agency (EPA) under authority of the Clean Air Act.

(NARC) National Association of Regional Councils: Serves as the national voice for regions by advocating for regional cooperation as the most effective way to address a variety of community planning and development opportunities and issues.

(NHS) National Highway System: The National Highway System is a network of strategic highways within the United States, including the Interstate Highway System and other roads serving major airports, ports, rail or truck terminals, railway stations, pipeline terminals and other strategic transport facilities.

(PD&E) Project Development and Environment Study: FDOT's name for a corridor study to establish conceptual design for a roadway and to determine its compliance with federal and state environmental laws and regulations, condition and cost of transit assets on a continual basis; data is to be used to help people choose cost effective strategies for providing and keeping transit facilities and Transportation Management Areas; the use of CMS in non-TMAs is left to the discretion of state and local officials.

(PE) Preliminary Engineering: is the location, design, and related work preparatory to the advancement of a project to physical construction.

(PEA) Planning Emphasis Area: Planning for the appropriate use of land within communities.

(PI) Public Involvement: The process by which public concerns, needs, and values are solicited and incorporated into decision-making.

(PL) Planning Funds: Federal Highway Administration planning funds, also called Section 112 funds.

(PIP) Public Involvement Plan: A written plan of public involvement strategies and activities for a specific transportation plan or project. The PIP provides a systematic approach to how the results and outcomes of public involvement activities are integrated into the decision-making process.

(RFP) Request for Proposals: A document advertising opportunities to submit bids for a particular purchase or service contract.

(ROW) Right-of-Way: Real property that is used for transportation purposes; defines the extent of the corridor that can be used for the road and associated drainage.

(SIS) Strategic Intermodal System: A transportation system comprised of facilities and 2018 Unified Planning Work Program 83 services for statewide and interregional significance, including appropriate components of all modes.

(SRTS) Safe Routes to School: Statewide effort to provide safe access to and from school for children.

(STIP) State Transportation Improvement Program: The FDOT five-year work program as prescribed by federal law.

(TAC) Technical Advisory Committee: A standing committee of most metropolitan organizations (MPOs); function is to provide advice on plans or actions of the MPO from planners, engineers and other staff members (not general citizens).

(TDSP) Transportation Disadvantaged: People who are unable to transport themselves or to purchase transportation due to disability, income status or age.

(TDCB) Transportation Disadvantaged Coordinating Board: This committee is responsible for defining transportation disadvantaged-related goals and objectives, preparing a service plan, and ensuring that the needs of the transportation disadvantaged citizens are being met.

(TDM) Transportation Demand Management: A transportation planning process that is aimed at relieving congestion on highways by the following types of actions: (1) actions that promote alternatives to automobile use; (2) actions that encourage more efficient use of alternative transport systems; and (3) actions that discourage automobile use.

(TDP) Transit Development Plan: An intermediate-range transit plan (usually five years) that examines service, markets, and funding to make specific recommendations for transit improvements.

(TDSP) Transportation Disadvantaged Service Plan: A tactical plan with Development, Service, Quality Assurance and Cost/Revenue Allocation and Rate Structure Justification components. The TDSP contains goals which the CTC plans to achieve, and the means by which they intend to achieve them.

(TMA) Transportation Management Area: A federal term for an urban area of over 200,000 population.

(TMA) Transportation Management Association: A membership organization designed to help a group of businesses, companies, and other interested parties implement a commute management program; some funding for these groups is available through the state Commuter Assistance Program (CAP).

(TMS) Transportation Management System: The implementation of traffic control measures, such as HOV lanes, signal timing adjustments, median closings, and access management strategies to increase the operating efficiency of the traffic circulation system. The LSMPO TMS includes traffic counts, tracking of approved developments and crash data resulting in a comprehensive database.

(TPO) Transportation Planning Organization: A synonym for a Metropolitan Planning Organization (MPO), responsible for transportation planning and is mandated by state and federal agencies.

(TRB) Transportation Research Board: A unit of the National Research Council whose purpose is to advance knowledge about transportation systems; publishes the Highway Capacity Manual.

(TIP) Transportation Improvement Program: A priority list of transportation projects developed by a metropolitan planning organization that is to be carried out within the five (5) year period following its adoption; must include documentation of federal and state funding sources for each project and be consistent with adopted MPO long range transportation plans and local government comprehensive plans. Federal regulations pertaining to statewide and metropolitan transportation Part 450 planning: (a) Sets forth the national policy that the MPO designated for each urbanized area is to carry out a continuing, cooperative, and comprehensive multimodal transportation planning process, including the development of a metropolitan transportation plan and a transportation

improvement program (TIP), that encourages and promotes the safe and efficient development, management, and operation of surface transportation systems to serve the mobility needs of people and freight (including accessible pedestrian walkways and bicycle transportation facilities) and foster economic growth and development, while minimizing transportation-related fuel consumption and air pollution; and (b) Encourages continued development and improvement of metropolitan transportation planning processes guided by the planning factors set forth in 23 U.S.C. 134(h) and 49 U.S.C. 5303(h).

(TRIP) Transportation Regional Incentive Program: TRIP was created to improve 2018 Unified Planning Work Program 85 regionally significant transportation facilities in "regional transportation areas". State funds are available throughout Florida to provide incentives for local governments and the private sector to help pay for critically needed projects that benefit regional travel and commerce. The Florida Department of Transportation (FDOT) will pay for 50 percent of project costs, or up to 50 percent of the nonfederal share of project costs for public transportation facility projects.

(TSM&O) Transportation Systems Management: Strategies to improve the efficiency of the transportation system through operational improvements such as the use of bus priority or reserved lanes, signalization, access management, turn restrictions, etc. by multiplying the number of vehicles by the hours traveled in a given area or on a given highway during the time period. In transit, it is calculated by multiplying the number of vehicles by the hours traveled on a given area or on a different route, line, or network during the time period.

(UA) Urbanized Area: The US Census Bureau defines an urbanized area as: "Core census block groups or blocks that have a population density of at least 1,000 people per square mile (386 per square kilometer) and surrounding census blocks that have an overall density of at least 500 people per square mile (193 per square kilometer)".

(UPWP) Unified Planning Work Program: Developed by Metropolitan Planning Organization (MPOs); identifies all transportation and transportation air quality tasks and activities anticipated within the next one to two years, including a schedule for the completion of the identified tasks and activities.

(USC) United States Code: The United States Code is the codification by subject matter of the general and permanent laws of the United States. It is divided by broad subjects into 50 titles and published by the Office of the Law Revision Counsel of the U.S. House of Representatives. Since 1926, the United States Code has been published every six years. In between editions, annual cumulative supplements are published in order to present the most current information.

(USDOT) United States Department of Transportation: Established by an act of Congress on October 15, 1966, the Department's first official day of operation was April 1, 1967. The mission of the Department is to: Serve the United States by ensuring a fast, safe, efficient, accessible and convenient transportation system that meets our vital national interests and enhances the quality of life of the American people, today and into the future

(VMS) Variable Message Sign: An electronic traffic sign often used on roadways to give travelers information about special events. Such signs warn of traffic congestion, accidents, incidents, roadwork zones, or speed limits on a

specific highway segment. They may also ask vehicles to take alternative routes, limit travel speed, warn of duration and location of the incidents or just inform of the traffic conditions. 2018 Unified Planning Work Program 86.

(V/C) Volume to Capacity: a measure that reflects mobility and quality of travel of a facility or a section of a facility. It compares roadway demand (vehicle volumes) with roadway supply (carrying capacity). For example, a V/C of 1.00 indicates the roadway facility is operating at its capacity. It is a common performance measure for MPOs and is widely used in TMS and transportation studies.

(VMT) Vehicle Miles Traveled: On highways, a measurement of the total miles traveled in a given area for a specified time period. It is calculated by multiplying the number of vehicles by the miles traveled in a given area or on a given highway during the time period. In transit, it is calculated by multiplying the number of vehicles by the miles traveled on a given area or on a different route, line, or network during the time period.

(WAGES) Work and Gain Economic Self Sufficiency: Florida's welfare to work program.

(WMD) Water Management District: Florida's Water Management Districts The districts administer flood protection programs and perform technical investigations into water resources. They also develop water management plans for water shortages in times of drought and acquire and manage lands for water management purposes.

RESOLUTION ADOPTING THE UPWP

LAKE~SUMTER METROPOLITAN PLANNING ORGANIZATION

RESOLUTION 2020 - 5

RESOLUTION OF THE LAKE~SUMTER METROPOLITAN PLANNING ORGANIZATION (MPO) ENDORSING THE UNIFIED PLANNING WORK PROGRAM FOR FISCAL YEAR 2020/21 THROUGH FISCAL YEAR 2021/22

WHEREAS, the Lake~Sumter Metropolitan Planning Organization has been designated by the Governor of the State of Florida as the body responsible for the urban transportation planning process for the Lake-Sumter Urban area; and

WHEREAS, Title 23 CFR Section 450.308(c) and Section 339.175(9), Florida Statutes require each Metropolitan Planning Organization to annually submit a Unified Planning Work Program; and

WHEREAS, a Unified Planning Work Program is defined as a statement of work identifying the planning priorities and activities to be carried out within a metropolitan planning area during the program years, and includes a planning budget; and

WHEREAS, the Lake~Sumter Metropolitan Planning Organization's FY 2020/21 through FY 2021/22 Unified Planning Work Program has been prepared in accordance with the Florida Department of Transportation Unified Planning Work Program Procedure and complies with applicable state and federal law.

NOW, THEREFORE BE IT RESOLVED that the Lake~Sumter Metropolitan Planning Organization hereby adopts the Unified Planning Work Program for FY 2020/21 through FY 2021/22.

DULY PASSED AND ADOPTED this 13 day of May, 2020.

Lake~Sumter Metropolitan Planning Organization

PAGE

(Required of all Applicants for federal assistance to be awarded by FTA in FY 2020)

AFFIRMATION OF APPLICANT

Name of the Applicant: Lake Sumter Metropolitan Planning Organization (MPO)

BY SIGNING BELOW, on behalf of the Applicant, I declare that it has duly authorized me to make these Certifications and Assurances and bind its compliance. Thus, it agrees to comply with all federal laws, regulations, and requirements, follow applicable federal guidance, and comply with the Certifications and Assurances as indicated on the foregoing page applicable to each application its Authorized Representative makes to the Federal Transit Administration (FTA) in federal fiscal year 2020, irrespective of whether the individual that acted on his or her Applicant's behalf continues to represent it.

FTA intends that the Certifications and Assurances the Applicant selects on the other side of this document should apply to each Award for which it now seeks, or may later seek federal assistance to be awarded during federal fiscal year 2020.

The Applicant affirms the truthfulness and accuracy of the Certifications and Assurances it has selected in the statements submitted with this document and any other submission made to FTA, and acknowledges that the Program Fraud Civil Remedies Act of 1986, 31 U.S.C. § 3801 *et seq.*, and implementing U.S. DOT regulations, "Program Fraud Civil Remedies," 49 CFR part 31, apply to any certification, assurance or submission made to FTA. The criminal provisions of 18 U.S.C. § 1001 apply to any certification, assurance, or submission made in connection with a federal public transportation program authorized by 49 U.S.C. chapter 53 or any other statute

In signing this document, I declare under penalties of perjury that the foregoing Certifications and Assurances, and any other statements made by me on behalf of the Applicant are true and accurate.

RE: Comments on the Draft Fiscal Year 2020/2021 and Fiscal Year 2021/2022 Unified Planning Work Program (UPWP) for the Lake-Sumter Metropolitan Planning Organization

Dear Mr. Woods:

Thank you for providing a draft copy of the Lake-Sumter Metropolitan Planning Organization's (MPO/TPO) Unified Planning Work Program (UPWP) for Fiscal Year 2020/2021 and Fiscal Year 2021/2022. The Florida Department of Transportation (FDOT) has reviewed the draft UPWP and offers the following comments.

In order to meet the schedule contained in the Florida Department of Transportation's MPO Program Management Handbook, and to be certain of receiving authorization to expend Fiscal Year 2020/2021 Planning Funds beginning on July 1, 2020, the Lake-Sumter MPO must revise and adopt the Final UPWP and submit it to the Florida Department of Transportation, 719 South Woodland Boulevard, DeLand, FL 32720 or via E-mail at Jamie.kersey@dot.state.fl.us and other appropriate agencies as specified in the MPO Program Management Handbook, no later than May 15, 2020.

Comments and/or Recommendations to the Draft UPWP:

- ❖ Cover Page: Financial Management Number is incorrect. The correct FM# should be 439339-3-14-01.
- ❖ Cover Page: The Draft UPWP has an Adoption date, this should be removed as the document has not been adopted yet.
- ❖ Content Page: Section 3 "Tasks Overview for FY 2020/21 – 2021/2022" needs to include the table titles and page numbers per instructions.
- ❖ Content Page: Section 4 should have a "4.3" to include the table titles and page numbers per instructions.

- ❖ On Pages 6 and 7: Section 1.2.2 Efficient Transportation Decision Making (ETDM) on page 7 is the same paragraph for Section 1.2.1 Long Range Transportation Plan on page 6 and does not discuss the ETDM process.
- ❖ On Page 9: Section 1.2.7, please add project limits on FDOT District Five Planning Studies. Upon looking in Work Program the fiscal years in Work Program are not the same as the fiscal years in the MPOs Table Figure 6. SR 50 PD&E shows completed in Work Program; we need to see what project the MPO is looking at.
- ❖ On Page 16: Section 1.3.4 Task 1 should have the entire Task name added; “Task 1: Administration & Management of Planning Process”
- ❖ On Page 16: Section 1.4.1, FDOT Soft Match, last sentence in paragraph states “soft match amounts *shown below* are being utilized to match the FHWA funds in the UPWP”, but there are no amounts being shown. May want to say, “soft match amounts shown in Section 4.1 are being utilized to match the FHWA funds in the UPWP.”
- ❖ On Page 24: Section 3, Task 1 should have the entire Task name added.
- ❖ Add page number In Section 3: Each Task does not show who will be performing the task at the MPO, they only show who is responsible.
- ❖ Appendix A: Glossary of Acronyms, there are acronyms in the document that are not listed, example CR, COA, MAP-21, NHS, PE, and RPC.

As always, I would like to extend my appreciation to the Lake-Sumter Metropolitan Planning Organization for their collaboration with FDOT to accomplish the transportation goals for the Lake-Sumter MPO area. If the Department can do anything to assist with the development of the UPWP, please do not hesitate to contact me at 386-943-5338.

Jamie Kersey

26	Other	Please note that any equipment purchases equal to or greater than \$5,000 must have prior review and approval from FHWA unless the UPWP contains sufficient detailed information for this review. Currently as drafted, this UPWP does not and will require this information to be submitted to FHWA for approval.
	Other	Please note that individual professional membership are unallowable and that all training/meeting/conference participation must be reasonable, necessary and allowable to the transportation planning process.
	Critical	Tasks that involve consultant participation should provide enough detail (such as project scope, work to be accomplished for each project, anticipated completion dates and project costs) about what the consultant responsibilities are concerning the activities to be undertaken using federal-aid funds. If that is not possible at this time, prior to the MPO's use of PL or SU funds for these types of planning projects or activities, the District should forward a copy of the scope of services, the anticipated cost and completion date to FHWA for review. It will continue to be the responsibility of the District and MPO to ensure that all activities undertaken as part of these tasks are eligible and are allowable costs.
	Critical	The total PL funding for this Draft does not match the amounts provided by FDOT-CO on 2/20/2020. The approval of the UPWP will require that only the PL balance provided by FDOT-CO. Anticipated PL funds cannot be included in the first or second year.
	Other	ADA requires than any posting of this UPWP as electronic information (web and otherwise) must be accessible to those with disabilities. Absent that, the MPO should have a plan for providing accessibility and advise the public of that plan and the remediation timeline.

	Critical	Please ensure the correct Federal Aid Project (FAP) number is used for the final UPWP.
37	Critical	Task 5.0 If the MPO will be contributing any federal funds to another MPO or entity for regional coordination work and end products, those funds and activities must be reflected in the all the participating MPOs' UPWPs consistently. Please coordinate with the District and FHWA to ensure the proper format to reflect these funds are being used, as some should be included in the total PL funds being requested and in other circumstances those funds should not be included. This includes the Central Florida MPO Alliance. Please also provide the FHWA with a copy of any Memorandum of Understandings (MOU) for these types of activities.

POLICY PLANNING
02/18

Pursuant to the requirements of 23 U.S.C. 134(k)(5) and 23 CFR 450.334(a), the Department and the MPO have performed a review of the certification status of the metropolitan transportation planning process for the Lake-Sumter MPO with respect to the requirements of:

1. 23 U.S.C. 134 and 49 U.S.C. 5303;
2. Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 C.F.R. Part 21
3. 49 U.S.C. 5332 prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;

Included in this certification package is a summary of noteworthy achievements by the MPO, attachments associated with these achievements, and (if applicable) a list of any recommendations and/or corrective actions. The contents of this Joint Certification Package have been reviewed by the MPO and accurately reflect the results of the joint certification review meeting held on February 24, 2020.

Based on a joint review and evaluation, the Florida Department of Transportation and the Lake-Sumter MPO recommend that the Metropolitan Planning Process for the Lake-Sumter MPO be certified.

Purpose

Each year, the District and the Metropolitan Planning Organization (MPO) must jointly certify the metropolitan transportation planning process as described in [23 C.F.R. §450.336](#). The joint certification begins in January. This allows time to incorporate recommended changes into the Draft Unified Planning Work Program (UPWP). The District and the MPO create a joint certification package that includes a summary of noteworthy achievements by the MPO and, if applicable, a list of any recommendations and/or corrective actions.

The Certification Package and statement must be submitted to Central Office, Office of Policy Planning (OPP) no later than June 1.

Certification Process

Please read and answer each question within this document.

Since all of Florida's MPOs adopt a new Transportation Improvement Program (TIP) annually, many of the questions related to the TIP adoption process have been removed from this certification, as these questions have been addressed during review of the draft TIP and after adoption of the final TIP.

As with the TIP, many of the questions related to the Unified Planning Work Program (UPWP) and Long-Range Transportation Plan (LRTP) have been removed from this certification document, as these questions are included in the process of reviewing and adopting the UPWP and LRTP.

Note: This certification has been designed as an entirely electronic document and includes interactive form fields. Part 1 Section 9: Attachments allows you to embed any attachments to the certification, including the MPO [Joint Certification Statements and Assurances](#) document that must accompany the completed certification report. Once all the appropriate parties sign the Statements and Assurances, scan it and attach it to the completed certification in Part 1 Section 9: Attachments.

Please note that the District shall report the identification of and provide status updates of any corrective action or other issues identified during certification directly to the MPO Board. Once the MPO has resolved the corrective action or issue to the satisfaction of the District, the District shall report the resolution of the corrective action or issue to the MPO Board.

The final Certification Package should include Part 1, Part 2, and any required attachments and be transmitted to Central Office no later than June 1 of each year.

Risk Assessment Process

Part 1 Section 1: Risk Assessment evaluates the requirements described in [2 CFR §200.331 \(b\)-\(e\)](#), also expressed below. It is important to note that FDOT is the recipient and the MPOs are the subrecipient, meaning that FDOT, as the recipient of Federal-aid funds for the State, is responsible for ensuring that Federal-aid funds are expended in accordance with applicable laws and regulations.

(b) Evaluate each subrecipient's risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward for purposes of determining the appropriate subrecipient monitoring described in paragraphs (d) and (e) of this section, which may include consideration of such factors as:

- (1) The subrecipient's prior experience with the same or similar subawards;*
- (2) The results of previous audits including whether the subrecipient receives a Single Audit in accordance with Subpart F—Audit Requirements of this part, and the extent to which the same or similar subaward has been audited as a major program;*
- (3) Whether the subrecipient has new personnel or new or substantially changed systems; and*
- (4) The extent and results of Federal awarding agency monitoring (e.g., if the subrecipient also receives Federal awards directly from a Federal awarding agency).*

(c) Consider imposing specific subaward conditions upon a subrecipient if appropriate as described in §200.207 Specific conditions.

(d) Monitor the activities of the subrecipient as necessary to ensure that the subaward is used for authorized purposes, in compliance with Federal statutes, regulations, and the terms and conditions of the subaward; and that subaward performance goals are achieved. Pass-through entity monitoring of the subrecipient must include:

- (1) Reviewing financial and performance reports required by the pass-through entity.*
- (2) Following-up and ensuring that the subrecipient takes timely and appropriate action on all deficiencies pertaining to the Federal award provided to the subrecipient from the pass-through entity detected through audits, on-site reviews, and other means.*

(3) Issuing a management decision for audit findings pertaining to the Federal award provided to the subrecipient from the pass-through entity as required by §200.521 Management decision.

(e) Depending upon the pass-through entity's assessment of risk posed by the subrecipient (as described in paragraph (b) of this section), the following monitoring tools may be useful for the pass-through entity to ensure proper accountability and compliance with program requirements and achievement of performance goals:

(1) Providing subrecipients with training and technical assistance on program-related matters; and

(2) Performing on-site reviews of the subrecipient's program operations;

(3) Arranging for agreed-upon-procedures engagements as described in §200.425 Audit services.

After coordination with the Office of Policy Planning, any of the considerations in 2 CFR §200.331 (b) may result in an MPO being assigned the High-risk level.

The questions in Part 1 Section 1: Risk Assessment are quantified and scored to assign a level of risk for each MPO, which will be updated annually during the joint certification process. The results of the Risk Assessment determine the minimum frequency by which the MPO's supporting documentation for their invoices is reviewed by FDOT MPO Liaisons for the upcoming year. The frequency of review is based on the level of risk in **Table 1**.

Table 1. Risk Assessment Scoring

Score	Risk Level	Frequency of Monitoring
> 85 percent	Low	Annual
68 to < 84 percent	Moderate	Bi-annual
52 to < 68 percent	Elevated	Tri-annual
< 52 percent	High	Quarterly

The Risk Assessment that is part of this joint certification has two main components – the Certification phase and the Monitoring phase – and involves regular reviewing, checking, and surveillance. The first step is to complete this Risk Assessment during the joint certification for the current year (*The red line in Figure 1*). The current year runs for a 12-month period from January 1 to December 31 of the same year (**Example: January 1, 2018 through December 31, 2018**). There is a 6-month period when the joint certification for the current year is reviewed before the Risk Assessment enters the Monitoring phase. The joint certification review runs from January 1 to June 30 (**Example: January 1, 2019 through June 30, 2019**). After the review has been completed, the Risk Assessment enters the Monitoring phase, where the MPO is monitored for a 12-month period (**Example: July 1, 2019 to June 30, 2020**). The entire Risk Assessment runs for a total of 30-months. However, there will always be an overlapping of previous year, current year, and future year Risk Assessments. **Figure 1** shows the timeline of Risk Assessment phases and how Risk Assessments can overlap from year to year.

MPO Invoice Review Checklist

List all MPO Invoice Review Checklists that were completed in the certification period in **Table 3** and attach the checklists to this risk assessment. Identify the total number of materially significant finding questions that were correct on each MPO Invoice Review Checklist (i.e. checked yes). The MPO Invoice Review Checklist identifies questions that are considered materially significant with a red asterisk. Examples of materially significant findings include:

- Submitting unallowable, unreasonable or unnecessary expenses or corrections that affect the total amounts for paying out.
- Exceeding allocation or task budget.
- Submitting an invoice that is not reflected in the UPWP.
- Submitting an invoice that is out of the project scope.

- Submitting an invoice that is outside of the agreement period.
- Documenting budget status incorrectly.

Corrections or findings that are not considered materially significant do not warrant elevation of MPO risk. Examples of corrections or findings that are not considered materially significant include:

- Typos.
- Incorrect budgeted amount because an amendment was not recorded.
- Incorrect invoice number.

Identify the total number of materially significant finding questions that were correct on each MPO Supporting Documentation Review Checklist (i.e. checked yes). The MPO Supporting Documentation Review Checklist identifies questions that are considered materially significant with a red asterisk. Examples of materially significant findings include:

- Submitting an invoice with charges that are not on the Itemized Expenditure Detail Report.
- Submitting an invoice with an expense that is not allowable.
- Failing to submit supporting documentation, such as documentation that shows the invoice was paid.
- Submitting travel charges that do not comply with the MPO's travel policy.

Once the MPO has resolved the corrective action or issue to the satisfaction of the District, the District shall report the resolution of the corrective action or issue to the MPO Board.

Status of Recommendations and/or Corrective Actions from Prior Certifications

- Recommendation was made in the 2019 Joint Certification for the LSMPO to develop a Congestion Management Process (CMP) and to add this language into their TIP and LRTP. LSMPO adopted their CMP at their December 2019 Board Meeting.

Recommendations

A recommendation was made in the previous certification to update the MPO's website. LSMPO has updated their website, however, there are still missing documents that are required to be visible per the MPO's own Public Participation Plan. Any amendments that are made to the LRTP and TIP, once the amendments are "final", those documents are to be uploaded to the MPO's website. The MPO's UPWP is the only document that has all amendments and/or modifications posted to their website.

It is recommended that the Lake-Sumter MPO follow their own Public Participation Plan and update their website with any and all amendments. This will also put them in compliance with State and Federal Regulations by making public information available to the maximum extent practicable.

Risk Assessment Calculation Sheet**

The Risk Assessment evaluates the requirements described in 2 CFR §200.331 (b)-(e). As the recipient of Federal-aid funds for the State, FDOT is responsible for ensuring that Federal-aid funds are expended in accordance with applicable laws and regulations. This worksheet accompanies the Risk Assessment and calculates the MPO's risk score. The risk score determines the minimum frequency by which the MPO's supporting documentation for their invoices is reviewed by the FDOT MPO Liaisons for the upcoming year. Use the directions below to complete this worksheet and calculate the MPO's risk score. Enter information into GREEN cells only. Print and attach this worksheet to the Risk Assessment.

MPO FHWA Funds Invoice Supporting Documentation Review Checklist

The MPO's Supporting Documentation Review is to be completed at the frequency required by the MPO's Risk Assessment, as a part of the Annual MPO Joint Certification Process. The checklist should be completed and saved with invoice documentation, uploaded to the SharePoint Site for tracking by Central Office, and forwarded to MPO for their records.

Please note: Below you will be required to identify any comments, recommendations, or findings. Comments and recommendations are at the discretion of the District, but findings must be supported by documentation, and identify corrections that must be made for the MPO to be reimbursed. Findings factor into the MPOs level of risk, determined by the Risk Assessment in the Annual Joint Certification.

General Comments and Recommendations

FDOT has conducted our monitoring review in accordance with 2 CFR §200.331. The purpose of this monitor review is to determine the minimum frequency of which the MPO's supporting documentation for their invoices are reviewed by FDOT District Liaisons each year. This review uses a point scale to assign a level of risk for the MPO, which will be updated annually through the Joint Certification process. The results of this monitoring review show a Low risk level for the Lake~Sumter Metropolitan Transportation Planning Organization. The Department has determined that the invoice reviewed is in compliance with the Federal Highway Administration and FDOT's purchasing policies and invoice requirements as well as the MPO's invoice policy and procedures.

General Findings

FDOT finds that the Lake~Sumter MPO has a well-established process for invoicing the Department for their federal funding. During the review, we found that the MPO had sufficient control over their records and accounting processes. We found no noted deficiencies in policies or procedures or proof of backup documentation. Records were well organized and easy to reference. We found The MPO to be in compliance with their Unified Planning Work Program agreement terms with processing invoices.

Executive Director
Lake-Sumter Metropolitan Planning Organization
225 Guava Street, Suite 211
Lady Lake, FL 32159

Dear Mr. Woods:

RE: Lake-Sumter Metropolitan Planning Organization Final Transportation Improvement Program
Fiscal Years 2019/2020 to Fiscal Years 2019/2024

The purpose for this letter is to request the Lake-Sumter Metropolitan Planning Organization (MPO) amend their adopted Transportation Improvement Program (TIP) for Fiscal Years 2019/2020 to Fiscal Year 2023/2024. This amendment is a routine, annual process to reconcile the differences between the MPO's TIP and the Florida Department of Transportation's (FDOT) Adopted Five Year Work Program. The appropriate pages from the FDOT Adopted Five Year Work Program are included indicating the changes.

Please note the Federal Highway Administration and Federal Transit Administration do not recognize the Fiscal Year 2019/2020 to Fiscal Year 2023/2024 TIP effective until October 1, 2019 since the federal fiscal year does not start until October 1, 2019. Please contact me if you have any questions at (386-943-5338).

TIP PAGE #	FM #	AMEND TO ADD, DELETE, OR CHANGE AMOUNT
All		Non-capacity project descriptions (e.g., TSMO, bike/pedestrian, trail, sidewalks, aviation, bridge, etc.) should reference the specific Long Range Transportation Plan (LRTP) Goals and Objectives detailed on Page 12 in the most recent LRTP per F.S. 339.175 (8) (c) (5); 23 CFR 450.326 (i); and, MPO Handbook Chapter 4, Sections 4.1, 4.4 and 4.5 and Chapter 5, Section 5.7.3.
122	429556-1	Add additional Right-of-Way and Construction funding as shown on Page 24 of the Work Program Report for District-wide projects.
140	425458-1	The TIP page indicates the project name as MOA W/ Tavares, however, the Work Program TIP Download data dump lists the project name as MOA W/ Fruitland Park as shown on Page 7 of the Work Program Report.
162	435893-1	Review the TIP data dump previously given to the MPO to develop TIP funding amounts because there are discrepancies between the fiscal year dollar figures indicated on the TIP page and the current Work Program.

The project limits do not match the Work Program on Page 6.

Jamie Kersey

TRANSPORTATION IMPROVEMENT PROGRAM (TIP) REVIEW CHECKLIST

The following TIP Review Checklist is provided to assist in the review of the TIP. This checklist should be completed and included in the TIP submittal package to OPP. Comments should be categorized as:

Editorial: Comments may be addressed by MPO, but would not affect approval of the document, i.e., grammatical, spelling and other related errors.

Enhancement: Comments may be addressed by MPO, but would not affect approval of the document, i.e., improve the quality of the document and the understanding for the public (improving graphics, re-packaging of the document, use of plain language, reformatting for clarity, removing redundant language).

Critical: Comment MUST be addressed to meet minimum state and federal requirements to obtain approval. The reviewer must clearly identify the applicable state or federal policies, regulations, guidance, procedures or statutes that the document does not conform with.

Purpose

Each year, the District and the MPO must jointly certify the metropolitan transportation planning process as described in [23 C.F.R. §450.336](#). The joint certification begins in January. This allows time to incorporate recommended changes into the Draft Unified Planning Work Program (UPWP). The District and the MPO create a joint certification package that includes a summary of noteworthy achievements by the MPO and, if applicable, a list of any recommendations and/or corrective actions.

The certification package and statement must be submitted to Central Office, Office of Policy Planning (OPP) no later than June 1.

Certification Process

Please read and answer each question using the checkboxes to provide a “yes” or “no.” Below each set of checkboxes is a box where an explanation for each answer is to be inserted. The explanation given must be in adequate detail to explain the question.

FDOT's [MPO Joint Certification Statements and Assurances](#) document must accompany the completed Certification report. Please use the electronic form fields to fill out the Statements and Assurances document. Once all the appropriate parties sign the Statements and Assurances, scan it and email it with this completed Certification Document to your District MPO Liaison.

Please note that the District shall report the identification of, and provide status updates of any corrective action or other issues identified during certification directly to the MPO Board. Once the MPO has resolved the corrective action or issue to the satisfaction of the District, the District shall report the resolution of the corrective action or issue to the MPO Board.

Part 2

Part 2 of the Joint Certification is to be completed by the MPO.

Part 2 Section 1: MPO Overview

1. Does the MPO have up-to-date agreements such as the interlocal agreement that creates the MPO, the intergovernmental coordination and review agreement; and any other applicable agreements? Please list all agreements and dates that they need to be readopted.

Please Check: Yes No

The MPO Agreement was adopted on May 29, 2018, amended on August 30, 2018 and July 15, 2019, and will need to be readopted by June 30, 2020. The Interlocal Agreement for the Creation of the MPO was updated and readopted on October 28, 2015, and will be due for review in 2020. The ICAR was adopted on August 26, 2015, and will need readopted in 2020. The Public Transportation Grant Agreement was adopted on July 31, 2019, and will need to be renewed in 2021. The Long Range Transportation Plan was adopted on December 9, 2015, and the 2045 LRTP will be adopted on Dec. 9, 2020.

2. Does the MPO coordinate the planning of projects that cross MPO boundaries with the other MPO(s)?

Please Check: Yes No

The MPO participates in regional planning as a member of the Central Florida MPO Alliance, which meets quarterly. They are also involved in the MPO Advisory Council, which met four times in 2019. The MPO also coordinates with neighboring MPOs such as MetroPlan Orlando and Ocala/Marion County TPO on locally and regionally significant projects.

3. How does the MPOs planning process consider the 10 Planning Factors?

Please Check: Yes No

The MPO's UPWP contains the 10 Planning Factors (page 4), and the tasks in the UPWP address the planning factors.

4. How are the transportation plans and programs of the MPO based on a continuing, comprehensive, and cooperative process?

Please Check: Yes No

The transportation planning projects developed by the MPO respond to the metropolitan planning requirements in the Federal reauthorization act entitled: Fixing America's Surface Transportation (FAST Act). The FAST Act continues the Metropolitan Planning program that establishes a cooperative, continuous, and comprehensive framework for making transportation investment decisions in metropolitan areas. Program oversight is a joint FDOT/Federal Highway Administration/Federal Transit Administration responsibility. Decisions about how to spend transportation funds in the Lake~Sumter metropolitan planning area are guided by information and ideas from a broad group of people, including elected officials, county and municipal planners and engineers, transportation

advocates, other advocates, and other interested persons. The 3C transportation-planning process in the Lake~Sumter MPO Planning area has established the following objectives for the process:

- Identify transportation problems and develop possible solutions
- Balance short- and long-range considerations so that beneficial, incremental actions adequately reflect an understanding of probable future consequences and possible future options
- Represent both regional and local considerations as well as both transportation and non-transportation objectives and impacts when analyzing project issues
- Assist agencies responsible for implementing projects in effecting timely policy and project decisions with adequate consideration of environmental, land-use, social, fiscal, and economic impacts, and with adequate opportunity for participation by other agencies, local governments, and members of the public
- Help implementing agencies to prioritize transportation activities in a manner consistent with the region's needs and resources
- Comply with the requirements of Fixing America's Surface Transportation Act (FAST Act); Americans with Disabilities Act (ADA); Clean Air Act; Title VI of the Civil Rights Act of 1964; Executive Order 12898: Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations; Executive Order 13330: Human Services Transportation Coordination; and 1 1-2 Transportation Improvement Program Executive Order 13166: Improving Access to Services for Persons With Limited English Proficiency. All of the MPO documents address the 3C planning process in the narrative of the document.

5. When was the MPOs Congestion Management Process last updated?

Please Check: Yes No N/A

The Congestion Management Process (CMP) in the Lake~Sumter MPO Planning Area is currently being developed to meet required statutory requirements. The final approval for the CMP will occur at the June 2020 MPO Governing Board meeting.

6. Has the MPO recently reviewed and/or updated its Public Participation Plan? If so, when?

Please Check: Yes No

The PIP is currently under review. The PIP was last updated in April 2018. The Public Hearing for the PIP, Title VI, LEP and DBE Plans will open at the April 2020 MPO Governing Board meeting and close at the June 2020 MPO Governing Board meeting.

7. Was the Public Participation Plan made available for public review for at least 45 days before adoption?

Please Check: Yes No

The Lake~Sumter MPO's Public Involvement Plan (PIP) was last reviewed and adopted on April 25, 2018. The draft PIP was presented for draft approval and opening of the public review period at the February 28, 2018 MPO Governing Board meeting

8. Does the MPO utilize one of the methods of procurement identified in [2 C.F.R. 200.320 \(a-f\)](#)?

Please Check: Yes No

Yes. The MPO utilizes Procurement by competitive proposals. The technique of competitive proposals is conducted with more than one source submitting an offer, and either a fixed price or cost-reimbursement type contract is awarded. Lake County Procurement handles all of the MPO's procurement.

9. Does the MPO maintain sufficient records to detail the history of procurement? These records will include, but are not limited to: rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price.

Note: this documentation is required by 2 C.F.R. 200.324 (a) to be available upon request by the Federal awarding agency, or pass-through entity when deemed necessary.

Please Check: Yes No

Yes the MPO maintains all records pertaining to the procurement process. The Lake-Sumter MPO contracts with the Lake County Procurement Department for all procurement activities. Basic Procurement Policy Statements: 1. The County procurement process shall provide for equal access and opportunity to all vendors without regard to factors unrelated to quality, cost, and availability of goods and services, or previous vendor performance. Arbitrary action under any purchase in any regard by any party subject to this procedure is specifically prohibited. 2. That procurement actions are conducted on the basis of full and open competition to the greatest degree possible, with award being made to: a. The low responsive responsible bidder under Invitations to Bid. b. The best value proposer under Requests for Proposals that involve pricing as a competitive selection factor. c. The highest ranked technical proposer(s) with which a fair and reasonable price was subsequently negotiated under solicitations that do not involve pricing as an initial competitive selection factor. 3. That all specifications or statements of work included in County procurement actions accurately describe the essential needs of the County, and contain no artificial or arbitrary requirements that limit competition or increase cost. 4. That each procurement action is conducted in accordance with the best interests of the County, and with the highest level of integrity and fairness to all involved parties throughout the acquisition cycle. 5. That all County procurement operations be conducted in full compliance with all established state and local statutes and regulations regarding ethical standards to be maintained within the purchasing function.

10. Does the MPO have any intergovernmental or inter-agency agreements in place for procurement or use of goods or services?

Please Check: Yes No

The MPO's Staff Services Agreement with Lake County includes procurement services by the County (page 4). The Agreement was executed in May 2018 and will expire in 2020. The 2020 Staff Services agreement will be on the February 26, 2020 MPO Governing Board agenda for review and approval.

11. What methods or systems does the MPO have in place to maintain oversight to ensure that consultants or contractors are performing work in accordance with the terms, conditions and specifications of their contracts or work orders?

Part 2 Section 5: Noteworthy Practices & Achievements

One purpose of the certification process is to identify improvements in the metropolitan transportation planning process through recognition and sharing of noteworthy practices. Please provide a list of the MPOs noteworthy practices and achievements below.

1. During the 2019 update to the MPO List of Priority Projects, a TOP 5 and TOP 20 list of projects, from our Priorities Projects Tables was developed to better communicate with FDOT as to the MPO's top funding priorities for the next funding cycle. 2. The MPO developed its first true Congestion Management Process during 2019 due for final adoption June 2020. The MPO continues to improve its financial management and report process and procedures to comply with all Federal and State guidelines.

Part 2 Section 6: MPO Comments

The MPO may use this space to make any additional comments, if they desire. This section is not mandatory, and its use is at the discretion of the MPO.

The Lake~Sumter MPO enjoys an open and honest relationship with our District Five Staff. The MPO staff appreciates the assistance and support we receive on a daily basis working through compliance and regulatory issues as needed.
