

# Congestion Management Process Plan (CMPP) – Phase II

MPO Governing Board Meeting  
10/28/2026

# What is a Congestion Management Process?

- A congestion management process (CMP) is a systematic and regionally-accepted approach for managing congestion.
- Required for MPOs that are a TMA. While LSMPO is not a TMA, FDOT requires it.

# Eight Step CMP Process (FHWA)

- Develop regional objectives for congestion management;
- Define the CMP network;
- Develop multimodal performance measures;
- Collect data/monitor system performance;
- Analyze congestion problems and needs;
- Identify and assess strategies;
- Program and implement strategies; and
- Evaluate strategy effectiveness.
