LAKE~SUMTER METROPOLITAN PLANNING ORGANIZATION

RESOLUTION 2023-7

**RESOLUTION OF THE LAKE~SUMTER METROPOLITAN PLANNING ORGANIZATION ADOPTING THE FYs 2024– 2028 TRANSPORTATION IMPROVEMENT PROGRAM (TIP) TO INCLUDE PROJECTS IN THE FLORIDA DEPARTMENT OF TRANSPORTATION WORK PROGRAM FOR FISCAL YEARS 2024 THROUGH 2028**

**WHEREAS**, the Lake~Sumter Metropolitan Planning Organization (MPO) is the duly designated and constituted body responsible for carrying out the urban transportation planning and programming process for the Lake-Sumter MPO Planning Area; and

**WHEREAS**, Section 339.175, Florida Statutes; 23 USC. Section 134; and Title 49 USC require that the urbanized area, as a condition to the receipt of federal capital or operating assistance, must have a continuing, cooperative, and comprehensive transportation planning process that results in plans and programs consistent with the comprehensively planned development of the urbanized area; and

**WHEREAS**, 23 USC. Section 134(j) and Section 339.175(8), Florida Statutes, require the Lake~Sumter MPO to formulate a Transportation Improvement Program (TIP), defined by 23 CFR Section 450.104 as a prioritized listing/program of transportation projects that are developed and formally adopted by an MPO as part of the metropolitan transportation planning process; and

**WHEREAS**, Section 339.175(8), Florida Statutes, requires that the TIP include projects and project phases to be funded with state or federal funds that are recommended for advancement during the next fiscal year and four subsequent fiscal years; and

**WHEREAS**, the Lake~Sumter MPO is adopting the FY 2024 - 2028 TIP also to include projects that were not completed or that were not committed in the previous state fiscal year and that, under federal regulations, must be included in the Lake~Sumter MPO FYs 2023/24-2027/28 adopted TIP for consistency with the FDOT Work Program and the State Transportation Improvement Plan (STIP).

**NOW, THEREFORE, BE IT RESOLVED** by the Lake~Sumter MPO that:

1. The FY 2024 – 2028 TIP is hereby endorsed and adopted (Exhibit A); and
2. The FY 2024 – 2028 TIP includes projects in the FDOT FY 2024–2028 Work Program: and
3. Federally-aided projects listed in the FY 2024 – 2028 TIP will be initiated within the MPO Area; and

4. The Chair of the Lake~Sumter MPO is hereby authorized and directed to submit the FY 2024 – 2028 TIP to the following:

- a. Federal Highway Administration (FHWA) through the Florida Department of Transportation (FDOT).
- b. Federal Transit Administration (FTA) through FDOT.
- c. Federal Aviation Administration (FAA).
- d. Bureau of Community Planning, Division of Community Development, Florida Department of Economic Opportunity (DEO); and
- e. Members of the Florida Legislature representing the Lake~Sumter MPO.

PASSED AND ADOPTED this 21 day of June, 2023.

Lake~Sumter Metropolitan Planning Organization

Craig Estep, Chair

Approved as to Form and Legality:

  
\_\_\_\_\_  
Rachel Bartolowits, MPO Attorney

Roll Forward Resolution Placeholder

# Introduction

A Metropolitan Planning Organization (MPO) is an agency created by federal law to provide local input for urban transportation planning and allocation of federal transportation funds.

In 1974, the U.S. Congress amended the Federal Aid Highway Act, which mandated that all urbanized areas having a population of 50,000 or more designate a single agency to administer federal transportation funds. The agencies that were established were called Metropolitan Planning Organizations. These organizations were to provide a transportation planning process for local, state, and federal officials. Today, there are more than 300 MPOs across the country and 27 MPOs in Florida- including the Lake-Sumter MPO.

Transportation planning is vital for a region to grow sustainably. How easily a citizen can travel to work, school, the shopping mall, or the hospital affects their safety and quality of life. The mission of an MPO is to provide comprehensive, coordinated, and continuous transportation planning for the safe and efficient movement of people and goods consistent with the region's overall economic, social, and environmental goals.

MPOs place special emphasis on providing access to a variety of transportation choices and promoting effective public involvement in the planning process. The Lake-Sumter MPO works together with its transportation partners, including the public, to enhance the intermodal mobility of the community by developing a comprehensive Long Range Transportation Plan (LRTP) that supports the mobility needs and economic development of the community. MPOs are established by state and federal laws and through interlocal agreements to provide

a process for local governments within a non-Transportation Management Area (TMA) to coordinate with the Florida Department of Transportation (FDOT), the Federal Highway Administration (FHWA), and the Federal Transit Administration (FTA).

The MPO develops the Transportation Improvement Program (TIP) annually in accordance with state and federal requirements and the FDOT MPO Program Management Handbook. According to the dates, processes, and agencies described in the handbook, the TIP is submitted to federal and state review agencies.

### **About Your MPO**

The Lake-Sumter MPO was established on February 25, 2004, after the 2000 U.S. Census determined the urbanized areas around Leesburg, Eustis, and Lady Lake had exceeded a population of 50,000.

The Lake-Sumter MPO is the regional transportation planning entity within Lake and Sumter Counties, including the Orlando Urbanized Area, the Leesburg/Eustis Urbanized Area, and the Lady Lake/Villages Urbanized Area (UZA). The Lake-Sumter MPO seeks to improve transportation in both counties for all modes of travel, including mass transit, walking, bicycling, rail, air, as well as the automobile. The MPO prioritizes capital improvements to address the counties' travel needs and allocates federal funding to implement the projects as identified in the LRTP and the TIP.

The Lake-Sumter MPO Board is tasked with effectively identifying the public's transportation needs. The Board consists of elected officials representing all of the local governments in the region, including municipal and county

entities. The Lake-Sumter MPO Governing Board meetings and its advisory committees are all open to the public and provide opportunities for public comments. In addition, public hearings are held during the development of the LRTP to allow private citizens to provide input on the Plan before the Lake-Sumter MPO Governing Board approves it. Regarding public involvement related to the TIP, the TIP is reviewed and approved by the Community Advisory Committee (CAC), the Technical Advisory Committee (TAC), and the Lake-Sumter MPO Governing Board. The Draft TIP Fiscal Year (FY) 2024-2028 was posted to the MPO website after the April 13, 2023, MPO Committee meetings for public review. The formal public review period will begin on May 31, 2023, and close on June 21, 2023, at the MPO Governing Board meeting. The TIP is also made available on the MPOs website. This process meets the public hearing requirements of 49 U.S.C. Section 5307(c), the public notice of public involvement activities and the time established for public review and comment per the Federal Transit Administration’s Urbanized Area Formula Program.

In addition, FDOT presents the Five-Year Work Program at a public hearing before the Work Program is adopted. The Lake-Sumter MPO’s planning area also includes federal lands. The federal land management agencies are included in the stakeholder’s email list to review the DRAFT TIP as per 23 CFR 450.316(d) before final approval of the TIP.

### **Mission & Vision**

The mission of the Lake-Sumter Metropolitan Planning Organization is to provide local governments, agencies and residents of Lake and Sumter counties a forum for addressing growth and transportation issues, with an emphasis on:

- Planning a regional, multi-modal transportation network that balances accessibility and mobility;
- Incorporating the visions of the member governments into a cohesive regional approach; and
- Coordinating with regional partners and state and federal agencies to meet the needs of the public.

Figure 1 | Lake and Sumter County

Figure 2 | Lake-Sumter MPO Organizational Chart

## ORGANIZATIONAL CHART CITIZENS OF LAKE AND SUMTER COUNTIES

## Governing Board

The Lake-Sumter MPO Governing Board consists of 29 board members (16 voting and 13 non-voting) representing the communities of the Lake-Sumter region. Each member government appoints elected representation to the MPO Governing Board, along with an alternate representative.<sup>1</sup>

The apportionment of membership on the Lake-Sumter MPO Governing Board includes one voting representative from each of the seven most populated cities in Lake County, including Clermont, Eustis, Lady Lake, Leesburg, Minneola, Mount Dora, and Tavares. The seven least populated cities of Lake County (Astatula, Groveland, Fruitland Park, Mascotte, Montverde, Umatilla, Howey-in-the-Hills), share one at-large vote that rotates alphabetically each year. An at-large representative voting position rotates annually among the five Sumter County municipalities of Bushnell, Center Hill, Coleman, Webster, and Wildwood. In addition, the five members of the Lake County Board of County Commissioners and two designated County Commissioners from the Sumter County Board of County Commissioners are each voting members. Ex-officio board members from Lake County Schools, Sumter District Schools and the Florida Central Railroad round out the membership of the Lake-Sumter MPO Governing Board.

The MPO Governing Board typically meets on the fourth Wednesday of every month and all meetings are open to the public. Regular meeting dates and times may be changed by action of the MPO to accommodate holidays or other reasons. Therefore, please consult the calendar<sup>2</sup> to verify meeting dates and times.

### Executive Committee

The Executive Committee is comprised of the following board members: Chairman, Chairman-Elect, 1st Vice Chairman/ Treasurer, 2nd Vice Chairman, Immediate Past Chairman, and an At-Large Representative. To provide balanced representation on the Executive Committee among counties and municipalities, the MPO Board at the time of the election of officers shall attempt to fill, if feasible, officer positions by rotating between municipal and county representatives as officers are advanced, when feasible, to the next level of elected office.

Table 4 | Executive Committee Members

Cal Rolfson- Chair Elect
Doug Shields- 1st Vice Chair
Sandy Gamble - 2nd Vice Chair
Leslie Campione - Past Chair
Lance Lowery - Sumter County At-Large Representative
Joe Wynkoop - Lake County At-Large Representative

### Advisory Committees

Lake-Sumter MPO has a Community Advisory Committee (CAC) that meets regularly. The members of the CAC are private citizens with interest in the transportation issues affecting the area. These individuals receive information on transportation issues from the Lake-Sumter MPO staff and other agencies and provide input to the local governing bodies

regarding these issues. The CAC assists the Lake-Sumter MPO Governing Board to develop transportation-related goals and objectives to shape the urban environment and conduct public information programs.

Lake-Sumter MPO also has a Technical Advisory Committee (TAC) which is comprised of planners and engineers from the various local governments comprising the MPO. The input provided by the TAC is of a very technical nature and may include technical design recommendations and verification that all documents conform to the appropriate standards.

The Lake-Sumter MPO also supports planning for the transportation disadvantaged with funds from the Florida State Commission for the Transportation Disadvantaged. The two Transportation Disadvantaged Coordinating Boards (TDCB), Lake County TDCB and Sumter County TDCB serve in an advisory capacity to the Lake-Sumter MPO. The TDCB focuses on compliance with state requirements and ensuring that public transportation is accessible to everyone, including the transportation disadvantaged. TDCB membership is composed of several representatives such as health and human services agencies, the elderly and disabled citizens, and the private transportation industry and is established pursuant to Rule 41- 2.012(3), Florida Administrative Code (FAC).

## Federal Requirements

The public involvement process requirements are documented in 23 CFR450, Section 450.316. These requirements encourage a proactive public involvement process and support early and continuing involvement of the public in the planning process.

Title 23 Code of Federal Regulations, Section 450.316(b) (1), the Metropolitan Transportation Planning Process, sets forth the requirements for the public involvement process in conjunction with all aspects of transportation planning. The regulation states that the public involvement process shall provide “complete information, timely public notice, full public access to key decisions, and support early and continuing public involvement in developing plans and the major planning documents” produced by MPO. MPO’s public participation and development of the TIP satisfies the federal public participation requirements for developing the Federal Transit Authority, Program of Projects.

### Process

The MPO public participation process provides the public with many opportunities to comment on transportation plans and programs. The process includes, but is not limited to, the following:

- Twenty-one (21) day comment period on the adoption of the TIP.
- Regional Transportation Forum on key issues.
- Regional Transportation Summit to gain stakeholder input.
- Public meetings on specific transportation projects.
- MPO website: [www.LakeSumterMPO.com](http://www.LakeSumterMPO.com).
- MPO social media page and feeds.
- MPO Board and committee meetings (TAC, CAC).

- Transportation Disadvantaged Coordinating Boards (Lake & Sumter counties).
- Task Force meetings (North Lake, East Lake, South Lake, & Public Transportation).
- Efficient Transportation Decision Making (ETDM) Process.
- Presentations to other governmental bodies (counties and municipalities).
- Presentations to civic and community groups and organizations.

### Interagency Cooperation and Support

The MPO actively assists local governments and transportation agencies in developing and implementing public participation techniques for transportation planning and other related studies. For example, in the LRTP and TIP development processes, MPO will assist Lake County Public Transportation with their Federal Transit Administration (FTA) requirement for Section 5307 Program of Projects public involvement by including the following statement in advertisements and other collateral materials as appropriate:

“The MPO’s LRTP/TIP development process is being used to satisfy the public comment period requirements of FTA’s Section 5307 program. This public notice of public involvement activities and the time established for public review and comment on the LRTP/TIP will satisfy the FTA Program of Projects requirements.”

### Public Involvement and Outreach

Annually, the Lake-Sumter MPO develops its TIP in accordance with all applicable state and federal laws governing public involvement. This includes 23 CFR 450.316 and 23 CFR 450.324(b). Specific procedures for the use of public involvement in the annual development of the TIP have been

clearly defined in the MPO's adopted Public Participation Plan (PPP). Before adopting the final TIP, the Lake-Sumter MPO sought public comment on the Draft TIP by making the document available on their website (LakeSumterMPO.com). In addition, all Lake-Sumter MPO meetings are held in accordance with Florida's open meetings law (the Sunshine Law), and an opportunity is provided for public comment. The Draft TIP was on the agenda of the June 2023 Lake-Sumter MPO Governing Board meeting for review and approval.

As required by federal law, a formal public comment period is held before Board adoption, providing a structured process for public input. The official public comment period for TIP follows the same timeline as the advisory committee review, with a Draft document available at least twenty-one (21) days before Board action. The deadline to submit a comment is included in legal advertisements and notification associated with the public comment period. This deadline is generally seven (7) days before the date Board action is scheduled.

Public notification for the public comment period takes many forms. Public comment period notices are also sent to MPO's community database. Additionally, Draft plan documents are available on MPO's website and in print at locations throughout the region upon request at least seven (7) days before the public hearing.

As part of participatory and outreach process, Lake-Sumter MPO has developed an Interactive TIP Tool (LSMPO TIP APP). This tool provides citizens with easy access to TIP project information by providing project location maps, detailed financial information, and project phases. This tool can be accessed from any computer, tablet, or smartphone. This tool provides the Lake-Sumter MPO with a great opportunity to

enhance public outreach capabilities as well as increasing the public's awareness about the projects being funded.

#### *Public Comments*

All comments received during the Draft LOPP/TIP development process were submitted by the MPO committee and Board members during regular committee and Board advertised meetings. Any written record of comments from committee and/or Board actions is contained within the official approved committee and Board meeting minutes.

Table 5 | TIP/LOPP Public Participation Plan Process

Approved Draft LOPP and TIP published on <a href="http://www.LakeSumterMPO.com">www.LakeSumterMPO.com</a>	As soon as final documents can be uploaded to the website. Once adopted, the TIP is made available as a web-based interactive tool located on the MPO website: <a href="http://www.LakeSumterMPO.com">www.LakeSumterMPO.com</a> .

### MPO Certification

The Lake-Sumter MPO participates in an annual joint certification of its planning process with representatives from

the Florida Department of Transportation, District 5. The last annual self-certification with FDOT was completed in February 2023. The next certification is scheduled for February 2024.

# Glossary and Abbreviations

## Glossary

---

### A

---

**ACCESS MANAGEMENT** – The regulation and control of vehicular access to public roads to ensure the safe and efficient operation of the roadway system.

**ADVANCED TRAFFIC MANAGEMENT SYSTEMS (ATMS)** – This is an intelligent transportation system (ITS) approach using advanced technology tools such as closed-circuit television cameras, radar detectors, and communication devices to monitor traffic, optimize signal timing, and control traffic flow.

**AMERICANS WITH DISABILITIES ACT (ADA)** – A federal law that requires public facilities and services to be accessible to persons with disabilities, including those with mental disabilities, temporary disabilities, and conditions related to substance abuse.

**AVERAGE DAILY TRAFFIC (ADT)** – The number of vehicles passing a fixed point in a day, averaged over a number of days. The number of count days included in the average varies with the intended use of the data.

---

### B

---

**BICYCLE FACILITIES** – Any travel corridor designed to accommodate non-motorized traffic, including bike paths and bike lanes on roadways.

**BRIDGES MANAGEMENT SYSTEM (BMS)** – Process for analyzing existing conditions and identifying future needs with respect to bridges designated as part of the National Highway System.

---

### C

---

**CAPITAL IMPROVEMENT PROGRAM (CIP)** – A five/six-year schedule of capital improvements adopted by local governments and transportation agencies.

**CHAPTER 163, FLORIDA STATUTES (F.S.)** – Requires local governments to develop comprehensive plans assessing existing and future public service and facility needs and identifies policies necessary to address them.

**COMMUNITY ADVISORY COMMITTEE (CAC)** – Private citizens representing municipal area and at-large membership appointed by the MPO to review transportation issues and topics. The CAC forwards recommendations to the MPO regarding these issues and topics.

**COMMUNITY TRAFFIC SAFETY TEAMS (CTST)** – Locally based groups of highway safety advocates who are committed to solving traffic safety problems through a comprehensive, multi-jurisdictional, multi-disciplinary approach. Members include

city, county, state, and occasionally federal agencies, as well as private industry representatives and local citizens.

**COMMUNITY TRANSPORTATION COORDINATOR (CTC)** – Agency responsible for delivering coordinated transportation services to the transportation disadvantaged population in the designated service area.

**CONCURRENCY MANAGEMENT SYSTEM (CMS)** – The process local governments use to ensure that level of service standards on public services and facilities are adopted and maintained. CMS requires that public services and facilities necessary to accommodate the impacts of development projects are in place prior to their approval.

**CONGESTION MANAGEMENT PROCESS (CMP)** – A federally mandated program within metropolitan planning areas to address and manage congestion through the implementation of strategies not calling for major capital investments. The CMP was formerly known as Congestion Management System (CMS).

---

## D

---

**DESIGNATED OFFICIAL PLANNING AGENCY (DOPA)** – Agency designated by the state Commission for the Transportation Disadvantaged to provide planning services to the local transportation disadvantaged service area. The MPO is the DOPA.

**DISADVANTAGED BUSINESS ENTERPRISE (DBE)** – Are for-profit small business where socially and economically disadvantaged individuals own at least a 51% interest and also control management and daily business operations.

African Americans, Hispanics, Native Americans, Asian-Pacific and Subcontinent Asian Americans, and women are presumed to be socially and economically disadvantaged. Other individuals can also qualify as socially and economically disadvantaged on a case-by-case basis.

**EFFICIENT TRANSPORTATION DECISION MAKING (ETDM)** – An FDOT initiative to improve and streamline the environmental review and permitting process of transportation projects by providing resource protection agencies and concerned citizens opportunities to comment on them during the initial planning phase. This is intended to improve the coordination of transportation decisions with social, land use, and ecosystem preservation concerns.

---

## F

---

**FEDERAL HIGHWAY ADMINISTRATION (FHWA)** – The federal agency that develops regulations, policies, and guidelines to achieve safety, economic development, and other goals of FHWA programs through the construction and improvement of the nation's transportation infrastructure and highway system.

**FEDERAL HIGHWAY ADMINISTRATION (FHWA) METROPOLITAN PLANNING (PL) FUNDS** – Primary source of planning funds allocated to the MPO and budgeted in the Unified Planning Work Program (UPWP) in accordance with 23 U.S.C., Section 134.

**FEDERAL TRANSIT ADMINISTRATION (FTA)** – The agency that develops policy on public transit issues and allocates capital and operating funds for public transit projects.

**FEDERAL TRANSIT ADMINISTRATION (FTA) SECTION 5303** – Source of transit planning funds.

**FISCAL YEAR (FY)** – Defines budget year; runs from July 1 through June 30 for the state of Florida and from October 1 through September 30 for federal and local governments.

**FLORIDA ADMINISTRATIVE CODE (FAC)** – A compilation of the rules and regulations of state agencies that have been filed with the Department of State pursuant to the provisions of Chapter 120, Florida Statutes.

**FLORIDA DEPARTMENT OF TRANSPORTATION (FDOT)** – FDOT is an agency responsible for the development, maintenance, and regulation of public transportation systems and facilities in the state.

**FLORIDA INTRASTATE HIGHWAY SYSTEM (FIHS)** – A statewide network of limited and controlled access highways primarily intended for high speed and high-volume traffic movements constructed and maintained by FDOT.

**FLORIDA STANDARD URBAN TRANSPORTATION MODELING STRUCTURE (FSUTMS)** – Computer model used in Florida for transportation planning to simulate existing and future travel patterns developed by FDOT for long-range urban area transportation modeling.

**FUNCTIONAL CLASSIFICATION** – The process by which streets and highways are grouped into classes, or systems, according to the character of service they are intended to provide. Local governments are required to identify the functional classification of roadways within their jurisdiction in their comprehensive plans.

---

## H

---

**HIGH OCCUPANCY VEHICLE (HOV) LANES** – Special lanes reserved for the use of carpools, vanpools, and buses. They are usually located next to the regular, or unrestricted, lanes. These special lanes enable those who carpool or ride the bus to bypass the traffic in the adjacent, unrestricted ("general purpose") lanes. Lanes are identified as "2+" or "3+" which refers to the minimum number of occupants to qualify. This increases corridor capacity while, at the same time, providing an incentive for single-occupant drivers to shift to ridesharing. These lanes are most effective as part of a comprehensive effort to encourage HOVs, including publicity, outreach, park-and-ride lots, rideshare matching services, and employer incentives.

---

## I

---

**INFRASTRUCTURE INVESTMENT AND JOBS ACT (IIJA)** – was signed into law by President Biden on November 15, 2021. The law authorizes for transportation and infrastructure spending. Funding from the IIJA is extensive, addressing such areas as energy and power infrastructure, access to broadband internet, and water infrastructure.

**INSTITUTE OF TRANSPORTATION ENGINEERS (ITE)** – An international society of professionals in transportation and traffic engineering. The organization publishes the Trip Generation Manual, which provides trip generation data.

**INTELLIGENT TRANSPORTATION SYSTEMS (ITS)** – An umbrella term for a range of advanced technologies that monitor and manage traffic flow, reduce congestion, provide alternate

routes to travelers, enhance productivity, respond to incidents, adverse weather, or other road capacity constricting events.

**INTERMODAL FACILITIES** – Transportation facilities that link different travel modes, such as rail or bus stations at airports.

---

## J

---

**JOINT PARTICIPATION AGREEMENT (JPA)** – Legal instrument describing intergovernmental tasks to be accomplished and/or funds to be paid between government agencies.

---

## L

---

**LEVEL OF SERVICE (LOS)** – A qualitative assessment of operating conditions for transportation facilities using the letter grades A through F (best to worst) to describe their performance.

**LIVABLE COMMUNITIES** – A planning concept that applies to initiatives and programs directed at improving and/or maintaining an urban environment that promotes walking, bicycling and transit use and that provides a sense of place and opportunities for employment, education, recreation, entertainment, and shopping.

**LOCAL COORDINATING BOARD (LCB)** – A board comprised of representatives of the MPO Board, social service agencies, private transportation providers, FDOT, and citizens. The LCB is responsible for governing the Transportation Disadvantaged Program.

---

## M

---

**MPO LONG RANGE TRANSPORTATION PLAN (LRTP)** – Federally required plan that assesses existing and future transportation needs in the MPO planning area and identifies strategies, capital improvements, and associated funding needed to address them. The LRTP addresses all principal modes of travel including the automobile, bicycle, airplane, transit, and walking.

**MPO PUBLIC PARTICIPATION PLAN (PPP)** – Sets forth strategies for generating meaningful public involvement while preparing, developing, and implementing MPO plans, programs, and projects.

---

## N

---

**NATIONAL HIGHWAY SYSTEM (NHS)** – Includes the interstate system and other routes identified as having strategic defense characteristics as well as routes providing access to major ports, airports, public transportation, intermodal transportation facilities, and routes of importance to local governments.

---

## P

---

**PAVEMENT MANAGEMENT SYSTEM (PMS)** – A systematic process utilized by state agencies and MPOs to analyze and summarize pavement information for use in selecting and implementing cost effective pavement construction, rehabilitation, and maintenance programs. It is required for roads in the National Highway System.

---

## S

---

**SINGLE-OCCUPANCY VEHICLE (SOV)** – A privately operated vehicle whose only occupant is the driver. The drivers of SOVs use their vehicles primarily for personal travel, daily commuting, and for running errands.

**SAFE ROUTES TO SCHOOL (SRTS) PROGRAM** – The SRTS Program helps communities address school transportation needs while encouraging more students to walk or bicycle to school. The SRTS Program funds projects such as the construction and installation of sidewalks, shared-use paths, etc.

**STATE TRANSPORTATION IMPROVEMENT PLAN (STIP)** – A staged, multi-year, statewide, intermodal program that is consistent with the state and MPO transportation plans and TIPs. It must be approved by the Federal Highway Administration and the Federal Transit Administration at least every two years.

**STRATEGIC INTERMODAL SYSTEM (SIS)** – The SIS is a statewide network of high-priority transportation facilities, including the state's largest and most significant commercial service airports, spaceport, deepwater seaports, freight rail terminals, passenger rail and intercity bus terminals, rail corridors, waterways, and highways. These facilities are recognized as having the top priority for state and federal funding.

---

## T

---

**TECHNICAL ADVISORY COMMITTEE (TAC)** – comprised of planners and engineers from the various local governments

comprising the MPO. The input provided by the TAC is of a very technical nature and may include technical design recommendations and verification that all documents conform to the appropriate standards.

**TRANSIT ASSET MANAGEMENT PLAN (TAMP)** – A business model plan that prioritizes funding based on condition and performance to achieve and maintain a state of good repair (SGR) for the nation's public transportation assets.

**TRANSPORTATION ALTERNATIVES PROGRAM (TAP)** – Allows for up to two percent of Surface Transportation Program funds to be allocated for non-roadway improvements/expenditures, including pedestrian/bicycle facilities, recreational trails, and Safe Routes to Schools programs.

**TRANSIT DEVELOPMENT PLAN (TDP)** – Transit providers ten-year planning, development, and operational guidance document required for Florida Public Transit Block Grant funding. The TDP is used in creating the mass transit elements of the MPO Long Range Transportation Plan, TIP, and FDOT Work Program.

**TRANSPORTATION DEMAND MANAGEMENT (TDM)** – Employs techniques, such as vanpooling, increasing transit use and telecommuting, to reduce the demand for single occupant vehicle travel and vehicle-miles traveled.

**TRANSPORTATION DISADVANTAGED (TD)** – Those persons who, because of physical or mental disability, income status or age are unable to transport themselves or to purchase transportation and are, therefore, dependent on others to obtain access to health care, employment, education, shopping, social activities, or other life-sustaining activities.

These persons also include children who are handicapped or high-risk or at risk as defined in Ch. 411, F.S.

**TRANSPORTATION DISADVANTAGED SERVICE PLAN (TDSP)** – A three-year implementation plan, with annual updates developed by the designated official planning agency (DOPA) in coordination with the community transportation coordinator. The TDSP contains the provisions of service delivery for the county’s Transportation Disadvantaged Program and is reviewed and approved by the Local Coordinating Board.

**TRANSPORTATION IMPACT FEE (TIF)** – Exaction assessed by local governments on new development projects that attempt to recover the cost incurred to provide transportation facilities required to serve the new development.

**TRANSPORTATION IMPROVEMENT PROGRAM (TIP)** – A five-year program of transportation improvements adopted annually by the MPO that incorporates state and federal work programs along with the capital improvement programs/elements of local governments and the transit agency within the MPO’s jurisdiction.

**TRANSPORTATION REGIONAL INCENTIVE PROGRAM (TRIP)** – A Florida program that provides state funds to improve regionally significant transportation facilities.

**TRANSPORTATION SYSTEM MANAGEMENT (TSM)** – A program involving the implementation of traffic control measures, such as high occupancy vehicle (HOV) lanes, signal timing adjustments, median closings, and access management strategies to increase the operating efficiency of the traffic circulation system.

**TRANSPORTATION SYSTEMS MANAGEMENT AND OPERATIONS (TSMO)** – A set of strategies that focus on maintaining the highest benefit out of the transportation facilities we already have.

---

## U

---

**UNIFIED PLANNING WORK PROGRAM (UPWP)** – Identifies all transportation planning activities under the auspices of the MPO that are to receive federal and state grant funds.

**UNITED STATES CODE (USC)** – Also referred to as the Code of Federal Requirements, this is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government.

---

## W

---

**WORK PROGRAM (WP)** – The five-year listing of all transportation projects scheduled by the Florida Department of Transportation.

# Transportation Improvement Program

The TIP is a 5-year financially feasible program of multi-modal transportation improvement projects adopted by state and local government jurisdictions and transportation agencies. The TIP is updated annually as one of several prerequisites for continued receipt of federal assistance for transportation improvements.

The projects listed in the TIP are capital and noncapital surface transportation projects proposed for funding under Title 23 U.S.C. and Title 49 U.S.C. Chapter 53 (including bicycle facilities, sidewalks, and transportation alternatives projects). Also included are all regionally significant projects requiring an action by the Federal Highway Administration (FHWA) or Federal Transit Administration (FTA) regardless of funding source. In addition, the TIP identifies major improvement projects funded with local sources.

#### **TIP Development**

The TIP is developed by the MPO in cooperation with FDOT and the region's two public transit operators, Sumter County Transit (SCT) and Lake County Transit (LCT), who provide the MPO with estimates of available federal, state, and local funds in order for the MPO to develop the financial plan [23 C.F.R. 450.326(a) and s.339.175(8), F.S.]. It is developed through a continuing, comprehensive, and cooperative (3C) effort involving all counties, cities, and towns in the MPO's urbanized areas along with the Leesburg Airport Authority and the Umatilla Airport Authority. The TIP is broadly distributed for review and comment by the public before the MPO's, CAC, and TAC review and recommend it the MPO Governing Board for approval.

#### **Consistency with Other Plans**

All projects included in the Lake-Sumter MPO FY 2024-2028 TIP have been drawn from the 2045 Long Range Transportation Plan. The projects are consistent with the FDOT Five-Year Adopted Work Program and the Lake County Transit Development Plan (TDP).

Recognizing the close link between land use and transportation, the MPO FY 2024-2028 TIP has also been developed in a manner consistent with comprehensive plans and aviation master plans developed and adopted by local governments within the MPO's planning area.

#### **TIP Amendments**

At times, the TIP may require changes that are necessitated by adding a new project to the Work Program that is not yet in the TIP or changes due to monetary revisions to the state's budget. Such changes are reflected in the TIP through amendments. Proposed amendments are generally presented to the public as part of the MPO's regularly advertised meetings. Copies of the proposed amendments are made part of the agenda package, which is available for public review on the MPO's website. After approval by the MPO, amendments are attached to the original TIP and submitted to the state for inclusion in the STIP.

MPO's advisory committees review amendments to the TIP for input. In addition to the public comment periods provided during each committee meeting, opportunities for public comment are also a standard part of each Board meeting before Board action. During the review process and following Board adoption, the proposed amendment is electronically published.

Public input considered in the development and maintenance of the TIP includes the comments and recommendations of MPO committees and the public at large along with input received during the public comment periods. MPO complies with statutory planning and programming requirements [23 U.S.C. 134/49 U.S.C. 5303 (j) (1) and 23 U.S.C. 135/49 U.S.C. 5304 (g) (2)] that call for continuing consultation and coordination with partners, MPOs, nonmetropolitan local officials, and federal and state agencies.

### **Using the TIP**

The TIP includes all transportation improvements with federal and state funding during the FY 2024-2028 period. Projects in the TIP are grouped into one of the following sections:

- A. Aviation Projects
- B. Complete Streets
- C. Bicycle/Pedestrian and Sidewalk Projects
- D. Planning Studies
- E. Roadway Capacity Projects (Non-SIS)
- F. Safety/Operations/ Transportation Systems Management and Operations (TSMO) Projects
- G. Strategic Intermodal System Projects (SIS)
- H. Trail Projects
- I. Transit and Transportation Disadvantage Projects

The categories have been established to coincide with the 2022 LOPP structure to provide a more seamless interaction between the two reports.

### **TIP Format**

Lake-Sumter MPO has formatted the TIP project spreadsheet to include costs prior to, within, and beyond the five-year timeframe of the TIP. This reflects the projects' historic costs

prior to FY 2024 (if applicable), the funding programmed during the FY 2024-2028 timeframe of the TIP and estimates of any future costs after FY 2028 (if applicable). These figures are added to show the total cost of the project.

The historic, current, and future cost figures are provided by FDOT for the federal and state funded projects and by local governments and agencies for locally funded projects.

Figure 3 | TIP Sample Project Cost Summary Table

Phase	<2024	2024	2025	2026	2027	2028	>2028	Amount Funded	
	E	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -
DE	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	
ST	\$ 3,370,932	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ 3,370,932	
RU	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	
OW	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	
<b>Total</b>	\$ 3,370,932	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ 3,370,932	
Responsible Agency: LAKE COUNTY		County: LAKE					<b>Total Project Cost: \$</b>		<b>3,370,932</b>

**Financial Plan/Financial Feasibility**

As structured, the TIP is financially constrained for each of the five years in the FY 2024-2028 period. All federal and state-funded projects identified in the TIP are reflected in FDOT's Work Program for FY 2024-2028, and those projects can be funded using current and proposed revenue sources. The TIP is also financially constrained for all locally funded projects. For all projects in the TIP, costs and revenues are shown in Year of Expenditure dollars.

Innovative financing techniques are used extensively in developing projects in the Lake-Sumter MPO, primarily as a source of local matching funds for FDOT grant dollars. Examples include transit advertising revenue and impact fees. If reasonable additional funding sources are identified beyond

those included in the financial plan, additional funding would be used to advance the construction of MPO priority projects.

**Financial Constraint**

Under federal legislation, metropolitan areas are required to develop a financially constrained TIP to direct resources toward high-priority projects. Pursuant to these federal regulations, the level of authorized funding available to the state and the metropolitan area has been used as the basis for financial restraint and schedule for the projects using federal funds. Projects are financially feasible for the appropriate funding category and represent the MPO's established priorities to the maximum extent possible.

Table 6 | Fiscal Constraint Total Project Costs and Revenue

Category	2024	2025	2026	2027	2028
<b>Total Revenue</b>	\$296,517,099	\$184,081,709	\$335,337,944	\$39,844,646	\$354,048,883
<b>Total Project Cost</b>	\$296,517,099	\$184,081,709	\$335,337,944	\$39,844,646	\$354,048,883

Figure 4 | Total Project Cost vs. Total Revenue

## TIP Implementation

The federally funded projects identified in the TIP can be implemented using current and proposed revenue sources based on the FDOT Tentative Five-Year Work Program and locally dedicated transportation revenue. The TIP includes projects, or phases of projects, that are expected to be fully funded in the 20-year horizon of the 2045 LRTP. Additional projects that would be included in the approved TIP if reasonable additional resources beyond those identified in the financial plan were available, they may be identified pursuant to s.339.175(8)(c)(3), F.S.

FDOT shall give priority to those projects that are:

1. Designed to maximize safe and efficient travel.
2. Identified in approved local government comprehensive plans to receive local matching funds according to the provisions of Section 335.20, F.S. or to be funded pursuant to Section 339.12, F.S.
3. Within transportation corridors protected by local government action.
4. Used in the operation of, or in conjunction with, public transportation facilities.
5. Located within the boundaries of a local government that has made a responsible effort to fund improvements needed to accommodate local traffic.

In 2012, Congress passed the Moving Ahead for Progress in the 21st Century Act (MAP-21), which changes the way communities must document the allocation and use of federal funds. This direction was further refined in the 2015 Fixing America's Surface Transportation Act (FAST Act). The new

federal law provides direction to the MPOs mandating that the TIP:

- Contains projects consistent with the current metropolitan transportation plan.
- Reflects the investment priorities established in the current metropolitan transportation plan.
- Once implemented, it is designed to make progress toward achieving the performance targets established.

States and metropolitan planning organizations are now mandated to verify how they “invest resources in projects to achieve individual targets that collectively will make progress toward national goals.” The MPO began addressing this change during the development of the Lake-Sumter 2045 Long Range Transportation Plan (LRTP) adopted in December 2020.

The Lake-Sumter MPO 2045 LRTP Goals, Objectives, and Performance Measures were updated based on federal, state, and local guidance in December 2019. This highlights the requirements and guidance used to develop the Goals, Objectives, and Performance Measures for the 2045 Long Range Transportation Plan.

### Project Selection

The selection process for choosing projects incorporated within this TIP was carried out in accordance with the requirements of 23 USC 134(h) (2) and (i) (4). With reference to the projects included within this TIP, the selection was made by FDOT in cooperation with the MPO in accordance with the requirements of 23 CFR 450.332(a). The 2045 LRTP, the List of Priority Projects (LOPP), and the Congestion Management

Process (CMP) are all used to help prioritize projects to be incorporated in the TIP.

#### *Project Priority Statement*

The Lake-Sumter MPO adopted its LOPP in June 2022. The 2022 LOPP was submitted to FDOT to develop the new outer years of the Five-Year Work Program.

Compiling each TIP begins with the development of the LOPP the previous year. This document, updated each year, contains a list of the unfunded highway, bicycle and pedestrian, and transit projects prioritized for funding based on the criteria described in detail below. The 2022 LOPP was used by FDOT to develop the FY 2024-2028 Tentative Five-Year Work Program based on the priority of the projects. That Five-Year Work Program was then used to develop this TIP.

LSMPO has a formal process for prioritizing projects in the LOPP. This process begins every year in the fall. Local governments are asked to submit new projects for consideration and to update existing projects on the LOPP. All projects on the LOPP must have a Priority Projects Programming Process (4P) application. The local sponsoring jurisdiction completes a Project Information Application (PIA). It must be submitted to FDOT to be eligible for programming in FDOT's Five-Year Work Program and the TIP once funding becomes available. The MPO has created an online application to aid local partners in the information-gathering process for new projects submitted for inclusion in the LOPP. Applicants can access the application via the LSMPO website: <http://www.lakesumtermpo.com/documents/lopp.aspx>. The local sponsor agency should review and update the Project Information Application (PIA) every year and for each new phase of project development.

After the PIAs are submitted, every project undergoes screening by MPO staff. LSMPO has developed a set of criteria to aid in project prioritizations. The following are considered during the screening:

- Completion of the PIA, including detailed cost estimates;
- CMP System Performance Measure evaluation and assignment;
- Consistency with the goals and objectives of the MPO's LRTP;
- Inclusion in the MPO's LRTP Cost Feasible Plan;
- Consistency with the goals, objectives, and policies of the county's and local municipality's comprehensive plan; and
- Support for economic vitality, community development, business functionality, and/or creation or retention of employment opportunities.

After MPO staff complete the initial review of new and existing priority projects, they create the Draft LOPP for committee review. The Draft LOPP is reviewed by the Technical Advisory Committee (TAC) and the Community Advisory Committee (CAC). Before adoption, the Board receives a summary from each committee with recommendations and comments. The Board has final approval of the LOPP and adopts the LOPP before submitting it to FDOT. The MPO is required to submit the list to FDOT District 5 by July 1st of each year. The MPO uses the adopted LOPP to develop its TIP.

LSMPO, in coordination with FDOT, identifies performance measure targets for safety and travel time reliability. The targets have been set and adopted by the MPO Board; MPO staff will identify ways to incorporate the performance measures into the prioritization criteria.

**2045 LRTP** To be included in the TIP, a project must first be identified in the MPO's LRTP. The MPO's 2045 LRTP was

adopted in December 2020 and identifies the transportation improvements needed to accommodate the projected population growth through 2045. Of those transportation improvement needs, a cost-feasible plan was developed that identifies the projects that can be implemented based on the projected revenues for transportation improvements.

**LOPP** Each year, the MPO updates the LOPP, which identifies priorities for highway (SIS, non-SIS, and regional), transit, bicycle, pedestrian, and airport projects. For the Lake-Sumter MPO's FY 2024-2028 TIP, the project selection process started in May 2022. At that time, MPO staff, in conjunction with FDOT and local government officials, met to discuss MPO priorities. In June 2022, the MPO submitted its LOPP to FDOT.

Using the MPO's 2022 LOPP, FDOT developed its FY 2024-2028 Tentative Work Program. That five-year work program was presented to the MPO in April 2023 and constitutes the principal part of this TIP.

**CMP** The CMP is utilized by staff and project sponsors in the development cycle of the LOPP and TIP. The CMP is available to MPO committee members, Board members, and the public to evaluate criteria of priority projects in the LOPP and TIP. The Tier 1 projects in the LOPP were all evaluated for CMP System Performance Measure criteria; most projects were System Performance and/or Safety. The MPO has developed a tiered priority process that defines the top priority based on network performance improvements.

### *2022 Lake-Sumter MPO List of Priority Projects – Prioritization Process and Schedule*

*The annual LOPP is critical to the development of the TIP and FDOT Work Program. The projects within the LOPP should advance: the preservation of existing transportation infrastructure; enhancement of Florida's economic competitiveness; and improvement of travel choices to ensure mobility (s. 339.175(8), F.S.).*

*The following additional factors were considered in the development of the 2022 LOPP:*

- *Transportation needs and priorities identified by the MPO, local governments, and FDOT.*
- *Goals and objectives of the MPO's approved LRTP.*
- *The Strategic Intermodal System Plan developed under s. 339.64, F.S.*
- *The Transportation Regional Incentive Program (TRIP) priorities (s. 339.2819(4), F.S.).*
- *Results of the transportation management systems.2F*
- *The MPO's public involvement procedures.*
- *The goals, objectives, and policies of the local government's comprehensive plan.*
- *Support for economic vitality, community development, business functionality, and creation or retention of employment opportunities.*

*LSMPO also developed three new guidance and informational documents to assist with the prioritization process. These documents include :*

- *LOPP Overview and Guidance*
- *LOPP Screening Form*
- *LOPP Project Sufficiency Checklist*

The 2022 schedule for the LOPP is shown in Table 7.

Table 7 | 2022 LOPP Schedule

<b>2021</b>	
<b>September-December</b>	Solicit project submissions from counties, local municipalities, federal land managers, and the public
<b>2022</b>	
<b>January</b>	Review project submissions, grade project applications for sufficiency
<b>February</b>	Coordinate with project sponsors to discuss submissions, provide additional guidance and receive updates Discuss LOPP schedule/approach with FDOT
<b>March - Mid April</b>	Staff develops preliminary Top 20, using adopted prioritization criteria
<b>Late April - Early May</b>	Counties, municipalities review preliminary Top 20 and provide comments to staff
<b>Mid-May - Late May</b>	Staff develops Draft 2022 LOPP with Top 20 as Tier 1 and remaining LOPP projects as Tier 2
<b>June</b>	Post Draft 2022 LOPP for public review on the MPO website: <a href="http://www.LakeSumterMPO.com">www.LakeSumterMPO.com</a> Technical and Citizen Advisory Committees / Governing Board review and approve, public comments reviewed and considered in approval process
<b>By June 30</b>	Submit Final 2022 LOPP to FDOT on or before July 1, 2022

## Implemented Projects

FDOT produces an annual listing of projects for which federal funds have been obligated in the previous year. This list has been published and made available for public review through FDOT.<sup>3</sup>

The current TIP for FY 2024-2028 implemented many important projects for the Lake-Sumter MPO planning area including:

FM# DOT	Project Description	Work Description	County
4357851	Widen TPK- Orange/Lake County Line - Minneola (MP 274-279.2) (4 to 8 Lanes)	Add Lanes & Reconstruct	Lake
4357861	Widen TPK (SR 91)- Minneola Interchange to Obrien Rd (MP 279.2-285.8) (4 to 8 lanes)	Add Lanes & Reconstruct	Lake
4358593	SR 50 from Hernando/Sumter County Line (US 301) to East of CR 478A	Add Lanes & Reconstruct	Sumter

## Funded Capacity Improvement Projects

There are 13 capacity improvements projects in Lake and Sumter Counties that have funding identified in the FY 2024-2028 TIP totaling over \$765 million. Three of these projects are

in the 2022 LOPP Top 20 priority projects. Two of the projects have been identified in the CMP as extremely congested (2021 and 2026).

FM# DOT	Project Description	Project Category	County
4301321***	SR 35 (US 301) from CR 525E to Florida's Turnpike	Roadway Capacity Projects (Non-SIS)	Sumter
4301322	SR 35 (US 301) from CR 470 to CR 525E	Roadway Capacity Projects (Non-SIS)	Sumter
4357851	Widen TPK Orange/Lake County Line - Minneola (MP 274-279.2) (4 to 8 Lanes)	Strategic Intermodal System Projects (SIS)	Lake

<sup>3</sup> [LAKESUMTERMPO.PDF \(state.fl.us\)](https://laksumtermpo.pdf.state.fl.us)

<b>FM# DOT</b>	<b>Project Description</b>	<b>Project Category</b>	<b>County</b>
<b>4357861</b>	Widen TPK (SR 91)- Minneola Interchange to Obrien Rd (MP 279.2-285.8) (4 to 8 lanes)	Strategic Intermodal System Projects (SIS)	Lake
<b>4357863</b>	Widen TPK (SR 91) - Obrien Rd to US 27 (MP 285.9-289.6) (4 to 8 Lanes)	Strategic Intermodal System Projects (SIS)	Lake
<b>4357871</b>	Widen TPK- US 27 to CR 470 Interchange (MP 289.3 - 297.3) (4 to 8 lanes)	Strategic Intermodal System Projects (SIS)	Lake
<b>4357881</b>	Widen TPK- Lake/Sumter County Line to US 301 Interchange (MP 297.9-304.5)	Strategic Intermodal System Projects (SIS)	Sumter
<b>4357882</b>	Widen TPK from CR 470 Interchange to Lake/Sumter County Line (MP 297.3-297.9) (4 to 8 lanes)	Strategic Intermodal System Projects (SIS)	Lake
<b>4357891</b>	Widen TPK (SR 91) US 301 Interchange to I-75 Interchange (MP 304.5-308.9)	Strategic Intermodal System Projects (SIS)	Sumter
<b>4358595</b>	SR 50 from East of the Sumter/Lake County Line to CR 33	Strategic Intermodal System Projects (SIS)	Lake
<b>4396651***</b>	Rolling Acres Road from S of CR 466 to N of US 27/US 441	Roadway Capacity Projects (Non-SIS)	Lake
<b>4417811</b>	Hartwood Marsh Rd from US 27 to Savanna Ridge Ln (Proposed CR 455 Ext)	Roadway Capacity Projects (Non-SIS)	Lake
<b>4479311*</b>	Marsh Bend Trail/CR 501 from North of CR 470 to South of Corbin Trail	Roadway Capacity Projects (Non-SIS)	Sumter

\*Project included in the 2022 LOPP Top 20

\*\*\*Project in both the CMP and 2022 LOPP Top 20

## New Roadways Funded in Current TIP or County CIP

Several new roadways are funded across various phases within the FY 2024 – 2028 TIP. These six new roadway projects total 9.7 miles in Lake County. Two are in the 2022 LOPP Top 20 Priority Projects, one is in the CMP as Congested (2026).

FM# DOT	Project Description	Project Category
<b>4270561***</b>	SR 50/SR 33 from CR 565 (Villa City) to CR 565A (Montevista)	Strategic Intermodal System Projects (SIS)
<b>4413931*</b>	CR 437 from Central Ave to SR 46	Roadway Capacity Projects (Non-SIS)
<b>4417102</b>	Round Lake Road from Lake/Orange County Line to Wolf Branch Road	Roadway Capacity Projects (Non-SIS)
<b>4487331</b>	Wellness Way from US-27 to The Lake/Orange County Line	Roadway Capacity Projects (Non-SIS)
<b>4487341</b>	Hooks St from Hancock Rd to CR-455/Hartle Rd	Roadway Capacity Projects (Non-SIS)

\*Project included in the 2022 LOPP Top 20

\*\*\*Project in both the CMP and 2022 LOPP Top 20

## Congestion Management Process

The MPOs CMP<sup>4</sup> is a management system and process conducted to improve safety and reliability of traffic operations by providing strategies to reduce travel demand on the roadway network or providing improvements to the overall transportation network.

Per the Federal Highway Administration (FHWA) the CMP is “a systematic approach collaboratively developed and implemented throughout a metropolitan region, that provides for the safe and effective management and operation of new and existing transportation facilities through the use of demand reduction and operational management strategies.”

The CMP is intended to provide benefit to the public by improving travel conditions with approaches that may often be implemented more quickly or at a lower cost than many capacity improvements such as adding travel lanes or creating new travel corridors. Longer-term solutions are also identified in the CMP with the intention that they will be considered in the MPO’s LRTP.

Six categories of performance measures are identified in the System Performance Monitoring Plan. They include:

- Level of Service
- Safety
- Transit
- Bicycle and Pedestrian
- Carpooling

---

<sup>4</sup> [Congestion Management Process | \(lakesumtermpo.com\)](https://lakesumtermpo.com)

- Truck Traffic CMP Systems Evaluation 2022 Update focused solely on the vehicle level of service and trends in vehicle level of service<sup>5</sup>:

The evaluation established congestion levels based on the acceptable operating Level of Service (LOS) standard. Congestion levels are broken down as follows:

- Not Congested
  - Operating at acceptable LOS
- Approaching Congestion / Adopted LOS Threshold
  - Operating at 90% to 100% of LOS Standard
- Congested
  - Exceeding 100% of LOS Standard but less than 108% of physical capacity
- Extremely Congested
  - Exceeding 108% of physical capacity

## Efficient Transportation Decision Making (ETDM)

The MPO makes extensive use of ETDM throughout the planning process. All appropriate projects in the TIP were subject to ETDM planning and programming screening.

<sup>5</sup> [system-performance-monitoring-plan-year-2022-update\\_8-01-22.pdf \(lakesumtermpo.com\)](https://lakesumtermpo.com/system-performance-monitoring-plan-year-2022-update_8-01-22.pdf)

## **Transportation and Transportation Disadvantaged (TD)**

The projects listed in this TIP are part of the MPO's 2045 LRTP, Lake County 2017-2027 Transit Development Plan, and Lake and Sumter County Transportation Disadvantaged Service Plans. The plans and the projects identified in the TIP are also consistent, to the maximum extent feasible, with the adopted Comprehensive Plans of the local governments in the Lake-Sumter area.

Sumter County Transit expenses for Transportation Disadvantaged Services was \$1,192,977 for fiscal year 2022. This is an increase from fiscal year 2021.

The TIP funds for Sumter County Transit are unchanged from last year and totals \$1,464,419 in local funds for FY 2024-2028.

## Environmental Justice Analysis

Environmental Justice (EJ) is the fair treatment and meaningful involvement of all groups within the community. Per Presidential Executive Order 12898, efforts must be made throughout the development of plans and projects to avoid disproportionate adverse effects on minority and low-income populations. This attention to protecting all communities is critical, and this plan included efforts to evaluate sociocultural effects and EJ.

The two driving characteristics of EJ areas in the MPO planning area, as identified in the 2045 LRTP, are percentage of households at or below poverty level and percentage of minority population.

The data shown in this report is updated to reflect the latest 2020 Census results. Census block data was used to show the levels of EJ populations within the MPO geographic area. Table 8 shows the most current data. Figure 7 identifies the geographical locations of this data.

Table 8 | Environmental Justice Analysis

	Lake County	Sumter County	Total MPO Area
<b>Total Population</b>	<b>375,059</b>	<b>127,335</b>	<b>502,394</b>
Population > 20% Below Poverty Level	16,953	5,588	22,541
Percentage of Population > 20% Below Poverty Level	4.5%	4.3%	4.4%
Population > 20% Minority Population	106,005	14,665	120,670
Percentage of Population > 20% Minority Population	28.2%	11.5%	24%

# Performance Management

## Florida Transportation Plan (FTP)

The Florida Transportation Plan (FTP) is the single overarching statewide plan guiding Florida's transportation future. The plan was created by, and provides direction to, FDOT and all organizations that are involved in planning and managing Florida's transportation system, including statewide, regional, and local partners. This includes the Lake-Sumter MPO. The FTP Policy Element is Florida's long-range transportation plan as required by both state and federal law and this element points toward a future transportation system that embraces all modes of travel, innovation, and change.

MPOs are required to address the goals included in the FTP. These goals, as outlined in the May 2020 FTP Vision Element, are:

- Safety and security for residents, visitors, and businesses
- Agile, resilient, and quality transportation infrastructure
- Connected, efficient, and reliable mobility for people and freight
- Transportation choices that improve accessibility and equity
- Transportation solutions that strengthen Florida's economy
- Transportation solutions that enhance Florida's communities
- Transportation solutions that enhance Florida's environment

MPOs must also incorporate any performance targets which may be included in the Statewide Freight Plan and Asset Management Plan. Current guidance from FDOT indicates that no additional performance targets will be included in these plans.

## Performance-Based Planning

### Federal Guidance

The U.S. Secretary of Transportation established criteria for evaluation of the new performance-based planning processes. This included the identification of specific performance measures that all states and each MPO must evaluate. The process required FDOT to develop appropriate performance targets for these measures and to monitor the progress made toward achieving the targets. This also requires MPOs in Florida to either accept and support FDOT's performance targets or establish, formally adopt, and monitor their own performance targets.

### Overview of Statewide Performance Measures and Targets

FDOT worked in collaboration with MPOs and public transportation providers to establish statewide targets for the following:

*Safety.* Florida shares the national traffic safety vision "Toward Zero Deaths," and formally adopted its own version of the national vision, "Target Zero." FDOT and its traffic safety partners are committed to eliminating fatalities and reducing serious injuries with the understanding that the death of any person is unacceptable and based on that, zero is the target for all the safety performance measures. This goal is reflected as part of each statewide transportation performance measures in the Florida Transportation Plan (FTP) Policy element, Florida's Strategic Highway Safety Plan (SHSP), Highway Safety Improvement Program (HSIP), and Highway Safety Plan (HSP).

*Pavement Condition.* The pavement condition performance measures assess pavement conditions based on the International Roughness Index (IRI), cracking, rutting (for asphalt pavements), and faulting (for jointed concrete pavements). For asphalt and jointed concrete pavements, a 0.1-mile segment is considered in good condition if all three metrics are rated Good; if two or more metrics are considered poor, the condition is Poor. The federal rule requires a new methodology be used to measure rut depth and cracking that has not been historically used by FDOT. In consideration of the differences in the data collection requirements used by FDOT and those mandated by the rule, as well as other unknowns associated with the new required processes, initial 2- and 4-year targets were established.

*Bridge Condition.* The bridge condition performance measures for the percent of deck area classified as Good and Poor is determined using National Bridge Inventory (NBI) condition ratings for deck, superstructure, substructure, and culvert. Condition is determined by the lowest rating of these items using a scale of 1 to 9. If the NBI rating is 1 to 4, the bridge is classified as Poor; NBI rating 7 to 9, the bridge is Good. Bridges rated below 7 but above 4 are classified Fair; however, there is no related Federal Highway Administration (FHWA) performance measure associated with that rating. Considering the differences in criteria, initial 2- and 4-year targets were established.

*System Performance.* The travel time reliability metric is calculated for each segment of the National Highway System (NHS), weighted by volume and occupancy. Data is collected in 15-minute segments during four total time periods and is reported as the “percent of reliable person-miles traveled.” The segment is considered reliable if the reliability ratio is below 1.50 during all time periods. Freight movement is assessed by calculating truck travel time reliability ratio using data from five total time periods. The higher the ratio value, the less reliable the segment. A matrix showing consistency between the goals of the 2045 LRTP and the ten planning factors from the FAST Act is shown in Table 9.

## Fixing America's Surface Transportation (FAST) Act

Enacted in 2015, the Fixing America's Surface Transportation (FAST) Act (Public Law No. 114-94) provides support and enhancement to the Moving Ahead for Progress in the 21st Century Act (MAP-21). The FAST Act is the first federal law to provide long-term funding to infrastructure planning and investment for surface transportation since the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) became law in 2005.

The FAST Act supports MAP-21 by continuing to create a streamlined, performance-based surface transportation program that builds on many of the multimodal transportation policies first established under the Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991. Establishing a performance- and outcome-based program requires the investment of financial resources in projects that collectively progress toward achieving national multimodal transportation goals. The 2045 LRTP has been developed to ensure compliance with the requirements of the FAST Act and includes a performance-based approach to the transportation decision-making process.

### FAST Act Planning Factors

The FAST Act has established specific planning factors that call for the recognition of and address the relationship between transportation, land use, and economic development. The federal planning factors form the cornerstone for the 2045 LRTP and include:

- Supporting the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency.
- Increasing the safety of the transportation system for motorized and non-motorized users.
- Increasing the security of the transportation system for motorized and non-motorized users.
- Increasing accessibility and mobility of people and freight.
- Protecting and enhancing the environment, promote energy conservation, improve quality of life, and promote consistency between transportation improvements and state and local growth and economic development patterns.
- Enhancing the integration and connectivity of the transportation system, across and between modes, for people and freight.
- Promoting efficient system management and operation.
- Emphasizing the preservation of the existing transportation system.

### Lake-Sumter MPO 2045 LRTP

Pursuant to MAP-21 enacted in 2012 and the FAST Act enacted in 2015, state departments of transportation (DOT) and MPOs must apply a transportation performance management approach in carrying out their federally-required transportation planning and programming activities. The process requires establishing and using a coordinated, performance-based approach to transportation decision-making to support national goals for the federal-aid highway and public transportation programs.

On May 27, 2016, the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) issued

the Statewide and Nonmetropolitan Transportation Planning and Metropolitan Transportation Planning Final Rule (The Planning Rule). This rule details how state DOTs and MPOs must implement new MAP-21 and FAST Act transportation planning requirements, including the transportation performance management provisions.

- Improving the resiliency and reliability of the transportation system and reduce or mitigate stormwater impacts of surface transportation.
- Enhancing travel and tourism.

In accordance with the Planning Rule, the Lake-Sumter MPO included a description of the performance targets that apply to the MPO planning area and a System Performance Report. The System Performance Report evaluates the condition and performance of the transportation system with respect to required performance targets and reports on progress achieved in meeting the targets in comparison with baseline data and previous reports

Goals and objectives reflecting the vision of the planning area were developed at the outset of the planning process. They are consistent with the guidance and requirements of the FAST Act, current federal transportation planning requirements, and the Florida Transportation Plan.

#### GOAL 1 – SUPPORT ECONOMIC SUCCESS AND COMMUNITY VALUES

- Objective 1.1 – Reduce congestion and improve travel reliability for the traveling public and freight users on highways and major arterials.
- Objective 1.2 – Enhance access to major employment centers.

- Objective 1.3 – Coordinate regional transportation planning efforts and local comprehensive planning efforts.
- Objective 1.4 – Minimize negative environmental impacts associated with transportation investments.
- Objective 1.5 – Address Environmental Justice in all appropriate aspects of MPO planning.

#### GOAL 2 – PROMOTE SAFETY AND SECURITY

- Objective 2.1 – Prioritize investments to reduce crash-related Fatalities for all modes of transportation.
- Objective 2.2 – Prioritize investments to reduce crash-related Serious Injuries for all modes of transportation.
- Objective 2.3 – Prioritize investments to reduce Bicycle and Pedestrian crash-related Fatalities and Serious Injuries.
- Objective 2.4 – Prioritize investment on evacuation routes.
- Objective 2.5 – Invest in Transit security.

#### GOAL 3 – IMPROVE TRANSPORTATION OPERATIONS

- Objective 3.1 – Invest in Intelligent Transportation Systems (ITS).
- Objective 3.2 – Invest in Vehicle to Infrastructure Communication.
- Objective 3.3 – Invest in cost-effective Congestion Management strategies.

#### GOAL 4 – IMPROVE MOBILITY

- Objective 4.1 – Improve transportation options available.
- Objective 4.2 – Invest in Bicycle and Pedestrian infrastructure.
- Objective 4.3 – Maintain or enhance Transit service.
- Objective 4.4 – Balance regional capacity needs with human-scale accessibility needs (Complete Streets).
- Objective 4.5 – Invest in Context-Sensitive/Complete Street investments in multimodal corridors.

**GOAL 5 – SYSTEM PRESERVATION**

- Objective 5.1 – Maintain Transportation infrastructure
- Objective 5.2 – Maintain Transit assets

A matrix showing consistency between the LRTP Goals and the planning factors from the FTP is shown in Table 9.

Table 9 | 2045 LRTP Goals and Florida Transportation Plan Goals

2045 LRTP Goals	Florida Transportation Plan Goals						
	Safety and Security	Infrastructure	Mobility	Transportation Choices	Economy	Communities	Environment
Economic Success and Community Values	●	●	●	●	●	●	●

System Preservation	●	●	●	●	●	●	●

## Federal Performance Measures

The FAST Act has also established specific Performance Measures to evaluate critical needs by setting targets for safety, maintenance of assets, and travel time reliability.

The federal Performance Measures are listed below.

### *Highway Safety Measures (PM1)*

- Fatalities
- Serious Injuries
- Non-Motorized Fatalities and Serious Injuries

### *Pavement and Bridge Condition (PM2)*

- Pavement Condition
- Bridge Condition

### *System Performance, Freight, & Congestion Mitigation & Air Quality Improvement Program Measures (PM3)*

- Level of Travel Time Reliability (LOTTR) - on the Interstate
- LOTTR - on non-Interstate
- Truck Travel Time Reliability (TTTR) index

### *Transit Asset Management Measure (TAM)*

- State of good repair for
  - Equipment
  - Rolling Stock
  - Infrastructure
  - Facilities

### Safety Performance Targets (PM1)

Safety is the first national goal identified in the FAST Act. In March 2016, the Highway Safety Improvement Program (HSIP) and Safety Performance Management Measures Rule (Safety PM Rule) was finalized and published in the Federal Register. The rule requires MPOs to establish targets for the following safety-related performance measures and report progress to the state DOT:

1. Number of Fatalities;
2. Rate of Fatalities per 100 million Vehicle Miles Traveled (VMT);
3. Number of Serious Injuries;
4. Rate of Serious Injuries per 100 million VMT; and
5. Number of Non-motorized Fatalities and Non-motorized Serious Injuries.

The Lake-Sumter MPO, along with FDOT and other traffic safety partners, shares a high concern about the upward trending of traffic fatalities, both statewide and nationally. As such, the Lake-Sumter MPO must set targets by February 27 of each year. LSMPO has again agreed to support FDOT’s statewide safety performance targets for calendar year 2023, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets. The safety initiatives within this TIP are intended to contribute toward achieving these targets. The Lake-Sumter MPO and statewide safety performance measures and targets are listed in Table 10.

Table 10 | PM1 Performance Measures and Targets

Performance Measures	FDOT 2023 Statewide Targets	Lake-Sumter MPO 2023 Targets
Number of fatalities	0	0
Rate of fatalities per 100 million VMT	0	0
Number of serious injuries	0	0
Rate of serious injuries per 100 million VMT	0	0
Number of non-motorized fatalities and non-motorized serious injuries	0	0

The TIP includes specific investment priorities that support the MPO’s goals and objectives including safety, using a prioritization and project selection process established in the 2045 LRTP. This process evaluates projects that have an anticipated effect of reducing both fatal and injury crashes. The MPO’s goal of reducing fatal and serious injury crashes is linked to the TIP and the process used in prioritizing the projects is consistent with federal requirements.

Safety projects in the FY 24 LSMPO TIP are split into three categories:

- Bike/Ped and Sidewalk
- Complete Streets
- Safety/Operations/TSMO

These Project Categories as presented in this report, contain several FDOT Work Descriptions. The categories have been created to make it easier to capture the projects in the TIP and also correlate them to the LOPP report. A list of the project categories and FDOT work descriptions can be found in Appendix A.

The TIP FY 2024-2028 includes a total of 58 projects under the three categories. These projects total over \$223 million representing 15% of the total project costs in the TIP. A sample list of these projects is shown in Table 11. The MPO continues monitoring investments in the TIP and demonstrating progress toward goals and objectives.

Table 11 | LSMPO Sample Safety Projects

\*HSP Funded Project

### *Complete Streets*

A transportation system that addresses the needs of all users of the road, including the needs of people who walk, bike, drive, and take transit is an essential component of the MPO's safety commitment. Complete Streets are roadways designed to accommodate all users and may include sidewalks, bicycle lanes/paved shoulders, dedicated bus lanes, pedestrian crossings, and traffic calming measures. The MPO supports Complete Streets as an alternative transportation strategy to balance quality of life and mobility issues. Only one complete streets project is included in this TIP. SR 35 (US 301) from Lion Street to E Kentucky Avenue in Sumter County has been allotted funding for PE phase totaling \$2 million dollars. The 2022 LOPP listed a total of 11 complete streets projects. Nevertheless, because safety is inherent in so many FDOT and LSMPO programs and projects, this TIP is anticipated to support progress towards achieving the safety targets.

### Crash Locations for Future Study

Geographical crash data from Signal Four Analytics for the years 2018 through 2022 was reviewed to identify areas of high crash concentrations where there were serious injuries and fatalities that could benefit from future study or be incorporated into safety-related projects. Although specific improvements should be tailored to address prevalent crash types, potential safety improvements could include elements such as signal timing or phasing changes, changes in traffic control or access management, speed management treatments, and/or bicycle and pedestrian improvements.

Table 12 summarizes the intersections with the highest number of serious injury and fatal crashes that should be considered for future study and safety improvements. Figure 8 is a map showing these high crash locations.

Table 12 | Top Intersection Locations for Serious Injury or Fatal Crashes

Total Serious Injury or Fatal Crashes	Intersection	County
8	US-27/441 & Wales Pl	Lake
8	SR-44 & CR-468/Morse Blvd	Sumter

## Pavement & Bridge Condition Measures (PM 2)

The second of the performance measures rules issued by Federal Highway Administration (FHWA) became effective on May 20, 2017, establishing measures to assess pavement and bridge condition on the National Highway System (NHS). Requirements involve measuring the condition of these facilities and reporting conditions that are considered “Good” and those considered “Poor.” Facilities rated as “Good” suggest that no major investments are needed. Facilities rated as Poor indicate major investments will be needed in the near term.

In December 2022, FDOT established statewide targets for 2023 and 2025.

Table 13 | PM2 Performance Measures and Targets

Performance Measures	2023 Statewide Target	2025 Statewide Target
<b>Pavement</b>		
Percent of Interstate NHS Pavement in: Good Condition	60%	60%
Percent of Interstate NHS Pavement in: Poor Condition	5%	5%
Percent of Non-Interstate NHS Pavement in: Good Condition	40%	40%
Percent of Non-Interstate NHS Pavement in: Poor Condition	5%	5%
<b>Bridges</b>		
Percent of NHS Bridges by Deck Area in: Good Condition	50%	50%
Percent of NHS Bridges by Deck Area in: Poor Condition	10%	10%

FDOT has the capability to collect and maintain data regarding bridge and pavement condition. Table 13 presents the statewide targets.

On September 26, 2018, the Lake-Sumter MPO agreed to support FDOT's statewide pavement and bridge performance targets for 2023 targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets. LSMPO will need to set 2025 targets by June 2023, either setting their own or again supporting the statewide targets.

The Lake-Sumter MPO TIP reflects investment priorities established in the Lake-Sumter MPO 2045 LRTP. The focus of Lake-Sumter MPO's investments in bridge and pavement conditions, such as those in the following categories:

- Bridge replacement or reconstruction
- New bridge capacity on the NHS
- System resiliency projects that improve NHS bridge components (e.g., upgrading culverts)
- Pavement replacement or reconstruction (on the NHS)
- New NHS lanes or widenings, including resurfacing existing lanes associated with new capacity

#### *Pavement and Bridge Investments in the TIP*

The projects included in the TIP are consistent with FDOT's Five-Year Work Program, and therefore to FDOT's approach to prioritize funding to ensure the transportation system is adequately preserved and maintained. Per federal planning requirements, the state selects projects on the NHS in cooperation with the MPO from the approved TIP. Given the significant resources devoted in the TIP to pavement and

bridge projects, the MPO anticipates that once implemented, the TIP will contribute to progress towards achieving the statewide pavement and bridge condition performance targets.

The TIP FY 2024 to 2028 includes 20 projects, representing 60 miles of roadway, that focus on improving pavement and bridge conditions. These projects total over \$149 million in funding, an increase from last year's TIP. A sample list of these projects is shown in Table 14. The MPO continues monitoring investments in the TIP and demonstrating progress toward goals and objectives.

Table 14 | LSMPO Sample Pavement and Bridge Projects

FM# DOT	Project Description	County	Type of Work Description
4452951	SR 471 from CR 478A to SR 35/US 301	Sumter	Resurfacing
4483771	I-75/SR-93 from SR 44 to the Marion County Line	Sumter	Resurfacing

4474091	Sumter County Bridges 184000, 184002, 184052, 184055, And 184067	Sumter	Bridge-Repair/Rehabilitation

### Travel Time Reliability (PM3)

The third set of Performance Measures were established in January 2017 by the USDOT. These measures assess passenger and freight performance on the Interstate and non-Interstate National Highway System (NHS). Federal rules require MPOs to establish four-year performance targets for the Level of Travel Time Reliability (LOTTR) and Truck Travel Time Reliability (TTTR) performance measures.

LOTTR is the percent of person-miles on the interstate system that are reliable. It is defined as the ratio of longer travel times (80th percentile) to normal travel times (50th percentile) during four time periods throughout the day.

TTTR is defined as the ratio of longer truck travel times (95th percentile) to a normal travel time (50th percentile) over the interstate during five time periods throughout the day.

Table 15 | PM3 Statewide System Performance Measures and Targets

Performance Measure	2023 Statewide Target	2025 Statewide Target
Percent of person-miles on the Interstate system that are reliable)	75%	70%
Percent of person-miles on the non-Interstate NHS that are reliable	50%	50%
Truck travel time reliability index	1.75	2.0

On December 16, 2022, FDOT established statewide performance targets for the second performance period ending in 2025. The two-year targets represent performance at the end of calendar year 2023, while the four-year targets represent performance at the end of 2025.

On September 26, 2018, the Lake-Sumter MPO agreed to support FDOT's statewide system performance and freight targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets. Table 15 presents statewide target for each PM3 measure.

*System Performance and Freight Investments in the TIP*

The LSMPO TIP reflects investment priorities established in the 2045 L RTP. The focus of LSMPO’s investments that address system performance and freight include projects in the following categories:

- Corridor improvements
- Intersection improvements (on NHS roads)
- Projects evaluated in the CMP and selected for the TIP
- Investments in transit, bicycle, or pedestrian systems that promote mode shift

- Managed lanes
- Freight improvements (Interstate) that increase reliability (could include improved weigh stations, addressing identified truck bottlenecks on the Interstate, etc.).
- TSMO/ITS projects or programs
- Travel demand management programs, park, and ride lots, etc.]

A sample list of these projects is shown in Table 16. The MPO continues monitoring investments in the TIP and demonstrating progress toward goals and objectives.

Table 16 | LSMPO Sample System Performance and Freight Investments Projects

## Transit Asset Management Performance Measures

The FTA published the final Transit Asset Management rule in July 2016. The rule applies to recipients of Federal transit funds and requires that public transit providers develop and maintain a Transit Asset Management (TAM) plan, establish state of good repair standards, and performance measures for the assets as described in Table 17 .

The MPO's planning area is served by two transit service providers: LakeXpress and Sumter County Transit. LakeXpress and Sumter County Transit are considered Tier II providers. The LakeXpress established TAM targets for each of the applicable asset categories on September 26, 2018. Table 18 presents the targets for Tier II providers that are not part of the Group TAM Plan.

Sumter County Transit is part of the Group TAM Plan for Fiscal Years 2019/20-2022/23 developed by FDOT for Tier II providers in Florida. The FY 2021 asset conditions and FY 2022 targets for the Tier II providers are shown in Table 19.

The transit provider's TAM targets are based on the condition of existing transit assets and planned investments in equipment, rolling stock, infrastructure, and facilities. The targets reflect the most recent data available on the number, age, and condition of transit assets, and capital investment plans for improving these assets. The table summarizes both existing conditions for the most recent year available, and the current targets.

Table 17 | TAM Performance Measures

Asset Category	Performance Measures
Equipment	Percentage of non-revenue, support-service and maintenance vehicles that have met or exceeded their Useful Life Benchmark
Rolling Stock	Percentage of revenue vehicles within a particular asset class that have either met or exceeded their useful life benchmark
Infrastructure	Percentage of track segments with performance restrictions
Facilities	Percentage of facilities within an asset class rated below condition 3.0 on the TERM scale

Table 18 | FTA TAM Targets for Tier II Providers

Asset Category	Asset Class	FY 2018 Asset Conditions	FY 2022 Performance Target
<b>Revenue Vehicles</b>			
	Bus	31%	19%
Age - % of revenue vehicles within a particular asset class that have met or exceeded their Useful Life Benchmark (ULB)	Cutaway Bus	23%	53%
	Mini-Van	0%	50%
	Van	60%	50%
<b>Equipment</b>			
Age - % of equipment or non-revenue vehicles within a particular asset class that have met or exceeded their Useful Life Benchmark (ULB)	Non-Revenue Automobile	43%	0%
<b>Infrastructure</b>			
<b>Facilities</b>			
Condition - % of facilities with a condition rating below 3.0 on the FTA Transit Economic Requirements Model (TERM) Scale	Administration/ Maintenance Facilities	0%	0%

Table 19 | FDOT Group Plan TAM Targets for Tier II Providers

Asset Category	Asset Class	FY 2020 Asset Conditions	FY 2022 Performance Target
<b>Revenue Vehicles</b>			
	Automobile	28.6%	0%
	Bus	17.0%	20.46%
Age - % of revenue vehicles within a particular asset class that have met or exceeded their Useful	Cutaway Bus	14.1%	9.32%
	School Bus	100.0%	96%
Life Benchmark (ULB)	Mini-Van	26.6%	18.61%
	SUV	18.2%	19%
	Van	47.9%	38.55%
<b>Equipment</b>			
Age - % of equipment or non-revenue vehicles within a particular asset class that have met or exceeded their Useful Life Benchmark (ULB)	Non-Revenue Automobile	66.7%	≤66%
<b>Infrastructure</b>			
<b>Facilities</b>			
Condition - % of facilities with a condition rating	Passenger/Parking Facilities	0%	≤0%
below 3.0 on the FTA Transit Economic Requirements Model (TERM) Scale	Administration/Maintenance Facilities	0%	≤0%

*Transit Asset Management Investments in the TIP*

The Lake-Sumter MPO's TIP was developed and is managed in cooperation with LakeXpress and Sumter County Transit. It reflects the investment priorities established in the Lake-Sumter MPO 2045 LRTP. FTA funding, as programmed by the region's transit providers and FDOT, is used for programs and products to improve the condition of the region's transit assets. The focus of Lake-Sumter MPO's investments address transit state of good repair such as those in the following categories:

- Bus and other vehicle purchase and replacements
- Equipment purchases and replacements
- Retrofits
- Repair, rehabilitation, and replacement of transit facilities
- Repair, rehabilitation, and replacement of transit infrastructure

The Lake-Sumter MPO TIP has been evaluated and the anticipated effect of the overall program is that, once implemented, progress will be made towards achieving the TAM performance targets. The Lake-Sumter MPO will continue to coordinate with LakeXpress and Sumter County Transit to maintain the region's transit assets in a state of good repair.

# Funding by Project Categories

The following section includes illustrative maps and summary tables based on project categories as follows:

- Aviation Projects
- Bike/Ped and Sidewalk Projects
- Planning Studies
- Roadway Capacity Projects (Non-SIS)
- Safety/Operations/TSMO Projects
- Strategic Intermodal System Projects (SIS)
- Trail Projects
- Transit and Transportation Disadvantage Projects
- Complete Streets

The summary tables are organized and color coded by the nine project categories, and include the following information:

- A. Map Project Locator Number
- B. Priority Project Identifier (if applicable 2022 LOPP- Top 20 and Project Category Priority)
- C. Project Description: Location of Project
- D. Work Description: Type of Project
- E. FM#: FDOT Project Identification Number
- F. Funding Source: Federal, State, Local or a combination thereof.
- G. LRTP Page: Where the project is referenced in the Lake-Sumter MPO 2045 LRTP
- H. Project Phase: See Glossary and Abbreviation Section
- I. Project Costs: Broken into Historic Project Cost: <2023; FY 2023-2027: Current TIP Project Costs; >2027: Future Project Costs; and Total Project Costs
- J. Responsible Agency
- K. County

# **Appendix B: Transportation Performance Measures Consensus Planning Document**

# Transportation Performance Measures Consensus Planning Agreement Approved October 23, 2019

The Lake~Sumter MPO Governing Board approved the Florida TPM Consensus Planning Agreement as part of the MPO's planning process.

## ***Transportation Performance Measures Consensus Planning Document***

### **Purpose and Authority**

This document has been cooperatively developed by the Florida Department of Transportation (FDOT) and Florida's 27 Metropolitan Planning Organizations (MPOs) through the Florida Metropolitan Planning Organization Advisory Council (MPOAC), and, by representation on the MPO boards and committees, the providers of public transportation in the MPO planning areas.

The purpose of the document is to outline the minimum roles of FDOT, the MPOs, and the providers of public transportation in the MPO planning areas to ensure consistency to the maximum extent practicable in satisfying the transportation performance management requirements promulgated by the United States Department of Transportation in Title 23 Parts 450, 490, 625, and 673 of the *Code of Federal Regulations* (23 CFR). Specifically:

- 23 CFR 450.314(h)(1) requires that "The MPO(s), State(s), and providers of public transportation shall jointly agree upon and develop specific written procedures for cooperatively developing and sharing information related to transportation performance data, the selection of performance targets, the reporting of performance targets, the reporting of performance to be used in tracking progress

toward achievement of critical outcomes for the region of the MPO, and the collection of data for the State asset management plan for the National Highway System (NHS).”

- 23 CFR 450.314(h)(2) allows for these provisions to be “Documented in some other means outside the metropolitan planning agreements as determined cooperatively by the MPO(s), State(s), and providers of public transportation.”

Section 339.175(11), Florida Statutes creates the MPOAC to “Assist MPOs in carrying out the urbanized area transportation planning process by serving as the principal forum for collective policy discussion pursuant to law” and to “Serve as a clearinghouse for review and comment by MPOs on the Florida Transportation Plan and on other issues required to comply with federal or state law in carrying out the urbanized transportation planning processes.” The MPOAC Governing Board membership includes one representative of each MPO in Florida.

This document was developed, adopted, and subsequently updated by joint agreement of the FDOT Secretary and the MPOAC Governing Board. Each MPO will adopt this document by incorporation in its annual Transportation Improvement Program (TIP) or by separate board action as documented in a resolution or meeting minutes, which will serve as documentation of agreement by the MPO and the provider(s) of public transportation in the MPO planning area to carry out their roles and responsibilities as described in this general document.

### ***Roles and Responsibilities***

This document describes the general processes through which FDOT, the MPOs, and the providers of public transportation in MPO planning areas will cooperatively develop and share information related to transportation performance management.

Email communications will be considered written notice for all portions of this document. Communication with FDOT related to transportation performance management generally will occur through the Administrator for Metropolitan Planning in the Office of Policy Planning.

Communications with the MPOAC related to transportation performance management generally will occur through the Executive Director of the MPOAC.

1. Transportation performance data:

- a) FDOT will collect and maintain data, perform calculations of performance metrics and measures, and provide to each MPO the results of the calculations used to develop statewide targets for all applicable federally required performance measures. FDOT also will provide to each MPO the results of calculations for each applicable performance measure for the MPO planning area, and the county or counties included in the MPO planning area.<sup>12</sup> FDOT and the MPOAC agree to use the National Performance Management Research Data Set as the source of travel time data and the defined reporting segments of the Interstate System and non-Interstate National Highway System for the purposes of calculating the travel time-based measures specified in 23 CFR 490.507, 490.607, and 490.707, as applicable.
- b) Each MPO will share with FDOT any locally generated data that pertains to the federally required performance measures, if applicable, such as any supplemental data the MPO uses to develop its own targets for any measure.
- c) Each provider of public transportation is responsible for collecting performance data in the MPO planning area for the transit asset management measures as specified in 49 CFR 625.43 and the public transportation safety measures as specified in the National Public Transportation Safety Plan. The providers of public transportation will provide to FDOT and the appropriate MPO(s) the transit performance data used to support these measures.

2. Selection of performance targets:

FDOT, the MPOs, and providers of public transportation will select their respective performance targets in coordination with one another. Selecting targets generally refers to the processes used to identify, evaluate, and make decisions about potential targets prior to action to formally establish the targets. Coordination will include as many of the following opportunities as deemed appropriate for each measure: in-person meetings, webinars, conferences calls, and email/written communication. Coordination will include timely sharing of information on

proposed targets and opportunities to provide comment prior to establishing final comments for each measure.

The primary forum for coordination between FDOT and the MPOs on selecting performance targets and related policy issues is the regular meetings of the MPOAC. The primary forum for coordination between MPOs and providers of public transportation on selecting transit performance targets is the TIP development process.

Once targets are selected, each agency will take action to formally establish the targets in its area of responsibility.

- a) FDOT will select and establish a statewide target for each applicable federally required performance measure.
  - i. To the maximum extent practicable, FDOT will share proposed statewide targets at the MPOAC meeting scheduled in the calendar quarter prior to the dates required for establishing the target under federal rule. FDOT will work through the MPOAC to provide email communication on the proposed targets to the MPOs not in attendance at this meeting. The MPOAC as a whole, and individual MPOs as appropriate, will provide comments to FDOT on the proposed statewide targets within sixty (60) days of the MPOAC meeting. FDOT will provide an update to the MPOAC at its subsequent meeting on the final proposed targets, how the comments received from the MPOAC and any individual MPOs were considered, and the anticipated date when FDOT will establish final targets.
  - ii. FDOT will provide written notice to the MPOAC and individual MPOs within two (2) business days of when FDOT establishes final targets. This notice will provide the relevant targets and the date FDOT established the targets, which will begin the 180-day time-period during which each MPO must establish the corresponding performance targets for its planning area.
- b) Each MPO will select and establish a target for each applicable federally required performance measure. To the extent practicable, MPOs will propose, seek comment on, and establish their targets through existing processes such as the annual TIP update. For each performance measure, an MPO will have

the option of either:

- i. Choosing to support the statewide target established by FDOT, and providing documentation (typically in the form of meeting minutes, a letter, a resolution, or incorporation in a document such as the TIP) to FDOT that the MPO agrees to plan and program projects so that they contribute toward the accomplishments of FDOT's statewide targets for that performance measure.
  - ii. Choosing to establish its own target, using a quantifiable methodology for its MPO planning area. If the MPO chooses to establish its own target, the MPO will coordinate with FDOT and, as applicable, providers of public transportation regarding the approach used to develop the target and the proposed target prior to establishment of a final target. The MPO will provide FDOT and, as applicable, providers of public transportation, documentation (typically in the form of meeting minutes, a letter, a resolution, or incorporation in a document such as the TIP) that includes the final targets and the date when the targets were established
- c) The providers of public transportation in MPO planning areas will select and establish performance targets annually to meet the federal performance management requirements for transit asset management and transit safety under 49 U.S.C. 5326(c) and 49 U.S.C. 5329(d).
- i. The Tier I providers of public transportation will establish performance targets to meet the federal performance management requirements for transit asset management. Each Tier I provider will provide written notice to the appropriate MPO and FDOT when it establishes targets. This notice will provide the final targets and the date when the targets were established, which will begin the 180- day period within which the MPO must establish its transit-related performance targets. MPOs may choose to update their targets when the Tier I provider(s) updates theirs, or when the MPO amends its long-range transportation plan by extending the horizon year in accordance with 23 CFR 450.324(c).
  - ii. FDOT is the sponsor of a Group Transit Asset Management plan for sub

recipients of Section 5311 and 5310 grant funds. The Tier II providers of public transportation may choose to participate in FDOT's group plan or to establish their own targets. FDOT will notify MPOs and those participating Tier II providers following establishment of transit-related targets. Each Tier II provider will provide written notice to the appropriate MPO and FDOT when it establishes targets. This notice will provide the final targets and the date the final targets were established, which will begin the 180-day period within which the MPO must establish its transit-related performance targets. MPOs may choose to update their targets when the Tier II provider(s) updates theirs, or when the MPO amends its long-range transportation plan by extending the horizon year in accordance with 23 CFR 450.324(c).

- iii. FDOT will draft and certify a Public Transportation Agency Safety Plan for any small public transportation providers (defined as those who are recipients or sub recipients of federal financial assistance under 49 U.S.C. 5307, have one hundred (100) or fewer vehicles in peak revenue service, and do not operate a rail fixed guideway public transportation system). FDOT will coordinate with small public transportation providers on selecting statewide public transportation safety performance targets, with the exception of any small operator that notifies FDOT that it will draft its own plan.
- iv. All other public transportation service providers that receive funding under 49 U.S. Code Chapter 53 (excluding sole recipients of sections 5310 and/or 5311 funds) will provide written notice to the appropriate MPO and FDOT when they establish public transportation safety performance targets. This notice will provide the final targets and the date the final targets were established, which will begin the 180-day period within which the MPO must establish its transit safety performance targets. MPOs may choose to update their targets when the provider(s) updates theirs, or when the MPO amends its long-range transportation plan by extending the horizon year in accordance with 23 CFR 450.324(c).
- v. meeting minutes, a letter, a resolution, or incorporation in a document such as the TIP)

that includes the final If the MPO chooses to support the asset management and safety targets established by the provider of public transportation, the MPO will provide to FDOT and the provider of public transportation documentation that the MPO agrees to plan and program MPO projects so that they contribute toward achievement of the statewide or public transportation provider targets. If the MPO chooses to establish its own targets, the MPO will develop the target in coordination with FDOT and the providers of public transportation. The MPO will provide FDOT and the providers of public transportation documentation (typically in the form of targets and the date the final targets were established. In cases where two or more providers operate in an MPO planning area and establish different targets for a given measure, the MPO has the options of coordinating with the providers to establish a single target for the MPO planning area, or establishing a set of targets for the MPO planning area.

### 3. Reporting performance targets:

- a) Reporting targets generally refers to the process used to report targets, progress achieved in meeting targets, and the linkage between targets and decision making processes FDOT will report its final statewide performance targets to the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) as mandated by the federal requirements.
  - i. FDOT will include in future updates or amendments of the statewide long-range transportation plan a description of all applicable performance measures and targets and a system performance report, including progress achieved in meeting the performance targets, in accordance with 23 CFR 450.216(f).
  - ii. FDOT will include in future updates or amendments of the statewide transportation improvement program a discussion of the anticipated effect of the program toward achieving the state's performance targets, linking investment priorities to those performance targets, in accordance with 23 CFR 450.218 (q).
  - iii. FDOT will report targets and performance data for each applicable highway performance measure to FHWA, in accordance with the

reporting timelines and requirements established by 23 CFR 490; and for each applicable public transit measure to FTA, in accordance with the reporting timelines and requirements established by 49 CFR 625 and 40 CFR 673.

- b) Each MPO will report its final performance targets as mandated by federal requirements to FDOT. To the extent practicable, MPOs will report final targets through the TIP update or other existing documents.
    - i. Each MPO will include in future updates or amendments of its metropolitan long- range transportation plan a description of all applicable performance measures and targets and a system performance report, including progress achieved by the MPO in meeting the performance targets, in accordance with 23 CFR 450.324(f)(3-4).
    - ii. Each MPO will include in future updates or amendments of its TIP a discussion of the anticipated effect of the TIP toward achieving the applicable performance targets, linking investment priorities to those performance targets, in accordance with 23 CFR 450.326(d).
    - iii. Each MPO will report target-related status information to FDOT upon request to support FDOT's reporting requirements to FHWA.
  - c) Providers of public transportation in MPO planning areas will report all established transit asset management targets to the FTA National Transit Database (NTD) consistent with FTA's deadlines based upon the provider's fiscal year and in accordance with 49 CFR Parts 625 and 630, and 49 CFR Part 673.
4. Reporting performance to be used in tracking progress toward attainment of performance targets for the MPO planning area:
- a) FDOT will report to FHWA or FTA as designated, and share with each MPO and provider of public transportation, transportation performance for the state showing the progress being made towards attainment of each target established by FDOT, in a format to be mutually agreed upon by FDOT and the MPOAC.
  - b) If an MPO establishes its own targets, the MPO will report to FDOT on an

annual basis transportation performance for the MPO area showing the progress being made towards attainment of each target established by the MPO, in a format to be mutually agreed upon by FDOT and the MPOAC. To the extent practicable, MPOs will report progress through existing processes including, but not limited to, the annual TIP update.

- c) Each provider of public transportation will report transit performance annually to the MPO(s) covering the provider's service area, showing the progress made toward attainment of each target established by the provider.
5. Collection of data for the State asset management plans for the National Highway System (NHS):
- a) FDOT will be responsible for collecting bridge and pavement condition data for the State asset management plan for the NHS. This includes NHS roads that are not on the State highway system but instead are under the ownership of local jurisdictions, if such roads exist.

1 When an MPO planning area covers portions of more than one state, as in the case of the Florida-Alabama TPO, FDOT will collect and provide data for the Florida portion of the planning area.

2 If any Florida urbanized area becomes nonattainment for the National Ambient Air Quality Standards, FDOT also will provide appropriate data at the urbanized area level for the specific urbanized area that is designated.

3 When an MPO planning area covers portions of more than one state, as in the case of the Florida-Alabama TPO, that MPO will be responsible for coordinating with each state DOT in setting and reporting targets and associated data.
