## SPEAKER BIOGRAPHIES

**David Yeager** - Chairman of the Lake-Sumter MPO Board and Mayor of the City of Minneola, David is the owner of Incident Management Solutions, Inc. (IMS), an emergency response company that responds with environmental remediation to truck accidents and other situations; the company also provides fuel transfers, cargo assessments, MOT and other services. Mayor Yeager is leading the City of Minneola through a visioning process that includes development of a new town center around a proposed interchange with Florida's Turnpike.

**T.J. Fish, AICP** - The first Executive Director of the Lake-Sumter MPO, T.J. has worked since his appointment in 2005 to enhance government cooperation and coordination in the Lake-Sumter region and in Central Florida; he has a graduate degree in public administration and has experience in economic development, as well as in transportation planning and growth management.

**Bob Wallace, P.E., AICP** - Vice President of Tindale-Oliver and Associates, Inc., Bob has been with Tindale-Oliver and Associates, Inc. (TOA) since 1989. During the last five years, he has been responsible for developing TOA's Orlando Office. The first 15 years of his career were spent working for the City of Tampa.

**Abra Horne, AICP** - Assistant Planning Director for Wilbur Smith Associates, Abra is responsible for day-to-day project management and study related planning activities such as conceptual transportation planning and environmental documentation for proposed transportation improvements.

**June Farrell, AICP** - Senior Planner with PBS&J's Central Florida Transportation Services Division, June is based in the Orlando office; her 10-year background includes state, county, and municipal planning, land use studies, and transportation planning.

**Karen Campblin** - Senior Associate with Glatting Jackson, Karen's responsibilities include the management of Public Involvement and Corridor Studies.

**Cecelia Bonifay, B.A., M.S.D., J.D.** - An attorney and shareholder with Akerman Senterfitt, Cecilia's practice areas include Policy, Real Estate, Administrative Law, Indoor Quality, Land Use and Zoning, and Local Government; she is a frequent lecturer on land use and growth management topics.

**Louis Rotundo** - A lobbyist in Tallahassee and Washington for 26 years, Louis had a major role in helping write SB 360. He represents developers, cities, counties, and special governmental units.

**Dave Mulholland, P.E.** - Senior Vice President of GMB Engineers & Planners, David's professional experience encompasses a wide variety of transportation planning and traffic engineering projects, including the development of creative solutions for both private and public clients, including Lake County.

**Amye King, AICP** - Deputy Director of Growth Management for Lake County, Amye has been in local government for more than a decade and authored comprehensive plans and written growth management policy; she earned a master's degree in public administration and has experience in private-sector development; in addition to overseeing six growth management divisions, she is a liaison to Lake County municipalities regarding growth management.

**David Marsh** - MPO/County Liaison to Lake & Sumter Counties, David has been a planner in Central Florida for 30 years in both current and comprehensive planning/transportation for local governments, state and private sector, he has spent the last 15 years with FDOT both in growth management and as a coordinator with local governments.

**Mark Reggentin, AICP** - Planning and Development Director for the City of Mount Dora, Mark has been with the city for 15 years with responsibilities including managing all facets of the department; comprehensive planning, zoning, development review, community redevelopment districts, historic preservation and building divisions. He serves as vice chairman of the MPO's Technical Advisory Committee.

**Ray San Fratello** - President of the South Lake Chamber of Commerce, Ray represents the business interests of 820 members in five cities; he is certified through the Institute of Organizational Management at the University of Delaware and he serves on the Lake County Industrial Development Agency, the Lake County Impact Fee Advisory Committee and on the board of myregion.org.
