

Transportation Improvement Program (TIP)

TIP Overview

The Transportation Improvement Program (TIP) is a **five-year financially feasible** program including a variety of transportation improvement projects.

The LSMPO TIP is **updated annually** to reflect the next five-year period of financially feasible projects. After adoption by the Governing Board, the TIP is further updated through amendments as projects are funded or move through new projects phases.

The TIP has **consistency** with other **regional plans** including:

2050 Long Range
Transportation Plan (LRTP)

FDOT Five-Year Work
Program

Lake County's Transit
Development Plan (TDP)

TIP Dashboard

To view the TIP Dashboard,
scan the QR code, or visit:
<https://www.lakesumtermpo.com/planning-documents/tip/>

The LSMPO TIP, in addition to a report, uses an online geographic information systems (GIS) Dashboard to show the multimodal transportation projects visually. The TIP Dashboard is updated with every annual report update and amendment to provide the **most updated** information to stakeholders and the community.

The TIP Dashboard allows you to view projects by:

- Project Type (Bridge, Trail, etc)
- Projects on the State Intermodal System (SIS)
- Project Status (Adopted or Draft)
- Project Location (Lake or Sumter)
- Projects Federally Funded
- Project Number
- Responsible Agency
- Road Name

LOPP Dashboard

In addition to the TIP, the LSMPO List of Priority Projects (LOPP) has been added to the dashboard. This allows for more consistency and transparency of LSMPO core products.

For more information about the LOPP, scan the QR code or visit:
