## Attachments

- I. Lake~Sumter MPO – Corridor Constraints Policy and Map
- II. Lake~Sumter MPO Transportation Management System – Roadway Inventory
- III. 2014 Level of Service (LOS) Analysis
- IV. 2014 Volume to Capacity Ratio (V/C) Map

## Purpose

This report has been prepared in accordance with the requirements of Concurrency Management Chapter V (Section 5.08.02) of the Lake County Land Development Code and the Concurrency Management Article II, Division 10 (Section 13-248) of the Sumter County Land Development Code which requires the annual publication of an inventory of the maximum, utilized and available capacity of public facilities for which minimum regulatory Levels of Service (LOS) are prescribed. This inventory contains projections of demand on the facilities due to anticipated growth and indicates additions to capacity based upon construction in progress or under contract.

## Background

The Lake~Sumter Metropolitan Planning Organization (MPO) entered into an interlocal agreement in 2007 with Lake County, Sumter County, all fourteen (14) municipalities in Lake County and the City of Wildwood. This interlocal agreement, effective January 1, 2008, designated the MPO as the administrator of the Transportation Management System (TMS) for each of these local governments. The MPO currently monitors the Lake County checkbook TMS, which covers all of Lake County, incorporated and unincorporated, the Sumter County growth-rate TMS and the Wildwood growth-rate TMS. In 2010, the City of Wildwood TMS was incorporated into the Sumter County TMS and is no longer monitored separately. By virtue of the enactment of 2009's SB 360, and by virtue of the removal of transportation concurrency as a Florida statutory mandate, the MPO is working individually with each local government on the transition away from the state mandate. Some local governments are choosing to maintain transportation concurrency by local ordinance while other local governments are opting to remove transportation concurrency from ordinances and rely on the dual-rational-nexus-test mitigation of impact fees to address road capacity concerns. The MPO continues to assist in addressing means through which to preserve capacity, manage congestion, and address projects to be funded through specified mechanism such as development-based fees and proportionate share payments.

## Level of Service Standards

The Level of Service (LOS) standards for roadways are established and monitored during the year to ensure that sufficient capacity is available for each type of facility to support approved development. Necessary enhancements to facilities are programmed in the capital planning process depending on the demand for additional capacity.

Roadway LOS refers to travelers' perceptions of the quality of service provided by a particular road. This perception is categorized much like a student's report card, represented by the letters "A" through "F", with "A" generally representing the most favorable driving conditions and "F" representing the least favorable. The Lake~Sumter MPO measures the LOS of each roadway through the difference between the road's capacity and the number of peak time/peak directional trips, peak time trips, or averaged daily trips. Existing traffic volumes and capacities are quantified along with approved development trips. Analyses are administered on a link by link basis using volume to capacity ratios to analyze level of service. As new developments take place, new trips are added to the link volumes following the update

of annual traffic counts. This methodology serves the objective of maintaining the adopted level of service on transportation facilities annually.

## Constrained Corridors

The Lake~Sumter MPO has adopted policy constraints of regionally-significant corridors to a maximum number of travel lanes aiming to unite community planning principles with transportation goals with an objective to provide guidance in prioritizing transportation needs. A copy of the corridor constraints policy and map is included in Attachment I of this report.

## Data Inventory

The Lake~Sumter MPO transportation management system has currently 439 roadway segments listed for Lake County and 237 roadway segments listed for Sumter County. A copy of the Lake County and Sumter County roadway inventories are included in Attachment II of this report.

## Transportation Improvement Program

Capacity projects listed in the current Transportation Improvement Program (TIP) scheduled for construction in the next five years are shown below.

2015 - 2019 TRANSPORTATION IMPROVEMENT PROGRAM - TIP FY 2014/15 - 2018/19 APPROVED JUNE 25, 2014 [AMENDED OCTOBER 22, 2014]

## Level of Service/Capacity Analysis

For purposes of this report, existing capacity is defined as the total available, encumbered, and reserved capacities for each facility. Permitting activity is also included when calculating available capacity. This report includes capacity used in the 2014 year.

This analysis shows the roadway segments condition reflecting the existing condition and any improvements listed in the current TIP and it represents the Existing + Committed (E+C) network. An

existing condition roadway LOS analysis was completed for the 2014 base year using the FDOT Generalized Service Volume Tables and the 2014 Peak Hour/Peak Direction volumes for Lake County and Sumter County. A copy of this analysis is included in Attachment III of this report. It is important to note that the adopted capacities shown in Attachment III are generalized capacities obtained from the 2013 Florida Department of Transportation Quality/Level of Service Handbook. However, the Lake~Sumter MPO also accepts capacities based on LOSPLAN Studies/Analyses submitted by proposed developments. The 2012 LOSPLAN Software is a Level of Service Analysis tool which uses site-specific field data including roadway geometrics, cycle lengths, signal timings, and turning movements to calculate roadway capacities.

A map showing the volume to capacity ratios for the 2014 year is included in Attachment IV of this report.

## Lake County – Level of Service Summary

The TMS evaluation shows that 15 roadway segments in Lake County are operating at or above adopted LOS standards with 8 roadway segments reporting above 110% capacity. The following table identifies these segments.

Segment ID	Road Name	From	To	FDOT LOS Standard	LOS Capacity	2014 LEVEL OF SERVICE									
						EB/NB	RESERVED	TOTAL	V/C RATIO	LOS	WB/SB	RESERVED	TOTAL	V/C RATIO	LOS
480	CR 44	CR 473	APIARY ROAD	D	792	513	4	517	0.65	C	830	7	837	1.06	F

## Sumter County – Level of Service Summary

The TMS evaluation shows that 5 roadway segments in Sumter County are operating at or above adopted LOS standards with 3 roadway segments reporting above 110% capacity. The following table identifies these segments.

Segment ID	Road Name	From	To	FDOT LOS Standard	LOS Capacity	2014 LEVEL OF SERVICE							
						PM PEAK HOUR TOTAL	EB/NB	V/C RATIO	LOS	WB/SB	V/C RATIO	LOS	
35411101	C-462	CR 131	CR 121	D	675	1,036	354	0.52	D	682	1.01	E

## Crash Data Management System

In 2010 the MPO acquired a web-based Crash Data Management System (WebCDMS) in which crash data, roadway inventory data, and traffic operations data are merged and used to aid in addressing engineering and safety issues. Long and short form crash reports are received from the Department of

Highway Safety and Motor Vehicles. The MPO provides query based thematic mapping, collision diagramming, and specialized reporting to local law enforcement, school boards, and local municipalities.

## Lake County - Crash Report Summary

In the 2014 year, Lake County had 6,161 reported motor vehicle crashes. The majority of the crashes reported property damaged only 4,381 (71.11%). Injury crashes accounted for 1,744 (28.31%) of the crashes, while 36 (0.58%) were fatal crashes. The following tables shows the location and estimated total damages per municipality along with graphics summarizing the total number of crashes per month, day of the week, and time of day.

Located Crashes				Estimated Damages	
Area	Crashes	Injuries	Fatalities	Area	Total
Astatula	26	13	0	Astatula	\$178,950
Clermont	1343	621	5	Clermont	\$6,476,624

# Lake~Sumter MPO Corridor Constraints Policy and Map

## Lake-Sumter Metropolitan Planning Organization (MPO) Corridor Constraint Policy

February 27, 2008

### Policy 2008-1 Corridor Constraints

With a goal to unite community planning principles with transportation goals and with an objective to provide guidance in prioritizing transportation needs, the following policy is established.

Within the Lake-Sumter MPO Area, various physical, environmental and local policy constraints influence the transportation planning vision for the region. Land use decisions and transportation planning must be coordinated. To assist in this coordination, some corridors should be designated as appropriate for capacity improvements through the expansion of lanes. Some corridors, based on local visions and comprehensive plans, should not be prioritized for capacity improvements.

Right-of-way acquisition and roadway capacity improvements through additional lanes have become too expensive a venture to be considered the only option when planning for future transportation demand. Less expensive alternative (reliever) corridors should be explored in an effort to enhance the regional transportation network. Further, there is an obvious need for a more regional, multimodal approach to addressing the traffic demand and congestion issues within the Lake-Sumter region.

The list of corridors that follows, addresses the lane constraints for state and county roads, designated collector status and above. Corridors that are constrained by this policy are so designated in an effort to accomplish one or more of the following:

- a) To preserve rural character in areas where existing conditions and land use designations do not require the need for additional capacity
- b) To limit the extent to which corridors will be widened in order to prevent roadways from becoming dividing factors within communities or to prevent widening projects causing the erosion of viable neighborhoods or districts
- c) To enhance the regional transportation network, spread demand for transportation capacity and maximize access to communities and centers
- d) To promote the goal of migrating away from capacity improvements through the addition of lanes and to promote the migration toward additional capacity through mass transit improvements along appropriate arterial corridors
- e) To prevent a misallocation of fiscal resources toward lane-addition projects in which cost-benefit ratios are low in terms of cost versus new capacity

*Please note that these lane constraints apply only to through lanes and do not apply to turn lanes, auxiliary lanes and exclusive-transit lanes.*

## **Lake~Sumter MPO Corridor Constraint Policy**

Through this policy, the following corridors shall be constrained to these maximum laneages:

### **Maximum Laneage: Six (6) Lanes**

#### *Lake County*

US 27

US 192

US 441

SR 19 (US 441), CR 19A/Bay Street (Eustis) to CR 561 (Tavares)

SR 44, Sumter County to CR 468 (North/Leesburg)

SR 44 (US 441), Former CR 44B (Mount Dora) to Dixie Avenue (Leesburg)

SR 46, US 441 to Wekiva Parkway Project

SR 50, US 27 to Orange County

CR 466

CR 470

CR 561, CR 455 to New Turnpike Interchange

Hancock Road North, SR 50 to New Turnpike Interchange

Hartwood Marsh Road, US 27 to Hartle Road

Shell Pond Road/Schofield Road (SR 429-US 27 Connector)

#### *Sumter County*

US 301, SR 44 to CR 470

US 441, Marion County to Lake County

SR 44, Citrus County to Lake County

CR 466, CR 475 to Lake County

CR 470, I-75 to Lake County

## **Lake~Sumter MPO Corridor Constraint Policy**

### **Maximum Laneage: Four (4) Lanes**

#### *Lake County*

# ADOPTED MAXIMUM LANE CONstrained CORRIDORS

## LEGEND

- Water Body
- Municipal Area
- County Delineation
- Lake-Sumter MPO Boundary
- Public Lands Managed by Federal Agency
- Public Lands Managed by State Agency
- Public Lands Managed by Local Agency
- Amtrak Station
- Active Railroad
- Abandoned Railroad
- County Road
- State Road
- US Highway
- Interstate
- Turnpike

- 8 Lanes
- 6 Lanes
- 4 Lanes
- 2 Lanes
- FUTURE 6 Lanes
- FUTURE 4 Lanes
- FUTURE 2 Lanes

The corridors displayed on this map, as adopted by the Lake Sumter MPO, addresses the lane constraints for state and county roads, designated collector status and above. Corridors that are constrained by this policy are so designated in an effort to accomplish one or more of the following:

- To preserve rural character in areas where existing conditions and land use designations do not require the need for additional capacity
- To limit the extent to which corridors will be widened in order to prevent roadways from becoming dividing factors within communities or to prevent widening projects causing the erosion of viable neighborhoods or districts
- To enhance the regional transportation network, spread demand for transportation capacity and maximize access to communities and centers
- To promote the goal of migrating away from capacity improvements through the addition of lanes and to promote the migration toward additional capacity through mass transit improvements along appropriate arterial corridors
- To prevent a misallocation of fiscal resources toward lane-addition projects in which cost-benefit ratios are low in terms of cost versus new capacity

**MAP COMPOSITION: DECEMBER, 2014**

**DATA SOURCES:**  
Lake and Sumter County GIS Department, Platimetrics  
Public Lands/Florida Managed Areas (FLMA) Data  
Florida Natural Inventory (FNAI) Data  
Data Compliations and Map production components of the Lake-Sumter Metropolitan Planning Organization  
This map product was prepared by the Lake-Sumter Metropolitan Planning Organization and Lake County Board of County Commissioners.  
The map is for general information and planning purposes only and is not to be relied upon for surveying, engineering, construction, or other specific applications. It is the responsibility of the user to verify the accuracy and completeness of the information contained in this map. The map does not purport to show all property boundaries or the placement or location of any map feature shown. The map is not to be used for the purpose of assessing property taxes.
