LSMPO Governing Board Resolution Adoption - 06/18/2025

LAKE-SUMTER METROPOLITAN PLANNING ORGANIZATION

RESOLUTION 2025 - 06

RESOLUTION OF THE LAKE-SUMTER METROPOLITAN PLANNING ORGANIZATION ADOPTING THE FISCAL YEARS 2026 THROUGH 2030 TRANSPORTATION IMPROVEMENT PROGRAM TO INCLUDE PROJECTS IN THE FLORIDA DEPARTMENT OF TRANSPORTATION WORK PROGRAM FOR FISCAL YEARS 2026 THROUGH 2030.

WHEREAS, the Lake-Sumter Metropolitan Planning Organization (MPO) is the duly designated and constituted body responsible for carrying out the urban transportation planning and programming process for Lake-Sumter MPO Planning Area; and

WHEREAS, Section 339.175, Florida Statutes; 23 U.S.C. §134; and Title 49 U.S.C. §5303 require that the urbanized area, as a condition to the receipt of federal capital or operating assistance, must have a continuing, cooperative, and comprehensive transportation planning process that results in plans and programs consistent with the comprehensively planned development of the urbanized area; and

WHEREAS, 23 U.S.C. §134(j) and Section 339.175(8), Florida Statutes, require the Lake-Sumter MPO to formulate a Transportation Improvement Program (TIP), defined by 23 C.F.R. §450.104, as a prioritized listing/program of transportation projects that are developed and formally adopted by an MPO as part of the metropolitan transportation planning process; and

WHEREAS, Section 339.175(8), Florida Statutes, requires that the TIP include projects and project phases to be funded with state or federal funds that are recommended for advancement during the next fiscal year and four subsequent fiscal years; and

WHEREAS, the Lake-Sumter MPO is adopting the FY 2026-2030 TIP to include projects that were not completed or that were not committed in the previous state fiscal year and that, under federal regulations, must be included in the Lake-Sumter MPO FYs 2026-2030 adopted TIP for consistency with the FDOT Work Program and the State Transportation Improvement Plan (STIP).

NOW, THEREFORE, BE IT RESOLVED by the Lake-Sumter MPO that:

1. FY 2026-2030 TIP is hereby endorsed and adopted in Exhibit A; and
2. The FY 2026-2030 TIP includes projects in the FDOT FY 2026-2030 Work Program; and
3. Federally aided projects listed in the FY 2026-2030 TIP will be initiated within the MPO Area; and
4. The Chairman of the Lake-Sumter MPO is hereby authorized and directed to submit the FY 2026-2030 TIP to the:

Resolution 2025-06

- a. Federal Highway Administration (FHWA) through the Florida Department of Transportation (FDOT).
- b. Federal Transit Administration (FTA) through FDOT.
- c. Federal Aviation Administration (FAA).
- d. Bureau of Community Planning, Division of Community Development, and Florida Department of Economic Opportunity; and
- e. Members of the Florida Legislature representing the Lake-Sumter MPO.

PASSED AND ADOPTED this 18 day of June, 2025.

Lake-Sumter Metropolitan Planning
Organization

For Sean Parks
Sean Parks, Chairman

Approved as to Form and Legality:

Melanie Marsh
Melanie Marsh, MPO Attorney

LSMPO Governing Board Resolution Amendment Adoption - 10/22/2025

INTRODUCTION

A Metropolitan Planning Organization (MPO) is an agency created by federal law to provide local input for urban transportation planning and allocation of federal transportation funds.

In 1974, the U.S. Congress amended the Federal Aid Highway Act, which mandated that all urbanized areas having a population of 50,000 or more designate a single agency to administer federal transportation funds. The agencies that were established were called Metropolitan Planning Organizations. These organizations were to provide a transportation planning process for local, state, and federal officials. Today, there are more than 300 MPOs across the country and 27 MPOs in Florida, including the Lake-Sumter MPO.

Transportation planning is vital for a region to grow sustainably. How easily a resident can travel to work, school, the shopping mall, or the hospital affects their safety and quality of life. The mission of an MPO is to provide comprehensive, coordinated, and continuous transportation planning for the safe and efficient movement of people and goods consistent with the region's overall economic, social, and environmental goals.

MPOs place special emphasis on providing access to a variety of transportation choices and promoting effective public involvement in the planning process. The Lake-Sumter MPO works together with its transportation partners, including the public, to enhance the intermodal mobility of the community by developing a comprehensive Long Range Transportation Plan (LRTP) that supports the mobility needs and economic development of the community. MPOs are established by state and federal laws and through interlocal agreements to provide

a process for local governments within a non-Transportation Management Area (TMA) to coordinate with the Florida Department of Transportation (FDOT), the Federal Highway Administration (FHWA), and the Federal Transit Administration (FTA).

The MPO develops the Transportation Improvement Program (TIP) annually in accordance with state and federal requirements and the FDOT MPO Program Management Handbook. According to the dates, processes, and agencies described in the handbook, the TIP is submitted to federal and state review agencies.

About Your MPO

The Lake-Sumter MPO was established on February 25, 2004, after the 2000 U.S. Census determined the urbanized areas around Leesburg, Eustis, and Lady Lake had exceeded a population of 50,000.

The Lake-Sumter MPO is the regional transportation planning entity within Lake and Sumter counties, including the Orlando Urbanized Area, the Leesburg/Eustis Urbanized Area, and the Lady Lake/Villages Urbanized Area (UZA). The Lake-Sumter MPO seeks to improve transportation in both counties for all modes of travel, including mass transit, walking, bicycling, rail, air, as well as the automobile. The MPO prioritizes capital improvements to address the counties' travel needs and allocates federal funding to implement the projects identified in the LRTP and the TIP.

The Lake-Sumter MPO Board is tasked with effectively identifying the public's transportation needs. The Board consists of elected officials representing all the local governments in the region, including municipal and county

entities. The Lake-Sumter MPO Governing Board meetings and its advisory committees are all open to the public and provide opportunities for public comments. In addition, public hearings are held during the development of the LRTP to allow residents to provide input on the plan before the Lake-Sumter MPO Governing Board approves it. Regarding public involvement related to the TIP, the TIP is reviewed and approved by the Community Advisory Committee (CAC), the Technical Advisory Committee (TAC), and the Lake-Sumter MPO (LSMPO) Governing Board. The formal public review period began on May 30, 2024, and closed on June 20, 2024, after the LSMPO Governing Board meeting. The TIP is also made available on the MPO's website. This process meets the public hearing requirements of 49 U.S.C. Section 5307(c), the public notice of public involvement activities, and the time established for public review and comment per the Federal Transit Administration's Urbanized Area Formula Program.

In addition, FDOT presents the Five-Year Work Program at a public hearing before the Work Program is adopted. The Lake-Sumter MPO's planning area also includes federal lands. The federal land management agencies are included in the stakeholder's email list to review the DRAFT TIP as per 23 Code of Federal Regulations (CFR) 450.316(d) before final approval of the TIP.

Mission & Vision

The mission of the Lake-Sumter MPO is to provide local governments, agencies, and residents of Lake and Sumter counties with a forum for addressing growth and transportation issues, with an emphasis on:

- Planning a regional, multi-modal transportation network that balances accessibility and mobility;
- Incorporating the visions of the member governments into a cohesive regional approach; and
- Coordinating with regional partners and state and federal agencies to meet the needs of the public.

Figure 1 | Lake and Sumter County

Figure 2 | Lake-Sumter MPO Organizational Chart

Governing Board

The Lake-Sumter MPO Governing Board consists of 30 board members (16 voting and 14 non-voting) representing the communities of the Lake-Sumter region (See **Table 1**). Each member government appoints elected representation to the MPO Governing Board, along with an alternate representative (See **Table 2**).¹

The apportionment of membership on the Lake-Sumter MPO Governing Board includes one voting representative from each of the seven most populated cities in Lake County, including Clermont, Eustis, Lady Lake, Leesburg, Minneola, Mount Dora, and Tavares. The seven least populated cities of Lake County (Astatula, Fruitland Park, Groveland, Howey-in-the-Hills, Mascotte, Montverde, Umatilla), share one at-large vote that rotates alphabetically each year.

An at-large representative voting position rotates annually among the five Sumter County municipalities of Bushnell, Center Hill, Coleman, Webster, and Wildwood. In addition, the five members of the Lake County Board of County Commissioners and two designated County Commissioners from the Sumter County Board of County Commissioners are each voting members. Ex-officio board members from Lake County Schools, Sumter District Schools, Central Florida Expressway, and the Florida Central Railroad round out the membership of the Lake-Sumter MPO Governing Board (See **Table 3**).

The MPO Governing Board typically meets on the fourth Wednesday of every month and all meetings are open to the public. Regular meeting dates and times may be changed by the action of the MPO to accommodate holidays or other reasons. Therefore, please consult the calendar² to verify meeting dates and times.

Executive Committee

The Executive Committee is comprised of the following board members: Chairman, Chairman-Elect, 1st Vice Chairman/Treasurer, 2nd Vice Chairman, Immediate Past Chairman, and an At-Large Representative (See **Table 4**). To provide balanced representation on the Executive Committee among counties and municipalities, the MPO Board at the time of the election of officers shall attempt to fill, if feasible, officer positions by rotating between municipal and county representatives as officers are advanced, when feasible, to the next level of elected office.

Sandy Gamble - Chair Elect
Don Wiley - 1st Vice Chair
Chandra Myers - 2nd Vice Chair
Cal Rolfson - Past Chair
Mitchell Mack - Lake County At-Large Representative
Joe Elliott - Sumter County At-Large Representative

Advisory Committees

Lake-Sumter MPO has a CAC that meets regularly. The members of the CAC are private citizens with an interest in the transportation issues affecting the area. These individuals receive information on transportation issues from the Lake-Sumter MPO staff and other agencies and provide input to the local governing bodies regarding these issues. The CAC

assists the Lake-Sumter MPO Governing Board to develop transportation-related goals and objectives to shape the urban environment and conduct public information programs.

Lake-Sumter MPO also has a TAC which is comprised of planners and engineers from the various local governments comprising the MPO. The input provided by the TAC is of a very technical nature and may include technical design recommendations and verification that all documents conform to the appropriate standards.

The Lake-Sumter MPO also supports planning for the transportation disadvantaged with funds from the Florida State Commission for the Transportation Disadvantaged (CTD). The two Transportation Disadvantaged Coordinating Boards (TDCB), Lake County TDCB and Sumter County TDCB, serve in an advisory capacity to the Lake-Sumter MPO. The TDCB focuses on compliance with state requirements and ensuring that public transportation is accessible to everyone, including the transportation disadvantaged. TDCB membership is composed of several representatives such as health and human services agencies, the elderly and disabled citizens, and the private transportation industry and is established pursuant to Rule 41- 2.012(3), Florida Administrative Code (FAC).

Federal Requirements

The public involvement process requirements are documented in 23 CFR450, Section 450.316. These requirements encourage proactive public involvement and support early and continuing public involvement in the planning process.

Title 23 CFR, Section 450.316(b) (1), the Metropolitan Transportation Planning Process, sets forth the requirements for the public involvement process in conjunction with all aspects of transportation planning. The regulation states that the public involvement process shall provide “complete information, timely public notice, full public access to key decisions, and support early and continuing public involvement in developing plans and the major planning documents” produced by MPO. MPO’s public participation and development of the TIP satisfies the federal public participation requirements for developing the FTA, Program of Projects.

Process

The MPO public participation process provides the public with many opportunities to comment on transportation plans and programs. The process includes, but is not limited to, the following:

- Twenty-one (21) day comment period on the adoption of the TIP
- Regional Transportation Forum on key issues
- Regional Transportation Summit to gain stakeholder input
- Public meetings on specific transportation project
- MPO website: <https://www.lakesumtermpo.com/>
- MPO social media page and feeds
- MPO Board and committee meetings (TAC, CAC)
- Transportation Disadvantaged Coordinating Boards (Lake & Sumter counties)

- Task Force meetings (North Lake, East Lake, South Lake, & Public Transportation)
- Efficient Transportation Decision Making (ETDM) Process.
- Presentations to other governmental bodies (counties and municipalities)
- Presentations to civic and community groups and organizations

Interagency Cooperation and Support

The MPO actively assists local governments and transportation agencies in developing and implementing public participation techniques for transportation planning and other related studies. For example, in the LRTP and TIP development processes, MPO will assist Lake County Public Transportation with their FTA requirement for Section 5307 Program of Projects public involvement by including the following statement in advertisements and other collateral materials as appropriate:

“The MPO’s LRTP/TIP development process is being used to satisfy the public comment period requirements of FTA’s Section 5307 program. This public notice of public involvement activities and the time established for public review and comment on the LRTP/TIP will satisfy the FTA Program of Projects requirements.”

Public Involvement and Outreach

The Lake-Sumter MPO develops its TIP annually in accordance with all applicable state and federal laws governing public involvement. This includes 23 CFR 450.316 and 23 CFR 450.324(b). Specific procedures for the use of public involvement in the annual development of the TIP have been clearly defined in the MPO’s adopted Public Participation Plan (PPP). Before adopting the final TIP, the Lake-Sumter MPO sought public comment on the Draft TIP by making the

document available on their website (LakeSumterMPO.com). In addition, all Lake-Sumter MPO meetings are held in accordance with Florida's open meetings law (the Sunshine Law), and an opportunity is provided for public comment. The Draft TIP was discussed during a Lunch-and-Learn that was held on June 4th, 2025, which was meant for both the public and local stakeholders. The Draft TIP was also on the agenda of the June 2024 Lake-Sumter MPO Governing Board meeting for review and approval (See **Table 5**).

Federal law requires a formal public comment period before Board adoption, providing a structured process for public input. The official public comment period for TIP follows the same timeline as the advisory committee review, with a Draft document available at least twenty-one (21) days before Board action. The deadline to submit a comment is included in legal advertisements and notifications associated with the public comment period. This deadline is generally seven (7) days before the date the Board action is scheduled.

Public notification for the public comment period takes many forms. Public comment period notices are also sent to MPO's community database. Additionally, Draft plan documents are available on MPO's website and in print at locations throughout the region upon request at least seven (7) days before the public hearing.

As part of the participatory and outreach process, Lake-Sumter MPO has developed an Interactive TIP Tool, which can be accessed on the LSMPO TIP website ([Transportation Improvement Program \(TIP\) | LSMPO](#)). This tool provides residents with easy access to TIP project information by providing project location maps, detailed financial information, and project phases. This tool can be accessed from any

computer, tablet, or smartphone. This tool provides the Lake-Sumter MPO with a great opportunity to enhance public outreach capabilities and increase the public's awareness about the projects being funded.

Public Comments

All comments received during the Draft List of Priority Projects (LOPP)/TIP development process were submitted by the MPO committee and Board members during regular committee and Board advertised meetings. Any written record of comments from the committee and/or Board actions is contained within the official approved committee and Board meeting minutes.

Table 5 | TIP/LOPP Public Participation Plan Process

Outreach Step	Timeframe
Draft LOPP and TIP published electronically on https://www.lakesumtermpo.com/	Twenty-one (21) days prior to Board approval, opening public comment period.
Draft LOPP and TIP presented at LSMPO advisory committee meetings	Draft LOPP and TIP presented at LSMPO advisory committee meetings.
Board vote on approval, after a public comment period at the meeting and consideration of committee input	First Board meeting after committee review.
Residents unable to attend committee or Board meetings are encouraged to submit written comments via postal service, www.LakeSumterMPO.com contact form, or e-mail MWoods@LakeSumterMPO.com or may submit directly to the MPO's website Questions & Comments, Email Sign Up (lakesumtermpo.com) http://www.lakesumtermpo.com/engage/questions-comments-email-sign-up/	Throughout the official public comment period.
Approved Draft LOPP and TIP published on www.LakeSumterMPO.com	As soon as final documents can be uploaded to the website. Once adopted, the TIP is made available as a web-based interactive tool located on the MPO website: www.LakeSumterMPO.com .

MPO Certification

The Lake-Sumter MPO participates in an annual joint certification of its planning process with representatives from FDOT District 5. The last annual self-certification with FDOT was completed in April 2025. The next certification is scheduled for February 2026.

GLOSSARY & ABBREVIATIONS

Glossary

A

ACCESS MANAGEMENT – The regulation and control of vehicular access to public roads to ensure the safe and efficient operation of the roadway system.

ADVANCED TRAFFIC MANAGEMENT SYSTEMS (ATMS) —This is an intelligent transportation system (ITS) approach that uses advanced technology tools such as closed-circuit television cameras, radar detectors, and communication devices to monitor traffic, optimize signal timing, and control traffic flow.

AMERICANS WITH DISABILITIES ACT (ADA) – A federal law that requires public facilities and services to be accessible to persons with disabilities, including those with mental disabilities, temporary disabilities, and conditions related to substance abuse.

B

BICYCLE FACILITIES – Any travel corridor designed to accommodate non-motorized traffic, including bike paths and bike lanes on roadways.

C

CAPITAL IMPROVEMENT PROGRAM (CIP) – A five/six-year schedule of capital improvements adopted by local governments and transportation agencies.

CHAPTER 163, FLORIDA STATUTES (F.S.) – Requires local governments to develop comprehensive plans assessing existing and future public service and facility needs and identifies policies necessary to address them.

COMMUNITY ADVISORY COMMITTEE (CAC) – Private citizens representing municipal areas and at-large membership appointed by the MPO to review transportation issues and topics. The CAC forwards recommendations to the MPO regarding these issues and topics.

COMMUNITY TRANSPORTATION COORDINATOR (CTC) – Agency responsible for delivering coordinated transportation services to the transportation disadvantaged population in the designated service area.

CONGESTION MANAGEMENT PROCESS (CMP) – A federally mandated program within metropolitan planning areas to

address and manage congestion through the implementation of strategies not calling for major capital investments. The CMP was formerly known as Congestion Management System (CMS).

D

DESIGNATED OFFICIAL PLANNING AGENCY (DOPA) – Agency designated by the state Commission for the Transportation Disadvantaged to provide planning services to the local transportation disadvantaged service area. The MPO is the DOPA.

DISADVANTAGED BUSINESS ENTERPRISE (DBE) – These are for-profit small businesses where socially and economically disadvantaged individuals own at least a 51% interest and also control management and daily business operations.

African Americans, Hispanics, Native Americans, Asian-Pacific and Subcontinent Asian Americans, and women are presumed to be socially and economically disadvantaged. Other individuals can also qualify as socially and economically disadvantaged on a case-by-case basis.

E

EFFICIENT TRANSPORTATION DECISION MAKING (ETDM) – An FDOT initiative to improve and streamline transportation projects' environmental review and permitting process by providing resource protection agencies and concerned citizens opportunities to comment on them during the initial planning phase. This is intended to improve the coordination of

transportation decisions with social, land use, and ecosystem preservation concerns.

F

FEDERAL HIGHWAY ADMINISTRATION (FHWA) – The federal agency that develops regulations, policies, and guidelines to achieve safety, economic development, and other goals of FHWA programs through the construction and improvement of the nation's transportation infrastructure and highway system.

FEDERAL HIGHWAY ADMINISTRATION (FHWA) METROPOLITAN PLANNING (PL) FUNDS – Primary source of planning funds allocated to the MPO and budgeted in the Unified Planning Work Program (UPWP) in accordance with 23 U.S.C., Section 134.

FEDERAL TRANSIT ADMINISTRATION (FTA) – The agency that develops policy on public transit issues and allocates capital and operating funds for public transit projects.

FEDERAL TRANSIT ADMINISTRATION (FTA) SECTION 5303 – Source of transit planning funds.

FISCAL YEAR (FY) – Defines budget year; runs from July 1 through June 30 for the state of Florida and from October 1 through September 30 for federal and local governments.

FLORIDA ADMINISTRATIVE CODE (FAC) – A compilation of the rules and regulations of state agencies that have been filed with the Department of State pursuant to the provisions of Chapter 120, Florida Statutes.

FLORIDA DEPARTMENT OF TRANSPORTATION (FDOT) – FDOT is an agency responsible for the development, maintenance, and

regulation of public transportation systems and facilities in the state.

FLORIDA INTRASTATE HIGHWAY SYSTEM (FIHS) – A statewide network of limited and controlled access highways primarily intended for high-speed and high-volume traffic movements constructed and maintained by FDOT.

FLORIDA STANDARD URBAN TRANSPORTATION MODELING STRUCTURE (FSUTMS) – Computer model used in Florida for transportation planning to simulate existing and future travel patterns developed by FDOT for long-range urban area transportation modeling.

FUNCTIONAL CLASSIFICATION – The process by which streets and highways are grouped into classes, or systems, according to the character of service they are intended to provide. Local governments are required to identify the functional classification of roadways within their jurisdiction in their comprehensive plans.

H

HIGH OCCUPANCY VEHICLE (HOV) LANES – Special lanes reserved for the use of carpools, vanpools, and buses. They are usually located next to the regular, or unrestricted, lanes. These special lanes enable those who carpool or ride the bus to bypass the traffic in the adjacent, unrestricted ("general purpose") lanes. Lanes are identified as "2+" or "3+" which refers to the minimum number of occupants to qualify. This increases corridor capacity while, at the same time, providing an incentive for single-occupant drivers to shift to ridesharing.

I

INFRASTRUCTURE INVESTMENT AND JOBS ACT (IIJA) – was signed into law by President Biden on November 15, 2021. The law authorizes transportation and infrastructure spending. Funding from the IIJA is extensive, addressing such areas as energy and power infrastructure, access to broadband internet, and water infrastructure.

INSTITUTE OF TRANSPORTATION ENGINEERS (ITE) – An international society of professionals in transportation and traffic engineering. The organization publishes the Trip Generation Manual, which provides trip generation data.

INTELLIGENT TRANSPORTATION SYSTEMS (ITS) – An umbrella term for a range of advanced technologies that monitor and manage traffic flow, reduce congestion, provide alternate routes to travelers, enhance productivity, respond to incidents, adverse weather, or other road capacity constricting events.

INTERMODAL FACILITIES – Transportation facilities that link different travel modes, such as rail or bus stations at airports.

J

JOINT PARTICIPATION AGREEMENT (JPA) – Legal instrument describing intergovernmental tasks to be accomplished and/or funds to be paid between government agencies.

L

LEVEL OF SERVICE (LOS) – A qualitative assessment of operating conditions for transportation facilities using the letter grades A through F (best to worst) to describe their performance.

LOCAL COORDINATING BOARD (LCB) – A board comprised of representatives of the MPO Board, social service agencies, private transportation providers, FDOT, and citizens. The LCB is responsible for governing the Transportation Disadvantaged Program.

M

MPO LONG RANGE TRANSPORTATION PLAN (LRTP) – Federally required plan that assesses existing and future transportation needs in the MPO planning area and identifies strategies, capital improvements, and associated funding needed to address them. The LRTP addresses all principal modes of travel including the automobile, bicycle, airplane, transit, and walking.

MPO PUBLIC PARTICIPATION PLAN (PPP) – Sets forth strategies for generating meaningful public involvement while preparing, developing, and implementing MPO plans, programs, and projects.

N

NATIONAL HIGHWAY SYSTEM (NHS) – Includes the interstate system and other routes identified as having strategic defense characteristics as well as routes providing access to major ports, airports, public transportation, intermodal transportation facilities, and routes of importance to local governments.

P

PAVEMENT MANAGEMENT SYSTEM (PMS) – A systematic process utilized by state agencies and MPOs to analyze and summarize pavement information for use in selecting and implementing cost effective pavement construction, rehabilitation, and maintenance programs. It is required for roads in the National Highway System.

S

SAFE ROUTES TO SCHOOL (SRTS) PROGRAM – The SRTS Program helps communities address school transportation needs while encouraging more students to walk or bicycle to school. The SRTS Program funds projects such as the construction and installation of sidewalks, shared-use paths, etc.

SINGLE-OCCUPANCY VEHICLE (SOV) – A privately operated vehicle whose only occupant is the driver. The drivers of SOVs use their vehicles primarily for personal travel, daily commuting, and for running errands.

STATE TRANSPORTATION IMPROVEMENT PLAN (STIP) – A staged, multi-year, statewide, intermodal program that is consistent with the state and MPO transportation plans and TIPs. It must be approved by the Federal Highway Administration and the Federal Transit Administration at least every two years.

STRATEGIC INTERMODAL SYSTEM (SIS) – The SIS is a statewide network of high-priority transportation facilities, including the state's largest and most significant commercial service airports, spaceports, deepwater seaports, freight rail terminals, passenger rail and intercity bus terminals, rail corridors, waterways, and highways. These facilities are recognized as having the top priority for state and federal funding.

T

TECHNICAL ADVISORY COMMITTEE (TAC) – comprised of planners and engineers from the various local governments comprising the MPO. The input provided by the TAC is of a very technical nature and may include technical design recommendations and verification that all documents conform to the appropriate standards.

TRANSIT ASSET MANAGEMENT PLAN (TAMP) – A business model plan that prioritizes funding based on condition and performance to achieve and maintain a state of good repair (SGR) for the nation's public transportation assets.

TRANSIT DEVELOPMENT PLAN (TDP) – Transit providers' ten-year planning, development, and operational guidance document required for Florida Public Transit Block Grant

funding. The TDP is used in creating the mass transit elements of the MPO Long Range Transportation Plan, TIP, and FDOT Work Program.

TRANSPORTATION ALTERNATIVES PROGRAM (TAP) – Allows for up to two percent of Surface Transportation Program funds to be allocated for non-roadway improvements/expenditures, including pedestrian/bicycle facilities, recreational trails, and Safe Routes to Schools programs.

TRANSPORTATION DEMAND MANAGEMENT (TDM) – Employs techniques, such as vanpooling, increasing transit use and telecommuting, to reduce the demand for single occupant vehicle travel and vehicle miles traveled.

TRANSPORTATION DISADVANTAGED (TD) – Those persons who, because of physical or mental disability, income status or age are unable to transport themselves or to purchase transportation and are, therefore, dependent on others to obtain access to health care, employment, education, shopping, social activities, or other life-sustaining activities. These persons also include children who are handicapped or high-risk or at risk as defined in Ch. 411, F.S.

TRANSPORTATION DISADVANTAGED SERVICE PLAN (TDSP) – A three-year implementation plan, with annual updates developed by the designated official planning agency (DOPA) in coordination with the community transportation coordinator. The TDSP contains the provisions of service delivery for the county's Transportation Disadvantaged Program and is reviewed and approved by the Local Coordinating Board.

TRANSPORTATION IMPROVEMENT PROGRAM (TIP) – A five-year program of transportation improvements adopted annually by the MPO that incorporates state and federal work programs

along with the capital improvement programs/elements of local governments and the transit agency within the MPO's jurisdiction.

TRANSPORTATION REGIONAL INCENTIVE PROGRAM (TRIP) – A Florida program that provides state funds to improve regionally significant transportation facilities.

TRANSPORTATION SYSTEM MANAGEMENT (TSM) – A program involving the implementation of traffic control measures, such as high occupancy vehicle (HOV) lanes, signal timing adjustments, median closings, and access management strategies to increase the operating efficiency of the traffic circulation system.

TRANSPORTATION SYSTEMS MANAGEMENT AND OPERATIONS (TSMO) – A set of strategies that focus on maintaining the highest benefit out of the transportation facilities we already have.

U

UNIFIED PLANNING WORK PROGRAM (UPWP) – Identifies all transportation planning activities under the auspices of the MPO that are to receive federal and state grant funds.

UNITED STATES CODE (USC) – Also referred to as the Code of Federal Requirements, this is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government.

W

WORK PROGRAM (WP) – The five-year listing of all transportation projects scheduled by the Florida Department of Transportation.

TRANSPORTATION IMPROVEMENT PROGRAM

The TIP is a 5-year financially feasible program of multi-modal transportation improvement projects adopted by state and local government jurisdictions and transportation agencies. The TIP is updated annually as one of several prerequisites for continued receipt of federal assistance for transportation improvements.

The projects listed in the TIP are capital and noncapital surface transportation projects proposed for funding under Title 23 U.S.C. and Title 49 U.S.C. Chapter 53 (including bicycle facilities, sidewalks, and transportation alternatives projects). Also included are all regionally significant projects requiring an action by the FHWA or FTA regardless of funding source. In addition, the TIP identifies major improvement projects funded with local sources.

TIP Development

The TIP is developed by the MPO in cooperation with FDOT and the region's two public transit operators, Sumter County Transit (SCT) and LakeXpress, who provide the MPO with estimates of available federal, state, and local funds in order for the MPO to develop the financial plan [23 C.F.R. 450.326(a) and s.339.175(8), F.S.]. It is developed through a continuing, comprehensive, and cooperative (3C) effort involving all counties, cities, and towns in the MPO's urbanized areas along with the Leesburg Airport Authority and the Umatilla Airport Authority. The TIP is broadly distributed for review and comment by the public before the MPO's, CAC, and TAC review and recommend it to the MPO Governing Board for approval.

Consistency with Other Plans

All projects included in the Lake-Sumter MPO FY 2026 - 2030 TIP were sourced from the 2045 Long Range Transportation

Plan. The projects are consistent with the FDOT Five-Year Adopted Work Program and the Lake County Transit Development Plan (TDP).

Recognizing the close link between land use and transportation, the MPO FY 2026 - 2030 TIP has also been developed in a manner consistent with comprehensive plans and aviation master plans developed and adopted by local governments within the MPO's planning area.

TIP Amendments

At times, the TIP may require changes that are necessitated by adding a new project to the Work Program that is not yet in the TIP or changes due to monetary revisions to the state's budget. Such changes are reflected in the TIP through amendments. Proposed amendments are generally presented to the public as part of the MPO's regularly advertised meetings. Copies of the proposed amendments are made part of the agenda package, which is available for public review on the MPO's website. After approval by the MPO, amendments are attached to the original TIP and submitted to the state for inclusion in the State Transportation Improvement Plan (STIP).

MPO's advisory committees review amendments to the TIP for input. In addition to the public comment periods provided during each committee meeting, opportunities for public comment are also a standard part of each Board meeting before Board action. During the review process and following Board adoption, the proposed amendment is electronically published.

Public input considered in the development and maintenance of the TIP includes the comments and recommendations of MPO committees and the public at large along with input

received during the public comment periods. The MPO complies with statutory planning and programming requirements [23 U.S.C. 134/49 U.S.C. 5303 (j) (1) and 23 U.S.C. 135/49 U.S.C. 5304 (g) (2)] that call for continuing consultation and coordination with partners, MPOs, nonmetropolitan local officials, and federal and state agencies.

Using the TIP

The TIP includes all transportation improvements with federal and state funding during the FY 2026 - 2030 period. Projects in the TIP are grouped into one of the following sections:

- A. Aviation Projects
- B. Bicycle/Pedestrian and Sidewalk Projects
- C. Planning Studies
- D. Roadway Capacity Projects (Non-SIS)
- E. Safety/Operations/ Transportation Systems Management and Operations (TSMO) Projects
- F. Strategic Intermodal System Projects (SIS)
- G. Trail Projects
- H. Transit and Transportation Disadvantage Projects
- I. Bridge Projects

The categories have been established to coincide with the 2024 LOPP structure to provide a more seamless interaction between the two reports.

TIP Format

Lake-Sumter MPO has formatted the TIP project spreadsheet to include costs prior to, within, and beyond the five-year timeframe of the TIP. This reflects the projects' historic costs prior to FY 2026 (if applicable), the funding programmed during the FY 2026 - 2030 timeframe of the TIP and estimates of any future costs after FY 2030 (if applicable). These figures

are added to show the total cost of the project and are shown in the project cost summary tables (**Figure 3**).

FDOT provides the historical, current, and future cost figures for federal and state-funded projects and local governments and agencies for locally funded projects.

Figure 3 | TIP Sample Project Cost Summary Table

1	Priority	Project Description: SOUTH LAKE TRAIL PH IIIB FROM 2ND ST TO SILVER EAGLE RD FM#						Funding Source(s): Federal, State 100%	
		Work Description: BIKE PATH/TRAIL		4225703		L RTP Page: Pg. 2-3			
		Project relieves congestion? No							
Phase	<2026	2026	2027	2028	2029	2030	>2030	Amount Funded	
PDE	Historic Costs	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	Total Costs -

CST	\$ -	\$ 3,959,234	\$ 68,605	\$ -	\$ -	\$ -	\$ -	\$ 4,027,839	
Total	\$ 4,369,265	\$ 5,723,890	\$ 568,605	\$ 273,146	\$ -	\$ -	\$ -	\$ - \$ 10,934,906	
Responsible Agency: FDOT							County: LAKE		Total Project Cost: \$ 10,934,906

Financial Plan/Financial Feasibility

As structured, the TIP is financially constrained for each of the five years in the FY 2026 - 2030 period. All federal and state-funded projects identified in the TIP are reflected in FDOT's Work Program for FY 2026 - 2030, and those projects can be funded using current and proposed revenue sources. The TIP is also financially constrained for all locally funded projects. For all projects in the TIP, costs and revenues are shown in Year of Expenditure dollars.

Innovative financing techniques are used extensively in developing projects in the Lake-Sumter MPO, primarily as a source of local matching funds for FDOT grant dollars. Examples include transit advertising revenue and impact fees. If reasonable additional funding sources are identified beyond those included in the financial plan, additional funding would be used to advance the construction of MPO priority projects.

Financial Constraint

Under federal legislation, metropolitan areas are required to develop a financially constrained TIP to direct resources toward high-priority projects (See **Table 6** and **Figure 4**). Pursuant to these federal regulations, the level of authorized funding available to the state and the metropolitan area has been used as the basis for financial restraint and schedule for the projects using federal funds. Projects are financially feasible for the appropriate funding category and represent the MPO's established priorities to the maximum extent possible.

Table 6 | Fiscal Constraint Total Project Costs and Revenue

Category	2026	2027	2028	2029	2030
Total Revenue	\$547,851,046	\$196,074,680	\$336,561,454	\$229,975,747	\$27,401,348
Total Project Cost	\$547,851,046	\$196,074,680	\$336,561,454	\$229,975,747	\$27,401,348

Figure 4 | Total Project Cost vs. Total Revenue - (FY 2026 - 2030)

TIP Implementation

The federally funded projects identified in the TIP can be implemented using current and proposed revenue sources based on the FDOT Tentative Five-Year Work Program and locally dedicated transportation revenue. The TIP includes projects, or phases of projects, which are expected to be fully funded in the 20-year horizon of the 2045 LRTP. Additional projects that would be included in the approved TIP if reasonable additional resources beyond those identified in the financial plan were available, they may be identified pursuant to s.339.175(8)(c)(3), F.S.

FDOT shall give priority to those projects that are:

1. Designed to maximize safe and efficient travel.
2. Identified in approved local government comprehensive plans to receive local matching funds according to the provisions of Section 335.20, F.S. or to be funded pursuant to Section 339.12, F.S.
3. Within transportation corridors protected by local government action.
4. Used in the operation of, or in conjunction with, public transportation facilities.
5. Located within the boundaries of a local government that has made a responsible effort to fund improvements needed to accommodate local traffic.

In 2012, Congress passed the Moving Ahead for Progress in the 21st Century Act (MAP-21), which changed the way communities must document the allocation and use of federal funds. This direction was further refined in the 2015 Fixing America's Surface Transportation Act (FAST Act). The new federal law provides direction to the MPOs mandating that the TIP:

- Contains projects consistent with the current metropolitan transportation plan.
- Reflects the investment priorities established in the current metropolitan transportation plan.
- Once implemented, it is designed to make progress toward achieving the performance targets established.

States and metropolitan planning organizations are now mandated to verify how they “invest resources in projects to achieve individual targets that collectively will make progress toward national goals.” The MPO began addressing this change during the development of the Lake-Sumter 2045 LRTP adopted in December 2020.

The Lake-Sumter MPO 2045 LRTP Goals, Objectives, and Performance Measures were updated in December 2019 based on federal, state, and local guidance. The 2050 LRTP Update is currently in development – the Goals and Objectives were updated in April 2024, based on the same federal, state, and local guidance.

Project Selection

The selection process for choosing projects incorporated within this TIP was carried out in accordance with the requirements of 23 USC 134(h) (2) and (i) (4). With reference to the projects included within this TIP, the selection was made by FDOT in cooperation with the MPO in accordance with the requirements of 23 CFR 450.332(a). The 2045 LRTP, the LOPP, and the Congestion Management Process (CMP) are all used to help prioritize projects to be incorporated in the TIP.

Project Priority Statement

The Lake-Sumter MPO adopted its LOPP in June 2024. The 2024 LOPP was submitted to FDOT to develop the new outer years of the Five-Year Work Program.

Compiling each TIP begins with the development of the LOPP the previous year. This document, updated each year, contains a list of the unfunded highway, bicycle and pedestrian, and transit projects prioritized for funding based on the criteria described in detail below. The 2024 LOPP was used by FDOT to develop the FY 2026 - 2030 Tentative Five-Year Work Program based on the priority of the projects. That Five-Year Work Program was then used to develop this TIP.

LSMPO has a formal process for prioritizing projects in the LOPP. This process begins every year in the fall. Local governments are asked to submit new projects for consideration and to update existing projects on the LOPP. All projects on the LOPP must have a Priority Projects Programming Process (4P) application. The local sponsoring jurisdiction completes a Project Information Application (PIA). It must be submitted to FDOT to be eligible for programming in FDOT's Five-Year Work Program and the TIP once funding becomes available. The MPO has created an online application to aid local partners in the information-gathering process for new projects submitted for inclusion in the LOPP. Applicants can access the application via the LSMPO website: <http://www.lakesumtermpo.com/documents/lopp.aspx>. The local sponsor agency should review and update the PIA every year and for each new phase of project development.

After the PIAs are submitted, every project undergoes screening by MPO staff. LSMPO has developed a set of criteria to aid in project prioritizations. The following are considered during the screening:

- Completion of the PIA, including detailed cost estimates;
- CMP System Performance Measure evaluation and assignment;
- Consistency with the goals and objectives of the MPO's LRTP;

- Inclusion in the MPO's LRTP Cost Feasible Plan;
- Consistency with the goals, objectives, and policies of the county's and local municipality's comprehensive plan; and
- Support for economic vitality, community development, business functionality, and/or creation or retention of employment opportunities.

After MPO staff complete the initial review of new and existing priority projects, they create the Draft LOPP for committee review. The Draft LOPP is reviewed by the TAC and the CAC. Before adoption, the Board receives a summary from each committee with recommendations and comments. The Board has final approval of the LOPP and adopts the LOPP before submitting it to FDOT. The MPO is required to submit the list to FDOT District 5 by July 1st of each year. The MPO uses the adopted LOPP to develop its TIP.

The LSMPO, in coordination with FDOT, identifies performance measure targets for safety and travel time reliability. The targets have been set and adopted by the MPO Board; MPO staff will identify ways to incorporate the performance measures into the prioritization criteria.

2045 LRTP To be included in the TIP, a project must first be identified in the MPO's LRTP. The MPO's 2045 LRTP was adopted in December 2020 and identifies the transportation improvements needed to accommodate the projected population growth through 2045. Of those transportation improvement needs, a cost-feasible plan was developed that identifies the projects that can be implemented based on the projected revenues for transportation improvements. The 2050 LRTP Update is currently in development.

LOPP Each year, the MPO updates the LOPP, which identifies priorities for highway (SIS, non-SIS, and regional), transit,

bicycle, pedestrian, and airport projects. For the Lake-Sumter MPO's FY 2026 - 2030 TIP, the project selection process started in May 2024. At that time, MPO staff, in conjunction with FDOT and local government officials, met to discuss MPO priorities. In June 2024, the MPO submitted its LOPP to FDOT.

Using the MPO's 2024 LOPP, FDOT developed its FY 2026-2030 Tentative Work Program. That five-year work program was presented to the MPO in April 2025 and constitutes the principal part of this TIP.

CMP The CMP is utilized by staff and project sponsors in the development cycle of the LOPP and TIP. The CMP is available to MPO committee members, Board members, and the public to evaluate the criteria of priority projects in the LOPP and TIP. The Tier 1 projects in the LOPP were all evaluated for CMP System Performance Measure criteria; most projects were System Performance and/or Safety. The MPO has developed a tiered priority process that defines the top priority based on network performance improvements.

2024 Lake-Sumter MPO List of Priority Projects – Prioritization Process and Schedule

The annual LOPP is critical to the development of the TIP and FDOT Work Program. The projects within the LOPP should advance: the preservation of existing transportation infrastructure; enhancement of Florida's economic competitiveness; and improvement of travel choices to ensure mobility (s. 339.175(8), F.S.).

The following additional factors were considered in the development of the 2024 LOPP:

- *Transportation needs and priorities identified by the MPO, local governments, and FDOT.*
- *Goals and objectives of the MPO's approved LRTP.*
- *The Strategic Intermodal System Plan developed under s. 339.64, F.S.*
- *The Transportation Regional Incentive Program (TRIP) priorities (s. 339.2819(4), F.S.).*
- *Results of the transportation management systems.2F*
- *The MPO's public involvement procedures.*
- *The goals, objectives, and policies of the local government's comprehensive plan.*
- *Support for economic vitality, community development, business functionality, and creation or retention of employment opportunities.*

LSMPO also developed three new guidance and informational documents to assist with the prioritization process. These documents include:

- *LOPP Overview and Guidance*
- *LOPP Screening Form*
- *LOPP Project Sufficiency Checklist*

The 2024 schedule for the LOPP is shown in **Table 7**.

Table 7 | 2024 LOPP Schedule

2023	
September-December	Solicit project submissions from counties, local municipalities, federal land managers, and the public.
2024	
January	Review project submissions and grade project applications for sufficiency.
February	Coordinate with project sponsors to discuss submissions, provide additional guidance, and receive updates. Discuss the LOPP schedule/approach with FDOT.
March - Mid-April	Staff develops preliminary Top Priority Projects , using adopted prioritization criteria.
Late April - Early May	Counties and municipalities review preliminary Top Priority Projects and provide comments to staff.
Mid-May - Late May	Staff develops Draft 2024 LOPP with Top Priority Projects as Tier 1 and remaining LOPP projects as Tier 2.
June	Post Draft 2024 LOPP for public review on the MPO website: www.LakeSumterMPO.com
	Technical and Citizen Advisory Committees / Governing Board review and approve, public comments reviewed and considered in approval process.
By June 30	Submit Final 2024 LOPP to FDOT on or before July 1, 2024.

Obligated Projects

FDOT produces an annual listing of projects for which federal funds were obligated in the previous year. This list, which can be found in Appendix A, has been published and made available for public review through FDOT.

A sample of the projects included in that list across the various project categories are listed below. Two projects listed are in the FY 2026 - 2030 TIP:

FM# DOT	Project Description	Work Description	County
2382752	SR 46 / US 441 From W of US 441 to E of Vista View Lane	Add Lanes & Reconstruct	Lake
2383955	SR 500 (US 441) From Lake Ella Rd to Avenida Central	Add Lanes and Reconstruct	Lake
4225703	South Lake Trail Ph IIIB from 2nd St to Silver Eagle	Bike Path/Trail	Lake
4309755	Lake-Wekiva Trail from CR 435 Trailheads to SR 46	Bike Path/Trail	Lake
4323321	SR 19 From North of SR 50 To North of Lakeview Ave	Resurfacing	Lake
4354712	Sumter Trail Sr 471 from SR 50 to Cr 478	Bike Path/Trail	Sumter
4371145	CR 46A From SR 46 To N Of Arundel Way	Landscaping	Lake
4393294	Lake Sumter Urban Area Fy 2022/2023-2023/2024 UPWP	Transportation Planning	Lake
4393295	Lake Sumter Urban Area Fy 2024/2025-2025/2026 UPWP	Transportation Planning	Lake
4435111	CR 452 From CR 44 To Lake / Marion County Line	Safety Project	Lake
4452971	SR 19 From North of Stevens Ave to CR 452	Resurfacing	Lake
4456861	SR 19 / SR 44 at Orange Ave	Safety Project	Lake
4470981	SR 25 From Lake Louisa Rd to Cluster Oak Drive	Resurfacing	Lake
4488761	SR 19 From Florida Ave to Lakeview Ave	Sidewalk	Lake
4494141	FCEN Mainline #622009e at Atwater Ave.	Rail Safety Project	Lake

Funded Capacity Improvement Projects

There are 20 capacity improvement projects in Lake and Sumter Counties that have funding identified in the FY 2026 - 2030 TIP totaling over \$1 million.

Two of these projects are in the 2024 LOPP top priority projects, and eleven of the projects have been identified in the CMP as needed to relieve congestion.

FM# DOT	Project Description	Project Category	County
4270561	SR 50/SR 33 from CR 565 (Villa City) to 2nd St	Strategic Intermodal System Projects (SIS)	Lake
4301321	SR 35 (US 301) from CR 470 to SR 44	Roadway Capacity Projects (Non-SIS)	Sumter
4301322	SR 35 (US 301) from CR 470 to CR 525E	Roadway Capacity Projects (Non-SIS)	Sumter
4301325	SR 35 (US 301) from West of CR 468 To Florida's Turnpike	Roadway Capacity Projects (Non-SIS)	Sumter
4302536	CR 466A from East of Timbertop Ln to East of Poinsettia Avenue	Roadway Capacity Projects (Non-SIS)	Lake
4357861	Widen Turnpike (SR 91) - Minneola Interchange to Obrien Rd (MP 279.2 - 285.8) (4 to 8 Lanes)	Strategic Intermodal System Projects (SIS)	Lake
4357863	Widen Turnpike (SR 91) - Obrien Rd to US 27 (MP 285.8 - 289.3) (4 to 8 Lanes)	Strategic Intermodal System Projects (SIS)	Lake
4357871	Widen Turnpike - US 27 To N of CR 33 (MP 289 - 294) (4 to 8 Lanes) (Lake County)	Strategic Intermodal System Projects (SIS)	Lake
4357872	Widen Turnpike North of CR 33 to CR 470 Interchange (MP 294 - 297) (4 to 8 Lanes)	Strategic Intermodal System Projects (SIS)	Lake
4357881	Widen Turnpike (SR 91) N of Okahumpka Service Plaza to S of US 301 Interchange (301-306)	Strategic Intermodal System Projects (SIS)	Sumter
4357882	Widen Turnpike (SR 91) from CR 470 Interchange to Lake/Sumter Countyline (MP 297) (Lake County)	Strategic Intermodal System Projects (SIS)	Lake
4357883	Widen Turnpike (SR 91) Lake/Sumter C/L to N Of Okahumpka Service Plaza (MP 297 - 301)	Strategic Intermodal System Projects (SIS)	Sumter
4357891	Widen Turnpike (SR 91) US 301 Interchange to I-75 Interchange (MP 304.5-308.9) (Sumter County)	Strategic Intermodal System Projects (SIS)	Sumter

FM# DOT	Project Description	Project Category	County
4358595*	SR 50 from East of the Sumter/Lake County Line to CR 33	Strategic Intermodal System Projects (SIS)	Lake
4396651	Rolling Acres Road from S Of CR 466 To N Of US 27/US 441	Roadway Capacity Projects (Non-SIS)	Lake

Congestion Management Process

The MPO's CMP³ is a management system and process conducted to improve the safety and reliability of traffic operations by providing strategies to reduce travel demand on the roadway network or to improve the overall transportation network.

Per the FHWA, the CMP is “a systematic approach collaboratively developed and implemented throughout a metropolitan region, that provides for the safe and effective management and operation of new and existing transportation facilities through the use of demand reduction and operational management strategies.”

The CMP is intended to benefit the public by improving travel conditions with approaches that may often be implemented more quickly or at a lower cost than many capacity improvements, such as adding travel lanes or creating new travel corridors. The CMP also identifies longer-term solutions that will be considered in the MPO's LRTP.

Six categories of performance measures are identified in the System Performance Monitoring Plan. They include:

- Level of Service
- Safety
- Transit
- Bicycle and Pedestrian
- Carpooling

- Truck Traffic CMP Systems Evaluation 2022 Update focused solely on the vehicle level of service and trends in vehicle level of service⁴

The evaluation established congestion levels based on the acceptable operating Level of Service (LOS) standard. Congestion levels are broken down as follows:

- Not Congested
 - Operating at acceptable LOS
- Approaching Congestion / Adopted LOS Threshold
 - Operating at 90% to 100% of LOS Standard
- Congested
 - Exceeding 100% of LOS Standard but less than 108% of physical capacity
- Extremely Congested
 - Exceeding 108% of physical capacity

Efficient Transportation Decision Making

The MPO makes extensive use of ETDM throughout the planning process. All appropriate projects in the TIP were subject to ETDM planning and programming screening.

Transportation and Transportation Disadvantaged (TD)

The projects listed in this TIP are part of the MPO's 2045 LRTP, Lake County 2023-2032 TDP, and Lake and Sumter County Transportation Disadvantaged Service Plans (TDSP). The plans and the projects identified in the TIP are also consistent, to the maximum extent feasible, with the adopted Comprehensive Plans of the local governments in the Lake-Sumter area.

⁴ [system-performance-monitoring-plan-year-2022-update 8-01-22.pdf \(lakesumtermpo.com\)](https://lakesumtermpo.com/system-performance-monitoring-plan-year-2022-update-8-01-22.pdf)

Sumter County Transit expenses for Transportation Disadvantaged Services were \$1,534,409 for fiscal year 2024, setting a three-year increase trend. (See **Figure 5**).

PERFORMANCE MANAGEMENT

Florida Transportation Plan (FTP)

The Florida Transportation Plan (FTP) is the single overarching statewide plan guiding Florida's transportation future. The plan was created by, and provides direction to, FDOT and all organizations that are involved in planning and managing Florida's transportation system, including statewide, regional, and local partners. This includes the Lake-Sumter MPO. The FTP Policy Element is Florida's long-range transportation plan as required by both state and federal law and this element points toward a future transportation system that embraces all modes of travel, innovation, and change.

MPOs are required to address the goals included in the FTP. These goals, as outlined in the May 2020 FTP Vision Element, are:

- Safety and security for residents, visitors, and businesses,
- Agile, resilient, and quality transportation infrastructure,
- Connected, efficient, and reliable mobility for people and freight,
- Transportation choices that improve accessibility and equity,
- Transportation solutions that strengthen Florida's economy,
- Transportation solutions that enhance Florida's communities,
- Transportation solutions that enhance Florida's environment.

MPOs must also incorporate any performance targets included in the Statewide Freight Plan and Asset Management Plan. Current guidance from FDOT indicates that no additional performance targets will be included in these plans.

Performance-Based Planning

Federal Guidance

The U.S. Secretary of Transportation established criteria for evaluating the new performance-based planning processes. This included the identification of specific performance

measures that all states and each MPO must evaluate. The process required FDOT to develop appropriate performance targets for these measures and to monitor the progress made toward achieving the targets. This also requires MPOs in Florida to either accept and support FDOT's performance targets or establish, formally adopt, and monitor their own performance targets.

Overview of Statewide Performance Measures and Targets

FDOT worked in collaboration with MPOs and public transportation providers to establish statewide targets for the following:

Safety. Florida shares the national traffic safety vision "Toward Zero Deaths," and formally adopted its own version of the national vision, "Target Zero." FDOT and its traffic safety partners are committed to eliminating fatalities and reducing serious injuries with the understanding that the death of any person is unacceptable, and based on that, zero is the target for all the safety performance measures. This goal is reflected as part of each statewide transportation performance measure in the FTP Policy element, Florida's Strategic Highway Safety Plan (SHSP), Highway Safety Improvement Program (HSIP), and Highway Safety Plan (HSP).

Pavement Condition. The pavement condition performance measures assess pavement conditions based on the International Roughness Index (IRI), cracking, rutting (for asphalt pavements), and faulting (for jointed concrete pavements). For asphalt and jointed concrete pavements, a 0.1-mile segment is considered in good condition if all three metrics are rated Good; if two or more metrics are considered poor, the condition is Poor. The federal rule requires a new methodology be used to measure rut depth and cracking that has not been historically used by FDOT. In consideration of the differences in the data collection requirements used by FDOT and those mandated by the rule, as well as other unknowns associated with the new required processes, initial 2- and 4-year targets were established.

Bridge Condition. The bridge condition performance measures for the percent of deck area classified as Good and Poor is determined using National Bridge Inventory (NBI) condition ratings for deck, superstructure, substructure, and culvert. Condition is determined by the lowest rating of these items using a scale of 1 to 9. If the NBI rating is 1 to 4, the bridge is classified as Poor; NBI rating 7 to 9, the bridge is Good. Bridges rated below 7 but above 4 are classified Fair; however, there is no related FHWA performance measure associated with that rating. Considering the differences in criteria, initial 2- and 4-year targets were established.

System Performance. The travel time reliability metric is calculated for each segment of the National Highway System (NHS), weighted by volume and occupancy. Data is collected in 15-minute segments during four total time periods and is reported as the “percent of reliable person-miles traveled.” The segment is considered reliable if the reliability ratio is below 1.50 during all time periods. Freight movement is assessed by calculating truck travel time reliability ratio using data from five total time periods. The higher the ratio value, the less reliable the segment. A matrix showing consistency between the goals of the 2045 LRTP and the ten planning factors from the FAST Act is shown in **Table 8**.

The Infrastructure Investment and Jobs (IIJA) Act

Enacted in 2021, the bipartisan IIJA act provides additional support and enhances the FAST Act and MAP-21. It also helps support the new planning emphasis areas, such as equity and climate.

Fixing America's Surface Transportation (FAST) Act

Enacted in 2015, the FAST Act (Public Law No. 114-94) provides support and enhancement to the Moving Ahead for Progress in the 21st Century Act (MAP-21). The FAST Act is the first federal law to provide long-term funding to infrastructure planning and investment for surface transportation since the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) became law in 2005.

The FAST Act supports MAP-21 by continuing to create a streamlined, performance-based surface transportation program that builds on many of the multimodal transportation policies first established under the Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991. Establishing a performance- and outcome-based program requires the investment of financial resources in projects that collectively progress toward achieving national multimodal transportation goals. The 2045 LRTP has been developed to ensure compliance with the requirements of the FAST Act and includes a performance-based approach to the transportation decision-making process.

FAST Act Planning Factors

The FAST Act has established specific planning factors that call for the recognition of and address the relationship between transportation, land use, and economic development. The federal planning factors form the cornerstone for the 2045 LRTP and include:

- Supporting the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency.
- Increasing the safety of the transportation system for motorized and non-motorized users.
- Increasing the security of the transportation system for motorized and non-motorized users.
- Increasing accessibility and mobility of people and freight.
- Protecting and enhancing the environment, promoting energy conservation, improving quality of life, and promoting consistency between transportation improvements and state and local growth and economic development patterns.
- Enhancing the integration and connectivity of the transportation system, across and between modes, for people and freight.
- Promoting efficient system management and operation.
- Emphasizing the preservation of the existing transportation system.

Lake-Sumter MPO 2045 LRTP

Pursuant to MAP-21, enacted in 2012, and the FAST Act enacted in 2015, state departments of transportation (DOT) and MPOs must apply a transportation performance management approach in carrying out their federally required transportation planning and programming activities. The process requires establishing and using a coordinated, performance-based approach to transportation decision-making to support national goals for the federal-aid highway and public transportation programs.

On May 27, 2016, the FHWA and the FTA issued the Statewide and Nonmetropolitan Transportation Planning and Metropolitan Transportation Planning Final Rule (The Planning Rule). This rule details how state DOTs and MPOs must implement new MAP-21 and FAST Act transportation planning requirements, including the transportation performance management provisions.

- Improving the resiliency and reliability of the transportation system and reducing or mitigating stormwater impacts of surface transportation.
- Enhancing travel and tourism.

In accordance with the Planning Rule, the Lake-Sumter MPO included a description of the performance targets that apply to the MPO planning area and a System Performance Report. The System Performance Report evaluates the condition and performance of the transportation system with respect to required performance targets and reports on progress achieved in meeting the targets in comparison with baseline data and previous reports.

Goals and objectives reflecting the vision of the planning area were developed at the outset of the planning process. They are consistent with the guidance and requirements of the FAST Act, current federal transportation planning requirements, and the FTP.

GOAL 1 – SUPPORT ECONOMIC SUCCESS AND COMMUNITY VALUES

- Objective 1.1 – Reduce congestion and improve travel reliability for the traveling public and freight users on highways and major arterials.
- Objective 1.2 – Enhance access to major employment centers.

- Objective 1.3 – Coordinate regional transportation planning efforts and local comprehensive planning efforts.
- Objective 1.4 – Minimize negative environmental impacts associated with transportation investments.
- Objective 1.5 – Address Environmental Justice in all appropriate aspects of MPO planning.

GOAL 2 – PROMOTE SAFETY AND SECURITY

- Objective 2.1 – Prioritize investments to reduce crash-related Fatalities for all modes of transportation.
- Objective 2.2 – Prioritize investments to reduce crash-related Serious Injuries for all modes of transportation.
- Objective 2.3 – Prioritize investments to reduce Bicycle and Pedestrian crash-related Fatalities and Serious Injuries.
- Objective 2.4 – Prioritize investment evacuation routes.
- Objective 2.5 – Invest in Transit security.

GOAL 3 – IMPROVE TRANSPORTATION OPERATIONS

- Objective 3.1 – Invest in Intelligent Transportation Systems (ITS).
- Objective 3.2 – Invest in Vehicle to Infrastructure Communication.
- Objective 3.3 – Invest in cost-effective Congestion Management strategies.

GOAL 4 – IMPROVE MOBILITY

- Objective 4.1 – Improve transportation options available.
- Objective 4.2 – Invest in Bicycle and Pedestrian infrastructure.
- Objective 4.3 – Maintain or enhance Transit service.
- Objective 4.4 – Balance regional capacity needs with human-scale accessibility needs (Complete Streets).
- Objective 4.5 – Invest in Context-Sensitive/Complete Street investments in multimodal corridors.

GOAL 5 – SYSTEM PRESERVATION

- Objective 5.1 – Maintain transportation infrastructure.
- Objective 5.2 – Maintain transit assets.

A matrix showing consistency between the LRTP Goals and the planning factors from the FTP is shown in **Table 8**.

Table 8 | 2045 LRTP Goals and Florida Transportation Plan Goals

2045 LRTP Goals	Florida Transportation Plan Goals						
	Safety and Security	Infrastructure	Mobility	Transportation Choices	Economy	Communities	Environment
Economic Success and Community Values	●	●	●	●	●	●	●
Safety and Security	●	●	●	●	●	●

Mobility	●		●	●	●	●	
System Preservation	●	●	●	●	●	●	●

Federal Performance Measures

The FAST Act has also established specific Performance Measures to evaluate critical needs by setting targets for safety, asset maintenance, and travel time reliability.

The federal Performance Measures are listed below.

Highway Safety Measures (PM1)

- Fatalities
- Serious Injuries
- Non-Motorized Fatalities and Serious Injuries

Pavement and Bridge Condition (PM2)

- Pavement Condition
- Bridge Condition

System Performance, Freight, & Congestion Mitigation & Air Quality Improvement Program Measures (PM3)

- Level of Travel Time Reliability (LOTTR) - on the Interstate
- LOTTR - on non-Interstate
- Truck Travel Time Reliability (TTTR) index

Transit Asset Management Measure (TAM)

- State of good repair for
 - Equipment
 - Rolling Stock
 - Infrastructure
 - Facilities

Safety Performance Targets (PM1)

Safety is the first national goal identified in the FAST Act. In March 2016, the HSIP and Safety Performance Management Measures Rule (Safety PM Rule) were finalized and published in the Federal Register. The rule requires MPOs to establish targets for the following safety-related performance measures and report progress to the state DOT:

1. Number of Fatalities;
2. Rate of Fatalities per 100 million Vehicle Miles Traveled (VMT);
3. Number of Serious Injuries;
4. Rate of Serious Injuries per 100 million VMT; and
5. Number of Non-motorized Fatalities and Non-motorized Serious Injuries.

The Lake-Sumter MPO, along with FDOT and other traffic safety partners, shares a high concern about the upward trend of traffic fatalities, both statewide and nationally. As such, the Lake-Sumter MPO must set targets by February 27 of each year. LSMPO has again agreed to support FDOT's statewide safety performance targets for calendar year 2025, thus agreeing to plan and program projects in the TIP that, once implemented, are anticipated to make progress toward achieving statewide targets. The safety initiatives within this TIP are intended to contribute toward achieving these targets. The Lake-Sumter MPO and statewide safety performance measures and targets are listed in **Table 9**.

Based on FDOT's Source Book⁵, LSMPO's 5-year average number of fatalities on public roads has risen 3.3% from 2022. This represents ninety-three fatalities in 2023.

⁵<https://fdotsourcebook.com/federal-measures/safety>

Table 9 | PM1 Performance Measures and Targets

Performance Measures	FDOT 2024 Statewide Targets	Lake-Sumter MPO 2024 Targets	LSMPO Average Annual Numbers 2019-2023	Statewide
Number of fatalities	0	0	93.2	3,441.8
Rate of fatalities per 100 million VMT	0	0	1.606	1.543
Number of serious injuries	0	0	548.8	16,380.6
Rate of serious injuries per 100 million VMT	0	0	9.485	7.344
Number of non-motorized fatalities and non-motorized serious injuries	0	0	56.8	3148.2

The TIP includes specific investment priorities that support the MPO's goals and objectives, including safety, using a prioritization and project selection process established in the 2045 LRTP. This process evaluates projects that have an anticipated effect of reducing both fatal and injury crashes. The MPO's goal of reducing fatal and serious injury crashes is linked to the TIP and the process used in prioritizing the projects is consistent with federal requirements.

Safety projects in the FY 2026 - 2030 LSMPO TIP are split into two categories:

- Bike/Ped and Sidewalk
- Safety/Operations/TSMO

These project categories, as presented in this report, contain several FDOT work descriptions. The categories have been

created to make it easier to capture the projects in the TIP and correlate them to the LOPP report. A list of the project categories and FDOT work descriptions can be found in Appendix A.

The FY 2026 - 2030 TIP includes a total of 41 projects under these two categories with only two of the projects under Bike/Ped and Sidewalk. The total amount that is programmed for these projects over the five-year period is approximately \$208 million, representing 16.3% of the total project costs in the FY 2026 - 2030 TIP. A sample list of these projects is shown in **Table 10**. The MPO continues monitoring investments in the TIP and demonstrating progress toward goals and objectives.

Table 10 | LSMPO Sample Safety Projects

FM# DOT	Project Description	County	Project Category
4479901	Beverly Shores Neighborhood Sidewalk Project at Various Locations	Lake	Bike/Ped and Sidewalk
4396832	Log House Rd (Pine Ridge Elementary School) from CR 561 to Lakeshore Dr	Lake	Bike/Ped and Sidewalk
4483771	I-75/SR 93 from SR 44 to the Marion County Line	Sumter	Safety/Operations/TSMO
4456851	SR 33/ CR 33 from S of Edgewood Boys Ranch Rd to S of Wright St	Lake	Safety/Operations/TSMO
4452951	SR 471 from CR 478A to SR 35/US 301	Sumter	Safety/Operations/TSMO

Complete Streets

A transportation system that addresses the needs of all users of the road, including the needs of people who walk, bike, drive, and take transit is an essential component of the MPO's safety commitment. Complete Streets are roadways designed to accommodate all users and may include sidewalks, bicycle lanes/paved shoulders, dedicated bus lanes, pedestrian crossings, and traffic calming measures. The MPO supports Complete Streets as an alternative transportation strategy to balance quality of life and mobility issues. There are no complete streets projects included in this FY 2026 - 2030 TIP. The 2024 LOPP listed a total of 15 complete street projects, with one project listed in the Top Priority Projects. Nevertheless, because safety is inherent in so many FDOT and LSMPO programs and projects, this TIP is anticipated to support progress toward achieving the safety targets. The

MPO does spend the 2% of PL funding for planning studies on helping advance Complete Streets efforts in the region.

Crash Locations for Future Study

Geographical crash data from Signal Four Analytics for the years 2020 through 2024 was reviewed to identify areas of high crash concentrations with serious injuries and fatalities that could benefit from future study or be incorporated into safety-related projects. Although specific improvements should be tailored to address prevalent crash types, potential safety improvements could include elements such as signal timing or phasing changes, changes in traffic control or access management, speed management treatments, and/or bicycle and pedestrian improvements.

Table 11 summarizes the intersections with the highest number of serious injuries and/or fatal crashes and should be considered for future study and safety improvements. **Figure 7** is a map showing these high crash locations.

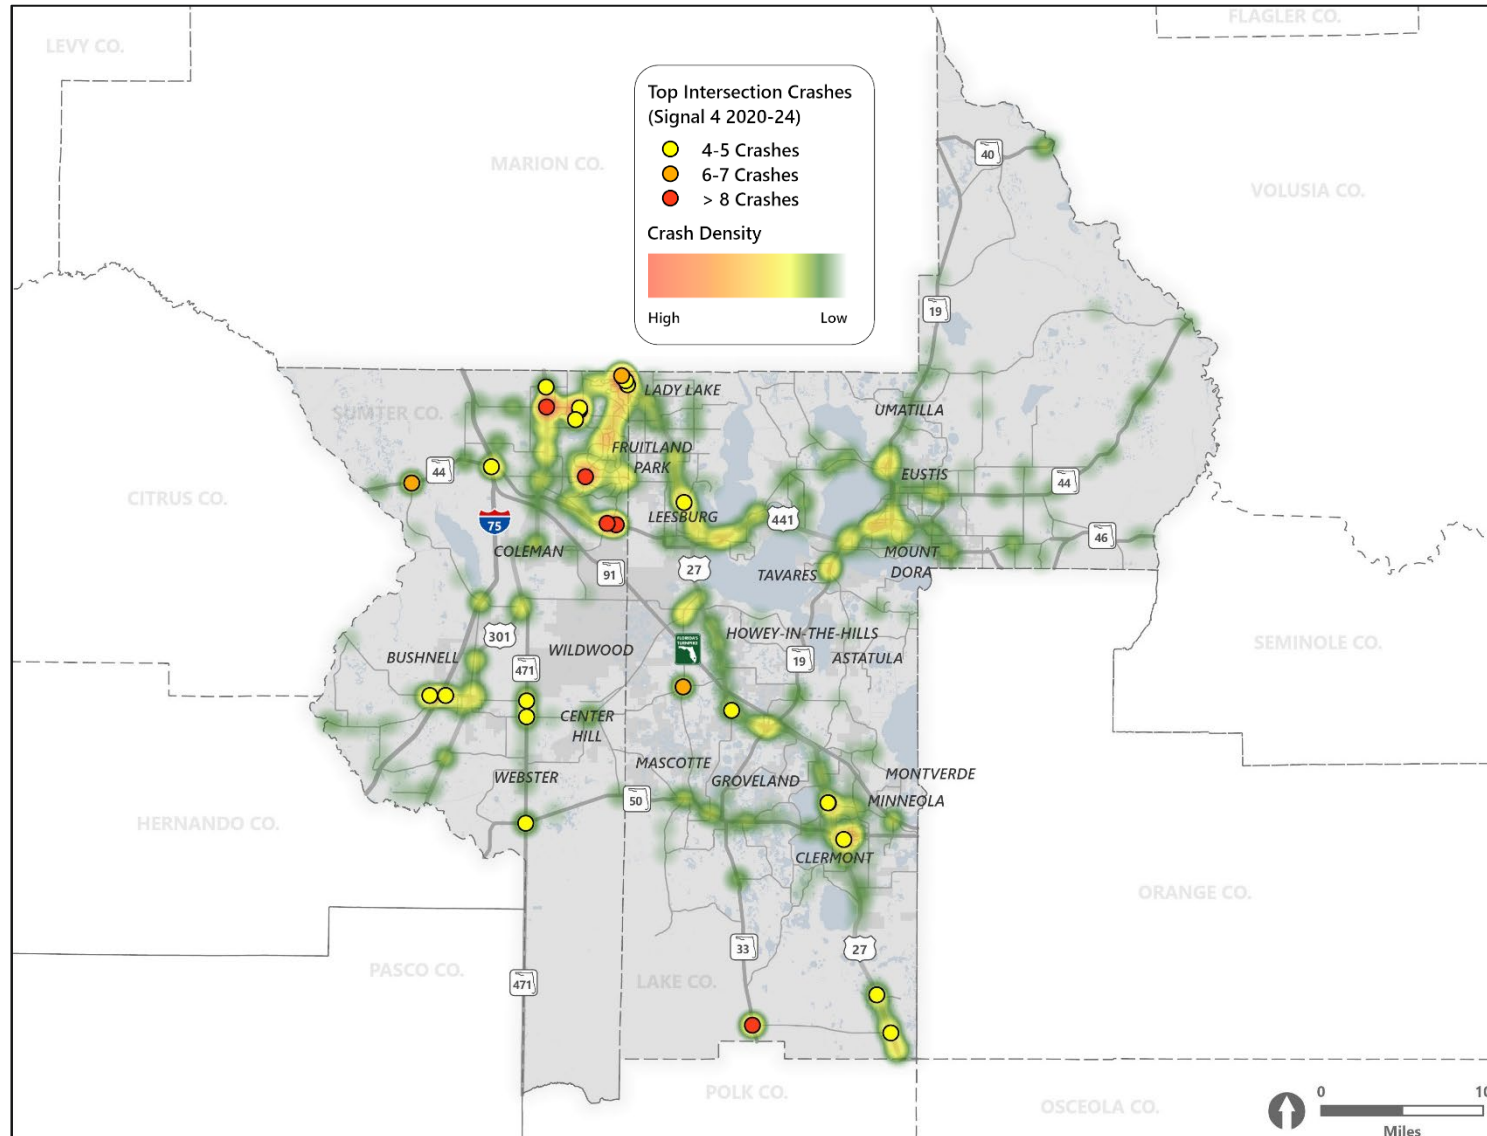

A number of these roadways have safety projects associated with them in the FY 2026 - 2030 TIP either at the intersection or along the corridor.

Table 11 | Top Intersection Locations for Serious Injury or Fatal Crashes

Pavement & Bridge Condition Measures (PM2)

The second of the performance measures rules issued by the FHWA became effective on May 20, 2017, establishing measures to assess pavement and bridge conditions on the NHS. Requirements involve measuring the condition of these facilities and reporting conditions that are considered “Good” and those considered “Poor.” Facilities rated as “Good”

suggest that no major investments are needed. Facilities rated as “Poor” indicate major investments will likely be needed in the near term.

In December 2022, FDOT established statewide targets for 2023 and 2025. **Table 12** shows LSMPO’s number for the year 2023 as well as the Statewide numbers.

Table 12 | PM2 Performance Measures and Targets

Performance Measures	2-Year Statewide Target	4-Year Statewide Target	LSMPO Average Annual Numbers 2023	Statewide
Pavement				
Percent of Interstate NHS Pavement in: Good Condition	60%	60%	77.3%	67.6%
Percent of Interstate NHS Pavement in: Poor Condition	5%	5%	0%	0.2%
Percent of Non-Interstate NHS Pavement in: Good Condition	40%	40%	62.7%	50.8%
Percent of Non-Interstate NHS Pavement in: Poor Condition	5%	5%	0.4%	0.5%
Bridges				
Percent of NHS Bridges by Deck Area in: Good Condition	50%	50%	38.4%	55.35%
Percent of NHS Bridges by Deck Area in: Poor Condition	10%	10%	0%	0.6%

On September 26, 2018, the Lake-Sumter MPO agreed to support FDOT's statewide pavement and bridge performance targets for 2023 targets, thus agreeing to plan and program projects in the TIP that, once implemented, are anticipated to make progress toward achieving the statewide targets. LSMPO has continued to support the FDOT's 2-year and 4-year targets for their performance measures.

The Lake-Sumter MPO TIP reflects investment priorities established in the Lake-Sumter MPO 2045 LRTP. The focus of Lake-Sumter MPO's investments in bridge and pavement conditions, such as those in the following categories:

- Bridge replacement or reconstruction,
- New bridge capacity on the NHS,
- System resiliency projects that improve NHS bridge components (e.g., upgrading culverts),
- Pavement replacement or reconstruction (on the NHS),
- New NHS lanes or widenings, including resurfacing existing lanes associated with new capacity.

Pavement and Bridge Investments in the TIP

The projects included in the TIP are consistent with FDOT's Five-Year Work Program, and therefore to FDOT's approach to prioritize funding to ensure the transportation system is adequately preserved and maintained. Per federal planning requirements, the state selects projects on the NHS in cooperation with the MPO from the approved TIP. Given the significant resources devoted in the TIP to pavement and bridge projects, the MPO anticipates that once implemented, the TIP will contribute to progress towards achieving the statewide pavement and bridge condition performance targets.

The FY 2026 - 2030 TIP includes 16 projects, representing 61 miles of roadway, which focus on improving pavement and

bridge conditions. These projects total over \$128 million in funding, a decrease from last year's TIP. A sample list of these projects is shown in **Table 13**. The MPO continues monitoring investments in the TIP and demonstrating progress toward goals and objectives.

Table 13 | LSMPO Sample Pavement and Bridge Projects

FM# DOT	Project Description	County	Type of Work Description
4507721	From West of CR 739 To East of SR 471/Tarrytown Rd	Sumter	Pavement Only Resurface (Flex)
4452951	SR 471 from CR 478A To SR 35/US 301	Sumter	Pavement Only Resurface (Flex)
4526461	SR 44 from US 441 / SR 44 / SR 500 to S Of SR 44 (Orange Ave)	Lake	Pavement Only Resurface (Flex)
4541961	SR 33 From Polk County Line to CR 33	Lake	Pavement Only Resurface (Flex)
4541981	SR 50 From CR 561/12th St to Bloxam Ave	Lake	Resurfacing
4483771	I-75/SR 93 From SR 44 to the Marion County Line	Sumter	Resurfacing
4534881	Morse Blvd. Bridge-Repair/Rehabilitation	Sumter	Bridge – Repair/Rehabilitation

Travel Time Reliability (PM3)

The third set of Performance Measures were established in January 2017 by the USDOT. These measures assess passenger and freight performance on the Interstate and non-Interstate NHS. Federal rules require MPOs to establish four-year performance targets for the LOTTR and TTTR performance measures.

LOTTR is the percent of reliable person-miles on the interstate system. It is defined as the ratio of longer travel times (80th percentile) to normal travel times (50th percentile) during four time periods throughout the day.

TTTR is defined as the ratio of longer truck travel times (95th percentile) to a normal travel time (50th percentile) over the interstate during five time periods throughout the day.

On December 16, 2022, FDOT established statewide performance targets for the second performance period ending in 2025. The two-year targets represent performance at the end of calendar year 2025, while the four-year targets represent performance at the end of 2027.

On September 26, 2018, the Lake-Sumter MPO agreed to support FDOT's statewide system performance and freight targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets. **Table 14** presents a statewide target for each PM3 measure along with the 2023 performance measures by LSMPO and the State.

Table 14 | PM3 Statewide System Performance Measures and Targets

Performance Measure	2-Year Statewide Target	4-Year Statewide Target	LSMPO Average Annual Numbers 2023	Statewide
Percent of person-miles on the Interstate system that are reliable	75%	70%	100%	82.80%
Percent of person-miles on the non-Interstate NHS that are reliable	50%	50%	97.50%	89.10%
Truck travel time reliability index	1.75	2.0	1.42	1.48

System Performance and Freight Investments in the TIP

The LSMPO TIP reflects investment priorities established in the 2045 LRTP. The focus of LSMPO's investments that address system performance and freight include projects in the following categories:

- Corridor improvements
- Intersection improvements (on NHS roads)
- Projects evaluated in the CMP and selected for the TIP
- Investments in transit, bicycle, or pedestrian systems that promote mode shift

- Managed lanes
- Freight improvements (Interstate) that increase reliability (could include improved weigh stations, addressing identified truck bottlenecks on the Interstate, etc.)
- TSMO/ITS projects or programs
- Travel demand management programs, park-and-ride lots, etc.

A sample list of these projects is shown in

Table 15. The MPO continues monitoring investments in the TIP and demonstrating progress toward goals and objectives.

Table 15 | LSMPO Sample System Performance and Freight Investments Projects

FM# DOT	Project Description	County	Project Category
4270561	SR 50/SR 33 from CR 565 (Villa City) to 2 nd St	Lake	Strategic Intermodal System Projects (SIS)
4301321	SR 35 (US 301) From CR 470 To SR 44	Sumter	Roadway Capacity Projects (Non-SIS)
4396651	Rolling Acres Road from S of CR466 to N of US 27/US 441	Lake	Roadway Capacity Projects (Non-SIS)
4494541	Hammock Ridge Rd Roundabout	Lake	Safety/Operations/TSMO Projects
4505841	SR 44/SR 500 (Main St) At Intersection CR 473 (Creek Rd/Bluegill Dr)	Lake	Safety/Operations/TSMO Projects
4530861	SR 44 From SR 44 In Lake County to Volusia County Line	Lake	Safety/Operations/TSMO Projects

Transit Asset Management Performance Measures

The FTA published the final TAM rule in July 2016. The rule applies to recipients of Federal transit funds and requires that public transit providers develop and maintain a TAM plan, establish state-of-good (SGR) repair standards, and performance measures for the assets as described in **Table 16**.

The transit provider's TAM targets are based on the condition of existing transit assets and planned investments in equipment, rolling stock, infrastructure, and facilities. The targets reflect the most recent data available on the number, age, and condition of transit assets, and capital investment plans for improving these assets. **Table 16** demonstrates the performance measures.

Table 16 | TAM Performance Measures

Asset Category	Performance Measures
Equipment	Percentage of non-revenue, support-service and maintenance vehicles that have met or exceeded their Useful Life Benchmark
Rolling Stock	Percentage of revenue vehicles within a particular asset class that have either met or exceeded their useful life benchmark
Infrastructure	Percentage of track segments with performance restrictions (There is currently no rail operating in Lake County)
Facilities	Percentage of facilities within an asset class rated below condition 3.0 on the Transit Economic Requirements Model (TERM) scale

Two transit service providers, LakeXpress and Sumter County Transit, serve the MPO's planning area and are considered Tier II providers. On September 26, 2018, LakeXpress established TAM targets for each of the applicable asset categories. **Table 17** presents the targets for Tier II providers that are not part of the Group TAM Plan.

Sumter County Transit is part of the Group TAM Plan for Fiscal Years 2019/20-2022/23 developed by FDOT for Tier II providers in Florida. The FY 2021 asset conditions and FY 2022 targets for the Tier II providers are shown in **Table 18**. Only LakeXpress is federally required to develop a TAM.

Table 17 | FTA TAM Targets for Tier II Providers

Asset Category	Asset Class	2-Year Performance Target
Revenue Vehicles		
Age - % of revenue vehicles within a particular asset class that have met or exceeded their Useful Life Benchmark (ULB)	Bus	19%
	Cutaway Bus	53%
	Mini-Van	50%
	Van	50%
Equipment		
Age - % of equipment or non-revenue vehicles within a particular asset class that have met or exceeded their ULB	Non-Revenue Automobile	0%
Facilities		
Condition - % of facilities with a condition rating below 3.0 on the FTA TERM Scale	Administration/ Maintenance Facilities	0%

Table 18 | FDOT Group Plan TAM Targets for Tier II Providers

Asset Category	Asset Class	2-Year Performance Target
Revenue Vehicles		
Age - % of revenue vehicles within a particular asset class that have met or exceeded their ULB	Automobile	0%
	Bus	20.46%
	Cutaway Bus	9.32%
	School Bus	96%
	Mini-Van	18.61%
	SUV	19%
	Van	38.55%
Equipment		
Age - % of equipment or non-revenue vehicles within a particular asset class that have met or exceeded their ULB	Non-Revenue Automobile	≤66%
Facilities		
Condition - % of facilities with a condition rating below 3.0 on the FTA Transit Economic Requirements Model (TERM) Scale	Passenger/Parking Facilities	≤0%
	Administration/ Maintenance Facilities	≤0%

Transit Asset Management Investments in the TIP

The Lake-Sumter MPO's TIP was developed and is managed in cooperation with LakeXpress and Sumter County Transit. It reflects the investment priorities established in the Lake-Sumter MPO 2045 LRTP.

FTA funding, as programmed by the region's transit providers and FDOT, is used for programs and products to improve the condition of the region's transit assets. The focus of Lake-Sumter MPO's investments address transit state of good repair such as those in the following categories:

- Bus and other vehicle purchase and replacements,
- Equipment purchases and replacements,
- Retrofits,
- Repair, rehabilitation, and replacement of transit facilities,
- Repair, rehabilitation, and replacement of transit infrastructure.

Transit asset condition and state of good repair is a consideration in the methodology that LSMPO uses to select projects for inclusion in the TIP. The TIP includes specific investment priorities that support all of the MPO's goals, including transit state of good repair, using a prioritization and project selection process established in the LRTP. This process evaluates projects that, once implemented, are anticipated to improve transit state of good repair in the MPO's planning area. The LSMPO TIP devotes resources to projects that will maintain and improve transit state of good repair. Investments in transit assets in the TIP include \$14 million for capital improvements/vehicle purchases.

The LSMPO TIP has been evaluated, and the overall program's anticipated effect is that, once implemented, progress will be made toward achieving the TAM performance targets. The Lake-Sumter MPO will continue to coordinate with

LakeXpress and Sumter County Transit to maintain the region's transit assets in a state of good repair.

Investment decisions for asset replacement in the FDOT Group TAM Plan inventory are made with the goal to maintain or improve the percentage of vehicles, equipment, and facilities in an adequate or better condition. FDOT and its subrecipient transit providers will monitor all assets for unsafe conditions. Identifying an opportunity to improve the safety of an asset, however, does not necessarily indicate an unsafe condition. If an unacceptable safety risk associated with an asset is identified, that asset will be ranked with higher investment priority to the extent practicable. The subrecipients prioritize the rehabilitation and replacement of vehicles that provide transit service over non-revenue vehicles and facilities.

Transit Safety Performance Measures

FTA's Public Transportation Agency Safety Plan (PTASP) regulations established transit safety performance management requirements for providers of public transportation systems that receive federal financial assistance under 49 U.S.C. Chapter 53.

The regulations apply to all operators of public transportation that are a recipient or sub-recipient of FTA Urbanized Area Formula Grant Program funds under 49 U.S.C. Section 5307, or that operate a rail transit system that is subject to FTA's State Safety Oversight Program. The PTASP regulations do not apply to certain modes of transit service that are subject to the safety jurisdiction of another Federal agency, including passenger ferry operations regulated by the United States Coast Guard, and commuter rail operations that are regulated by the Federal Railroad Administration.

The PTASP must include performance targets for the performance measures established by FTA in the [National Public Transportation Safety Plan](#), which was published on January 28, 2017. The transit safety performance measures are:

- Total number of reportable fatalities and rate per total vehicle revenue miles by mode.
- Total number of reportable injuries and rate per total vehicle revenue miles by mode.
- Total number of reportable safety events and rate per total vehicle revenue miles by mode.
- System reliability – mean distance between major mechanical failures by mode.

In Florida, each Section 5307 or 5311 public transportation provider must develop a System Safety Program Plan (SSPP) under Chapter 14-90, Florida Administrative Code. FDOT technical guidance recommends that Florida's transit agencies revise their existing SSPPs to be compliant with the FTA PTASP requirements.⁶

Each public transportation provider that is subject to the PTASP regulations must certify that its SSPP meets the requirements for a PTASP, including transit safety targets for the federally required measures. Providers were required to certify their initial PTASP and safety targets by July 20, 2021. Once the public transportation provider establishes safety targets it must make the targets available to MPOs to aid in the planning process. MPOs are not required to establish transit safety targets annually each time the transit provider

establishes targets. Instead, MPO targets must be established when the MPO updates the LRTP (although it is recommended that MPOs reflect the current transit provider targets in their TIPs).

When establishing transit safety targets, the MPO can either agree to program projects that will support the transit provider targets or establish its own separate regional transit safety targets for the MPO planning area. In addition, the LSMPO must reflect those targets in LRTP and TIP updates.

Transit Safety Targets

The following public transportation providers operate in the LSMPO planning area: Sumter County Transit, and LakeXpress. Of these, LakeXpress is responsible for developing a PTASP and establishing transit safety performance targets annually as they receive federal funds under the FTA Urbanized Area Formula Grants.

⁶ FDOT Public Transportation Agency Safety Plan Guidance Document for Transit Agencies. Available at [ptasp-14-90-guidance-document_09112019.docx \(live.com\)](#)

Transit Agency Safety Targets

The LakeXpress established the transit safety targets identified in **Table 19** on January 7th, 2021:

Table 19 | Transit Safety Performance Targets for LakeXpress

Transit Mode	Fatalities (total)	Fatalities (rate)	Injuries (total)	Injuries (rate)	Safety Events (total)	Safety Events (rate)	System Reliability
Fixed Route Bus	0	0	45	0.00002	19	0.000007	12,534
ADA Paratransit	0	0	27	0.000006	9	0.000002	40.813

MPO Transit Safety Targets

As discussed above, MPOs are not required to establish transit safety targets annually each time the transit provider establishes targets. Instead, MPO's must revisit targets each time the MPO updates the LRTP. MPOs can either agree to program projects that will support the transit provider targets or establish separate regional transit safety targets for the MPO planning area. MPO targets may differ from agency targets, especially if there are multiple transit agencies in the MPO planning area.

On September 26, 2018, the LSMPO agreed to support the LakeXpress and Sumter County Transit safety targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the provider's targets.

Transit Safety Investments in the TIP

The LSMPO TIP was developed and is managed in cooperation with LakeXpress and Sumter County Transit. It reflects the investment priorities established in the 2045 LRTP.

FTA funding, as programmed by the region's transit providers and FDOT, is used for programs and products to improve the safety of the region's transit systems. The focus of LSMPO's investments that address transit safety include additional funding from the FTA Section 5307 funding.

Transit safety is a consideration in the methodology LSMPO uses to select projects for inclusion in the TIP. The TIP includes specific investment priorities that support all the MPO's goals, including transit safety, using a prioritization and project selection process established in the LRTP. This process evaluates projects that, once implemented, are

anticipated to improve transit safety in the MPO's planning area.

The LSMPO TIP has been evaluated and the anticipated effect of the overall program is that, once implemented, progress will be made towards achieving the transit safety performance targets. The LSMPO will continue to coordinate with the LakeXpress and Sumter County Transit to maintain and improve the safety of the region's transit system and maintain transit assets in a state of good repair. The LSMPO TIP devotes resources to projects that will maintain and improve transit safety. Investments in transit safety in the TIP total \$27.2 million.

FIVE-YEAR SUMMARIES

DETAILED PROJECT SHEETS

In addition to the project summary tables in the previous section, the projects are also displayed in this section with more project and cost information, as well as a map identifying where the project is located.

Detailed Project Information – This section provides relevant project information, such as the FDOT FM Number (FPID), the name of the project, what type of project it is, the length of the project, etc.

Detailed Project Map – This section shows where the project is located within the LSMPO planning area.

Detailed Cost Information – This section provides a breakdown of the previous and future costs of the project by fund code and phase, as well as for currently programmed costs over the next five years.

Appendix B: Transportation Performance Measures Consensus Planning Document

Transportation Performance Measures Consensus Planning Agreement Approved October 23, 2019

The Lake~Sumter MPO Governing Board approved the Florida TPM Consensus Planning Agreement as part of the MPO's planning process.

Transportation Performance Measures Consensus Planning Document

Purpose and Authority

This document has been cooperatively developed by the Florida Department of Transportation (FDOT) and Florida's 27 Metropolitan Planning Organizations (MPOs) through the Florida Metropolitan Planning Organization Advisory Council (MPOAC), and, by representation on the MPO boards and committees, the providers of public transportation in the MPO planning areas.

The purpose of the document is to outline the minimum roles of FDOT, the MPOs, and the providers of public transportation in the MPO planning areas to ensure consistency to the maximum extent practicable in satisfying the transportation performance management requirements promulgated by the United States Department of Transportation in Title 23 Parts 450, 490, 625, and 673 of the *Code of Federal Regulations* (23 CFR). Specifically:

- 23 CFR 450.314(h)(1) requires that "The MPO(s), State(s), and providers of public transportation shall jointly agree upon and develop specific written procedures for cooperatively developing and sharing information related to transportation performance data, the selection of performance targets, the reporting of performance targets, the reporting of performance to be used in tracking progress

toward achievement of critical outcomes for the region of the MPO, and the collection of data for the State asset management plan for the National Highway System (NHS).”

- 23 CFR 450.314(h)(2) allows for these provisions to be “Documented in some other means outside the metropolitan planning agreements as determined cooperatively by the MPO(s), State(s), and providers of public transportation.”

Section 339.175(11), Florida Statutes creates the MPOAC to “Assist MPOs in carrying out the urbanized area transportation planning process by serving as the principal forum for collective policy discussion pursuant to law” and to “Serve as a clearinghouse for review and comment by MPOs on the Florida Transportation Plan and on other issues required to comply with federal or state law in carrying out the urbanized transportation planning processes.” The MPOAC Governing Board membership includes one representative of each MPO in Florida.

This document was developed, adopted, and subsequently updated by joint agreement of the FDOT Secretary and the MPOAC Governing Board. Each MPO will adopt this document by incorporation in its annual Transportation Improvement Program (TIP) or by separate board action as documented in a resolution or meeting minutes, which will serve as documentation of agreement by the MPO and the provider(s) of public transportation in the MPO planning area to carry out their roles and responsibilities as described in this general document.

Roles and Responsibilities

This document describes the general processes through which FDOT, the MPOs, and the providers of public transportation in MPO planning areas will cooperatively develop and share information related to transportation performance management.

Email communications will be considered written notice for all portions of this document. Communication with FDOT related to transportation performance management generally will occur through the Administrator for Metropolitan Planning in the Office of Policy Planning.

Communications with the MPOAC related to transportation performance management generally will occur through the Executive Director of the MPOAC.

1. Transportation performance data:

- a) FDOT will collect and maintain data, perform calculations of performance metrics and measures, and provide to each MPO the results of the calculations used to develop statewide targets for all applicable federally required performance measures. FDOT also will provide to each MPO the results of calculations for each applicable performance measure for the MPO planning area, and the county or counties included in the MPO planning area.¹² FDOT and the MPOAC agree to use the National Performance Management Research Data Set as the source of travel time data and the defined reporting segments of the Interstate System and non-Interstate National Highway System for the purposes of calculating the travel time-based measures specified in 23 CFR 490.507, 490.607, and 490.707, as applicable.
- b) Each MPO will share with FDOT any locally generated data that pertains to the federally required performance measures, if applicable, such as any supplemental data the MPO uses to develop its own targets for any measure.
- c) Each provider of public transportation is responsible for collecting performance data in the MPO planning area for the transit asset management measures as specified in 49 CFR 625.43 and the public transportation safety measures as specified in the National Public Transportation Safety Plan. The providers of public transportation will provide to FDOT and the appropriate MPO(s) the transit performance data used to support these measures.

2. Selection of performance targets:

FDOT, the MPOs, and providers of public transportation will select their respective performance targets in coordination with one another. Selecting targets generally refers to the processes used to identify, evaluate, and make decisions about potential targets prior to action to formally establish the targets. Coordination will include as many of the following opportunities as deemed appropriate for each measure: in-person meetings, webinars, conferences calls, and email/written communication. Coordination will include timely sharing of information on

proposed targets and opportunities to provide comment prior to establishing final comments for each measure.

The primary forum for coordination between FDOT and the MPOs on selecting performance targets and related policy issues is the regular meetings of the MPOAC. The primary forum for coordination between MPOs and providers of public transportation on selecting transit performance targets is the TIP development process.

Once targets are selected, each agency will take action to formally establish the targets in its area of responsibility.

- a) FDOT will select and establish a statewide target for each applicable federally required performance measure.
 - i. To the maximum extent practicable, FDOT will share proposed statewide targets at the MPOAC meeting scheduled in the calendar quarter prior to the dates required for establishing the target under federal rule. FDOT will work through the MPOAC to provide email communication on the proposed targets to the MPOs not in attendance at this meeting. The MPOAC as a whole, and individual MPOs as appropriate, will provide comments to FDOT on the proposed statewide targets within sixty (60) days of the MPOAC meeting. FDOT will provide an update to the MPOAC at its subsequent meeting on the final proposed targets, how the comments received from the MPOAC and any individual MPOs were considered, and the anticipated date when FDOT will establish final targets.
 - ii. FDOT will provide written notice to the MPOAC and individual MPOs within two (2) business days of when FDOT establishes final targets. This notice will provide the relevant targets and the date FDOT established the targets, which will begin the 180-day time-period during which each MPO must establish the corresponding performance targets for its planning area.
- b) Each MPO will select and establish a target for each applicable federally required performance measure. To the extent practicable, MPOs will propose, seek comment on, and establish their targets through existing processes such as the annual TIP update. For each performance measure, an MPO will have

the option of either:

- i. Choosing to support the statewide target established by FDOT, and providing documentation (typically in the form of meeting minutes, a letter, a resolution, or incorporation in a document such as the TIP) to FDOT that the MPO agrees to plan and program projects so that they contribute toward the accomplishments of FDOT's statewide targets for that performance measure.
 - ii. Choosing to establish its own target, using a quantifiable methodology for its MPO planning area. If the MPO chooses to establish its own target, the MPO will coordinate with FDOT and, as applicable, providers of public transportation regarding the approach used to develop the target and the proposed target prior to establishment of a final target. The MPO will provide FDOT and, as applicable, providers of public transportation, documentation (typically in the form of meeting minutes, a letter, a resolution, or incorporation in a document such as the TIP) that includes the final targets and the date when the targets were established
- c) The providers of public transportation in MPO planning areas will select and establish performance targets annually to meet the federal performance management requirements for transit asset management and transit safety under 49 U.S.C. 5326(c) and 49 U.S.C. 5329(d).
- i. The Tier I providers of public transportation will establish performance targets to meet the federal performance management requirements for transit asset management. Each Tier I provider will provide written notice to the appropriate MPO and FDOT when it establishes targets. This notice will provide the final targets and the date when the targets were established, which will begin the 180- day period within which the MPO must establish its transit-related performance targets. MPOs may choose to update their targets when the Tier I provider(s) updates theirs, or when the MPO amends its long-range transportation plan by extending the horizon year in accordance with 23 CFR 450.324(c).
 - ii. FDOT is the sponsor of a Group Transit Asset Management plan for sub

recipients of Section 5311 and 5310 grant funds. The Tier II providers of public transportation may choose to participate in FDOT's group plan or to establish their own targets. FDOT will notify MPOs and those participating Tier II providers following establishment of transit-related targets. Each Tier II provider will provide written notice to the appropriate MPO and FDOT when it establishes targets. This notice will provide the final targets and the date the final targets were established, which will begin the 180-day period within which the MPO must establish its transit-related performance targets. MPOs may choose to update their targets when the Tier II provider(s) updates theirs, or when the MPO amends its long-range transportation plan by extending the horizon year in accordance with 23 CFR 450.324(c).

- iii. FDOT will draft and certify a Public Transportation Agency Safety Plan for any small public transportation providers (defined as those who are recipients or sub recipients of federal financial assistance under 49 U.S.C. 5307, have one hundred (100) or fewer vehicles in peak revenue service, and do not operate a rail fixed guideway public transportation system). FDOT will coordinate with small public transportation providers on selecting statewide public transportation safety performance targets, with the exception of any small operator that notifies FDOT that it will draft its own plan.
- iv. All other public transportation service providers that receive funding under 49 U.S. Code Chapter 53 (excluding sole recipients of sections 5310 and/or 5311 funds) will provide written notice to the appropriate MPO and FDOT when they establish public transportation safety performance targets. This notice will provide the final targets and the date the final targets were established, which will begin the 180-day period within which the MPO must establish its transit safety performance targets. MPOs may choose to update their targets when the provider(s) updates theirs, or when the MPO amends its long-range transportation plan by extending the horizon year in accordance with 23 CFR 450.324(c).
- v. meeting minutes, a letter, a resolution, or incorporation in a document such as the TIP)

that includes the final If the MPO chooses to support the asset management and safety targets established by the provider of public transportation, the MPO will provide to FDOT and the provider of public transportation documentation that the MPO agrees to plan and program MPO projects so that they contribute toward achievement of the statewide or public transportation provider targets. If the MPO chooses to establish its own targets, the MPO will develop the target in coordination with FDOT and the providers of public transportation. The MPO will provide FDOT and the providers of public transportation documentation (typically in the form of targets and the date the final targets were established. In cases where two or more providers operate in an MPO planning area and establish different targets for a given measure, the MPO has the options of coordinating with the providers to establish a single target for the MPO planning area, or establishing a set of targets for the MPO planning area.

3. Reporting performance targets:

- a) Reporting targets generally refers to the process used to report targets, progress achieved in meeting targets, and the linkage between targets and decision making processes FDOT will report its final statewide performance targets to the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) as mandated by the federal requirements.
- i. FDOT will include in future updates or amendments of the statewide long-range transportation plan a description of all applicable performance measures and targets and a system performance report, including progress achieved in meeting the performance targets, in accordance with 23 CFR 450.216(f).
- ii. FDOT will include in future updates or amendments of the statewide transportation improvement program a discussion of the anticipated effect of the program toward achieving the state's performance targets, linking investment priorities to those performance targets, in accordance with 23 CFR 450.218 (q).
- iii. FDOT will report targets and performance data for each applicable highway performance measure to FHWA, in accordance with the

reporting timelines and requirements established by 23 CFR 490; and for each applicable public transit measure to FTA, in accordance with the reporting timelines and requirements established by 49 CFR 625 and 40 CFR 673.

- b) Each MPO will report its final performance targets as mandated by federal requirements to FDOT. To the extent practicable, MPOs will report final targets through the TIP update or other existing documents.
 - i. Each MPO will include in future updates or amendments of its metropolitan long- range transportation plan a description of all applicable performance measures and targets and a system performance report, including progress achieved by the MPO in meeting the performance targets, in accordance with 23 CFR 450.324(f)(3-4).
 - ii. Each MPO will include in future updates or amendments of its TIP a discussion of the anticipated effect of the TIP toward achieving the applicable performance targets, linking investment priorities to those performance targets, in accordance with 23 CFR 450.326(d).
 - iii. Each MPO will report target-related status information to FDOT upon request to support FDOT's reporting requirements to FHWA.
 - c) Providers of public transportation in MPO planning areas will report all established transit asset management targets to the FTA National Transit Database (NTD) consistent with FTA's deadlines based upon the provider's fiscal year and in accordance with 49 CFR Parts 625 and 630, and 49 CFR Part 673.
4. Reporting performance to be used in tracking progress toward attainment of performance targets for the MPO planning area:
- a) FDOT will report to FHWA or FTA as designated, and share with each MPO and provider of public transportation, transportation performance for the state showing the progress being made towards attainment of each target established by FDOT, in a format to be mutually agreed upon by FDOT and the MPOAC.
 - b) If an MPO establishes its own targets, the MPO will report to FDOT on an

annual basis transportation performance for the MPO area showing the progress being made towards attainment of each target established by the MPO, in a format to be mutually agreed upon by FDOT and the MPOAC. To the extent practicable, MPOs will report progress through existing processes including, but not limited to, the annual TIP update.

- c) Each provider of public transportation will report transit performance annually to the MPO(s) covering the provider's service area, showing the progress made toward attainment of each target established by the provider.
5. Collection of data for the State asset management plans for the National Highway System (NHS):
- a) FDOT will be responsible for collecting bridge and pavement condition data for the State asset management plan for the NHS. This includes NHS roads that are not on the State highway system but instead are under the ownership of local jurisdictions, if such roads exist.

1 When an MPO planning area covers portions of more than one state, as in the case of the Florida-Alabama TPO, FDOT will collect and provide data for the Florida portion of the planning area.

2 If any Florida urbanized area becomes nonattainment for the National Ambient Air Quality Standards, FDOT also will provide appropriate data at the urbanized area level for the specific urbanized area that is designated.

3 When an MPO planning area covers portions of more than one state, as in the case of the Florida-Alabama TPO, that MPO will be responsible for coordinating with each state DOT in setting and reporting targets and associated data.

- Operating For Fixed Route
- Operating/Admin. Assistance

BRIDGE

- Bridge-Repair/Rehabilitation

Appendix D: TIP Public Comments

Comment Summary			Response
Name - Joe Elliott	Event - LSMPO TIP Lunch and Learn	Date - 06/04/2025	Yes, this has been approved and is currently funded in this TIP. It is a resurfacing project, but with complete street elements included.
Project: 4513131 - SR 35 (US 301) FROM LION ST TO E KENTUCKY AVE Comment: Is this an approved project?			
Name - Joe Elliott	Event - LSMPO TIP Lunch and Learn	Date - 06/04/2025	They may be included within multiple project categories, depending on the work description. Some are included within TSM&O Projects, others in Non-SIS Roadway Capacity Projects.
Project: General Comment: How can Complete Streets projects be identified within the TIP?			
Name - Mario Nappa	Event - LSMPO TIP Lunch and Learn	Date - 06/04/2025	Florida Turnpike projects are largely funded from tolls. There are impacts though to projects from rising costs, to less funding available due to less gas taxes, etc.
Project: General Comment: Are the Turnpike widening efforts impacting overall funding availability?			
Name - Ricky Harper	Event - LSMPO TIP Lunch and Learn	Date - 06/04/2025	Additional information can be found within the TIP report, such as funding, etc. Bridge funding is typically not included within TIPs, so only so much information is available.
Project: 4534881 - MORSE BOULEVARD BRIDGE REHABILITATION Comment: Can you provide more details about that project?			

Comment Summary			Response
Name - Mario Nappa	Event - LSMPO TIP Lunch and Learn	Date - 06/04/2025	There are currently discussions, but overall, the State is waiting on potential changes from the Federal Government before making any changes.
Project: General Comment: Do you know if the State Legislature is working on identifying new forms of fundings or increasing funding levels for existing revenue sources? For example, taxing EVs or Hybrids?			
Name - Mario Nappa	Event - LSMPO TIP Lunch and Learn	Date - 06/04/2025	Those considerations are not included within the TIP, but it can be amended if those were to become available. There will be a meeting with Lake County Commissioners in June to discuss scenarios and impacts.
Project: General Comment: The Lake County Council has discussed alternative funding sources for the County and Cities. How could this impact projects?			
Name - Donna Bosold	Event - LSMPO TIP Lunch and Learn	Date - 06/04/2025	This isn't typically reviewed within the TIP, but will be an exercise as part of the Long Range Transportation Plan, which is currently ongoing.
Project: General Comment: How many projects are currently delayed due to lack of funding?			

Appendix E: TIP Amendment Revision Log

Transportation Improvement Program - Amendment #	Approval Date	Purpose	SIS	FDOT Identification Number	Type Work	County	LoPP	Total 5-Year Cost
A1	TBD	TIP Modification	Yes	2382757	New Road Construction	Lake	-	\$170,241
