

ENVISIONING BETTER COMMUNITIES

**Wednesday, July 8, 2009
8:30 a.m. to 3:00 p.m.**

**Eustis Community Center
601 Northshore Drive**

Come join nationally acclaimed planner, Randall Arendt, and Vanasse Hangen Brustlin's (VHB's) Managing Director for Transportation (Florida), Billy Hattaway, for a discussion on updating zoning and applying techniques in order to transform unsightly, auto-dependent, unwelcoming and unsafe commercial strips into transit-friendly, mixed-use corridors that increase livability and benefit local economies!

Best practices from successful projects from around the country will be shared where practical, proven techniques were applied to redevelop dysfunctional highway strips into vibrant mixed-use corridors, creating opportunities for new land-use patterns conducive to public transit ridership, economic development, and a variety of housing price-points.

A NOMINAL DONATION OF \$10 IS REQUESTED. LUNCH WILL BE PROVIDED.
